Networks of Faith and Profit Yiwen Li,2023-05-31 Between 839 and 1403 CE there was a six century lapse in diplomatic relations between present day China and Japan This hiatus in what is known as the tribute system has led to an assumption that there was little contact between the two countries in this period Yiwen Li debunks this assumption arguing instead that a vibrant Sino Japanese trade network flourished in this period as Buddhist monks and merchants fostered connections across maritime East Asia Based on a close examination of sources in multiple languages including poems and letters transmitted images and objects and archaeological discoveries Li presents a vivid and dynamic picture of the East Asian maritime world She shows how this Buddhist trade network operated outside of the framework of the tribute system and through novel interpretations of Buddhist records provides a new understanding of the relationship between Buddhism and commerce

Faith and Fraternity Laura Branch,2017-05-08 In Faith and Fraternity Laura Branch provides the first sustained comparative analysis of London s livery companies during the Reformation Focussing on the Grocers and the Drapers this book challenges the view that merchants were zealous early Protestants and that the companies to which they belonged adapted to the Reformation by secularising their ethos Rather the rhetoric of Christianity particularly appeals to brotherly love punctuated the language of corporate governance throughout the century and helped the liveries retain a spiritual culture These institutions comprised a spectrum of religious identities yet members managed to coexist relatively peacefully in this way the liveries help us to understand better how the transition from a Catholic to a Protestant society was negotiated

Christian faith and cultural crisis Best,2025-01-27 *Christian Faith and Cultural Crisis* Ernest Edwin Best,1966

Divided by Faith Benjamin J. Kaplan,2010-03-30 As religious violence flares around the world we are confronted with an acute dilemma Can people coexist in peace when their basic beliefs are irreconcilable Benjamin Kaplan responds by taking us back to early modern Europe when the issue of religious toleration was no less pressing than it is today *Divided by Faith* begins in the wake of the Protestant Reformation when the unity of western Christendom was shattered and takes us on a panoramic tour of Europe s religious landscape and its deep fault lines over the next three centuries Kaplan s grand canvas reveals the patterns of conflict and toleration among Christians Jews and Muslims across the continent from the British Isles to Poland It lays bare the complex realities of day to day interactions and calls into question the received wisdom that toleration underwent an evolutionary rise as Europe grew more enlightened We are given vivid examples of the improvised arrangements that made peaceful coexistence possible and shown how common folk contributed to toleration as significantly as did intellectuals and rulers Bloodshed was prevented not by the high ideals of tolerance and individual rights upheld today but by the pragmatism charity and social ties that continued to bind people divided by faith *Divided by Faith* is both history from the bottom up and a much needed challenge to our belief in the triumph of reason over faith This compelling story reveals that toleration has taken many guises in the past and suggests that it may well do the same in the future

Forgetting Faith? Isabel Karremann,Cornel Zwierlein,Inga Mai Groote,2012-01-27 For the last decade early modern studies have significantly been reshaped by raising new and different questions on the uses of religion This religious turn has generated new discussion of the social processes at work in early modern Europe and their cultural effects from the struggle over religious rites and doctrines to the persecution of secret adherents to forbidden practices The issue of religious

pluralisation has been mostly debated in terms of dissent and escalation But confessional controversy did not always erupt into hostilities over how to symbolize and perform the sacred nor lead to a paralysis of social agency The order of the day may often have been to suspend confessional allegiances rather than enforce religious conflict suggesting a pragmatic rather than polemic handling of religious plurality This raises the urgent question of how normal transconfessional and even transreligious interaction was produced in a context of highly sharpened and always present reflexivity on religious differences Our volume takes up this question and explores it from an interdisciplinary and interconfessional perspective The title Forgetting Faith raises the question whether it was necessary or indeed possible to sidestep religious issues in specific contexts and for specific purposes This does not mean however to describe early modern culture as a process of secularization Rather the collection invites discussion of the specific ways available to deal with confessional conflict in an oblivional mode precisely because faith still mattered more than many other social paradigms emerging at that time such as nationhood ethnic origin or class defined through property

Good Faith in Long-Term Relational Supply Contracts in the Context of Hardship from A Comparative Perspective Peng Guo,2021-11-09 This book provides fair and acceptable solutions to hardship issues in long term relational supply contracts This book uses an approach to strike a balance between the traditional approach underlying classical contract law which emphasises the almost absolute prevalence of the principle of pacta sunt servanda and a flexible approach that is based on the principle of clausula rebus sic stantibus This book argues for an emerging principle of pacta sunt servanda bona fide on the basis of the relational contract theory Additionally this book demonstrates how good faith can serve as a foundation for imposing a duty to renegotiate on the parties The aim of this book is rather to propose how relational contract theory can be applied to the analysis of specific legal rules in general Lastly this boos highlights how the duty to renegotiate and the power to adapt a contract can be further developed upon the occurrence of hardship based on good faith and the relational nature and characteristics of a long term relational supply contract This book explores and enriches the existing research on relational contract theory concentrates primarily on its application in domestic contract laws particularly in the regulation of long term contracts in American contract law As an outcome this book provides a more feasible and satisfactory approach for courts or arbitral tribunals to undertake when facing hardship issues in international
