190 Service Manual

The present complete edition of the Workshop Manual for Model 190 which was announced in the preliminary edition of June 1957, continues Mercedes series of workshop manuals designed to help you in carrying out repairs properly, and in determining the causes of trouble.

180 - 220 SE Service Manual

This manual was developed as a supplementary manual to the Workshop Manual Model 190 to extend the coverage to Models 180, 180a, 180b, 180c, 180D, 180Db, 180Dc, 190D, 190Db, 190SL, 220a, 219, 220S and 220SE.

The individual repair procedures are described in detail only if they do not correspond to those of Model 190. When there is no difference, reference is made to the basic Model 190 Workshop Manual. This means that for a complete description of various repair procedures, both manuals, the Workshop Manual Model 190 and the Workshop Manual 180 to 220SE, must be available.

Not covered are the side-valve engine of model 180, diesel engines OM 636 OM 621 of models 180D, 180Db, 180Dc, 190D and 190Db, the fuel injection system of Model 220SE, the hydraulic-automatic transmission, and the doublejointed rear axle of model 180 and 180D. These units are covered in other workshop manuals.
