Subversive Spirituality L Paul Jensen, 2011-06-30 *Subversive Spirituality* links the

practice and study of Christian spirituality with Christian mission It develops a twofold thesis grace spiritual disciplines and mission practices are inseparably linked in the mission of Jesus of the early church and of several historical renewal movements as well as in a contemporary field research sample and amidst the collapse of space and time evidenced by our culture s increasingly hurried pace of life more time and space are needed for regular solitary and communal spiritual practices in church mission and leadership structures if Christian mission is to transform people and culture in our time This requires a subversion of the collapsed spatial and temporal codes that have infected our Christian institutions Jensen employs methods and approaches from a variety of academic disciplines to explore both spirituality in terms of space and time and mission in terms of deed and word Specifically Jensen examines the spirituality and mission of Jesus the early church the apostolic fathers Origen the Devotio Moderna the early Jesuits David Brainerd and several women in 19th century Protestant missions He considers the spirituality and mission that have arisen within the postmodern generations born after 1960 Based on the theological historical cultural and field analyses of this study a model for spirituality and mission is proposed The model addresses the contemporary collapse of space and time and appears to have widespread applicability to diverse cultures and eras Jensen s model is applied to the pluralistic and postmodern milieu of North America with recommendations for spirituality and mission in church mission and educational structures A derivative model for teaching and practicing spirituality and mission in the academy which also has application for non formal leadership development structures is also proposed

Violence, Transformation, and The Sacred: "They shall be called Children of God" Margaret Pfeil and Tobias L. Winright, 2012 Forthcoming Books Rose Arny, 2002 *Empire of Sacrifice* Jon Pahl, 2010-01-05 It is widely recognized that American culture is both exceptionally religious and exceptionally violent Americans participate in religious communities in high numbers yet American citizens also own guns at rates far beyond those of citizens in other industrialized nations Since 9 11 United States scholars have understandably discussed religious violence in terms of terrorist acts a focus that follows United States policy Yet according to Jon Pahl to identify religious violence only with terrorism fails to address the long history of American violence rooted in religion throughout the country s history In essence Americans have found ways to consider blessed some very brutal attitudes and behaviors both domestically and globally In *Empire of Sacrifice* Pahl explains how both of these distinctive features of American culture work together by exploring how constructions along the lines of age race and gender have operated to centralize cultural power across American civil or cultural religions in ways that don t always appear to be religious at all Pahl traces the development of these forms of systemic violence throughout American history using evidence from popular culture including movies such as *Rebel without a Cause* and *Reefer Madness* and works of literature such as *The Narrative of the Life of Frederick Douglass* and *The Handmaid s Tale* to illuminate historical events Throughout Pahl focuses an intense light on the complex and durable interactions between religion and violence in American history from Puritan Boston to George W Bush s Baghdad

Imagining Methodism in Eighteenth-Century Britain Misty G. Anderson, 2012-03-14 In the eighteenth century

British Methodism was an object of both derision and desire. Many popular eighteenth century works ridiculed Methodists yet often the very same plays, novels and prints that cast Methodists as primitive, irrational or deluded also betrayed a thinly cloaked fascination with the experiences of divine presence attributed to the new evangelical movement. Misty G. Anderson argues that writers, actors and artists used Methodism as a concept to interrogate the boundaries of the self and the fluid relationships between religion and literature, between reason and enthusiasm and between theater and belief. Imagining Methodism situates works by Henry Fielding, John Cleland, Samuel Foote, William Hogarth, Horace Walpole, Tobias Smollett and others alongside the contributions of John Wesley, Charles Wesley and George Whitefield in order to understand how Methodism's brand of experimental religion was both born of the modern world and perceived as a threat to it. Anderson's analysis of reactions to Methodism exposes a complicated interlocking picture of the religious and the secular, terms less transparent than they seem in current critical usage. Her argument is not about the lives of eighteenth century Methodists; rather, it is about Methodism as it was imagined in the work of eighteenth century British writers and artists where it served as a sign of sexual, cognitive and social danger. By situating satiric images of Methodists in their popular contexts, she recaptures a vigorous cultural debate over the domains of religion and literature in the modern British imagination. Rich in cultural and literary analysis, Anderson's argument will be of interest to students and scholars of the eighteenth century, religious studies, theater and the history of gender.

Novel Friendships and Community in Cervantes's "Don Quixote"

Marsha S. Collins, 2025-09-30. *Novel Friendships and Community in Cervantes's Don Quixote* analyzes Don Quixote through the critical lens of friendship studies. Turning a critical spotlight on the friendship between Don Quixote and Sancho Panza, this book examines the formation, growth and dynamics of their friendship as the nucleus of the first modern novel in the West and the source of the work's enduring power. *Novel Friendships* also examines the theme of amity in relation to the evolving concept of community as a throughline in Cervantes's fiction before, during and after *Don Quixote*. This book shows the power of the arts, especially storytelling, to build friendships and foster community and highlights how Cervantes deploys fiction to cultivate his readers' sense of friendship and to create a community of readers. *Novel Friendships* suggests that today's readers may find Cervantes's views on amity and community highly relevant to the contemporary world.

The Sound of Salvation Guangtian Ha, 2022-02-22. Winner 2023 Clifford Geertz Prize in Anthropology of Religion, Society for the Anthropology of Religion. The Jahriyya Sufis, a primarily Sinophone order of Naqshbandiyya Sufism in northwestern China, inhabit a unique religious soundscape. The hallmark of their spiritual practice is the loud *jahr* remembrance of God in liturgical rituals featuring distinctive melodic vocal chants. The first ethnography of this order in any language, *The Sound of Salvation* draws on nearly a decade of fieldwork to reveal the intricacies and importance of Jahriyya vocal recitation. Guangtian Ha examines how the use of voice in liturgy helps the Jahriyya to sustain their faith and the ways it has enabled them to endure political persecution over the past two and a half centuries. He situates the Jahriyya in a global multilingual

network of Sufis and shows how their characteristic soundscapes result from transcultural interactions among Middle Eastern Central Asian and Chinese Muslim communities Ha argues that the resilience of Jahriyya Sufism stems from the diversity and multiplicity of liturgical practice which he shows to be rooted in notions of Sufi sainthood He considers the movement of Jahriyya vocal recitation to new media forms and foregrounds the gendered opposition of male voices and female silence that structures the group's rituals Spanning diverse disciplines including anthropology ethnomusicology Islamic studies sound studies and media studies and using Arabic Persian and Chinese sources *The Sound of Salvation* offers new perspectives on the importance of sound to religious practice the role of gender in Chinese Islam and the links connecting Chinese Muslims to the broader Islamic world
