Mother Bashing Does She Deserve It:

Mother Bashing Nancy Estelle Perry, 2014-12-01 This is a book inspired by mother blame in the author's life. It is about the causes of mother bashing and relationships between mothers and their adult children. Most mothers are women but fathers as well as anyone else may also fulfill the role of mother. The book includes theoretical ideas and examples from actual clinical cases from the author's practice as a Clinical Psychologist to illustrate meanings. The first part of the book defines mother bashing, explains what a good enough mother really is, explores some of the reasons society has blamed mothers, and whether that blame was warranted, as well as addressing the normal healthy aspects of mother blame as related to normal differentiation and individuation. The second part of the book focuses on exploring the issues in our world today that can cause harm to developing children, as well as factors that may cause conflict between mothers and children. Single Parenting, child Abuse, Social Change, and the Technological Revolution can harm children. Children and parents may have different memories causing great conflict. The last part of the book recognizes the profound need for mothering at many levels, beginning with our own children and expanding this to the world. It is designed to help readers assimilate what they learned about mother blame and integrate it with what they learned about themselves. The last chapter provides concrete suggestions to help readers deal with anger and learn to forgive themselves and others. The end of the book is really only the beginning of the next step forward. The book is not written to vindicate mothers or to blame them. Blame already exists. It is not a book about how to be a good parent, but it provides good parenting advice. It is a book that sheds a different light on mothering and parenting today and provides information about how to cope with discord in cross-generational relationships. It challenges mothers, fathers, and their children to evaluate themselves as they read. It includes a pilot study that interviewed 47 mothers about their experiences. The author designed a survey to discover more information about the pain mothers and their adult children are experiencing in their relationships with each other. The survey is at the end of the book and may be taken by anyone over the age of 18 on the author's web site: drnancyperryauthor.com. Information from the survey will be posted on the author's website monthly. Research results may be used in future books. **Mother Bashing** Nancy E. Perry, 2014-12-02 This is a book inspired by mother blame in the author's life. It is about the causes of mother bashing and relationships between mothers and their adult children. Most mothers are women but fathers as well as anyone else may also fulfill the role of mother. The book includes theoretical ideas and examples from actual clinical cases. It is a book for everyone who has a mother or is a mother. It is for both men and women, including those who deserve blame and those who don't. Teenagers may find it a helpful tool to better understand themselves and their parents. This book helps parents become aware of factors within families as well as in society today that harm their children. It demystifies what a good mother really is and provides concrete suggestions on how to deal with problems between mothers and their adult children, as well as strategies to heal. Mothers and adult children will be better able to understand each other and themselves after reading this.

Captive P. Gifford Longley, 2011. After an Abenaki raid on colonial-era Groton, Massachusetts, Jack searches for his nephew John Longley who was taken captive. *Diaries of a Forgotten Parent* Wendy A. Paterson, 2010-02-19. *Diaries of a Forgotten Parent* Divorced Dads on Fathering Through and Beyond Divorce opens an intimate window on the lives of divorced men. Literature on divorce focuses primarily on its effects on women and children, but fair and personal accounts of the lived experiences of custodial and non-custodial fathers are less available. In this highly accessible text, ten American men share intensely personal reflections of guilt, pain, frustration, sacrifice, loneliness, and pride. The men do not see themselves as exemplary; rather, their stories are graphically honest, revealing what Paterson calls ordinary men with all their warts. The author reviews significant works on the male experience of divorce from psychological, legal, educational, and sociological experts, interspersing commentary and research with the men's own voices. From the initial discussion of why men marry and why they divorce through the men's painful memories of being pushed out of their children's lives by angry and resentful mothers, the author illuminates the legal, fiscal, emotional, and practical experiences of men struggling to reinvent their fathering while they find themselves reconfigured into deserters, deadbeats, and visitors. The societal myth that fathers are less valuable parents than mothers is thoroughly deconstructed in this text. The book will help divorced and divorcing men and those who work with them to fully understand the experiences of fathers who never stopped loving and caring for their children in spite of the fact that the contributions of fathers are still largely discounted by schools, courts, and worst of all, by their children's mothers. From this book, readers will understand that there are just too many reasons why fathers must never be forgotten in the lives of their children.
