Version 2.5 Now includes information on using Open Office with writer2ePub extension to directly produce ePubs Building an eBook is no longer the domain of computer geeks, HTML experts, PHP gurus or the major publishing houses. Now in a few easy steps anyone with a computer and access to the internet can build their own eBooks. You don't need to spend a lot of money. You just need to follow these easy instructions to get your eBook published and available to the widest audience. Easy eBook Publishing leads you step by step through getting the software you need. I will step you through installing that software, formatting required so your masterpiece complies with the various requirements of the different eBooks formats and finally transferring your work to the two major distributors of the eBook world: Amazon to build the files necessary for upload of your book to Amazon Kindle for PC to view your book on your home computer and allow yourself to make changes prior to uploading to Amazon Kindle Previewer to view exactly how your eBook will look if you don't own a Kindle. A text editor I prefer WinEdt but you can use WordPad or Notepad. A screen capture program I prefer Snagit but you could use Windows Snipping Tool. Adobe Digital Editions to view your ePub formatted files. Nook iBooks pdfs Calibre to translate your work between all the different formats. Just click on the links to go and get these programs. Then install them on your computer. If you need help setting them up you can find step by step instructions at my support site. You will need accounts at KDP Amazon to publish for Kindle and at Smashwords to publish for Nook iBook Sony Diesel Kobo and pdf Review from independent buyer. Daniel P. Calvisi Author **Making Every Primary Lesson Count** Jo Payne, 2017-06-20 In Making Every Primary Lesson Count: Six Principles to Support Great Teaching and Learning, full-time primary teachers Jo Payne and Mel Scott share evidence-informed practice and gimmick-free advice for ensuring that every lesson makes a difference for young learners. Writing in the engaging style of Shaun Allison and Andy Tharby's award-winning Making Every Lesson Count, the book is underpinned by six pedagogical principles: challenge, explanation, modelling, practice, feedback, and questioning, and provides simple, realistic strategies to develop a culture of growth and excellence with pupils. Jo and Mel advocate an approach designed to cultivate a growth mindset in the classroom and guide children towards independence, motivating both teachers and pupils to aim high and put in the effort required to be successful in all subject areas. The authors also offer tips from across the Early Years and Key Stages 1 to 2 phases on how to implement effective routines and procedures so that pupils are clear about what is expected from them in the classroom. Making Every Primary Lesson Count is for new and experienced teachers alike. It does not pretend to be a magic bullet. It does not claim to have all the answers. Rather, the aim of the book is to provide effective strategies to bring the six principles to life, with each chapter introduced by two fictional scenarios rooted

in situations primary teachers typically encounter and concluding in a series of questions to inspire reflective thought and help you relate the content to your own practice In an age of educational quick fixes and ever moving goalposts this precise and insightful addition to the Making Every Lesson Count series will have a high impact on learning in the classroom enabling pupils to leave primary school as confident successful learners equipped with the skills and knowledge required of them Suitable for all Early Years and primary teachers
