Merciful Release A History Of The British Euthanasia Movement:

Merciful Release N. D. A. Kemp, 2002 The Labour government elected in 1997 pledged to reform the Westminster parliament by modernising the House of Commons and removing the hereditary peers from the House of Lords Events have consequently demonstrated the deep controversy that accompanies such attempts at institutional reconfiguration and have highlighted the shifting fault lines in executive legislative relations in the UK as well as the deep complexities surrounding British constitutional politics The story of parliamentary reform is about the nature of the British political system about how the government seeks to expand its control over parliament and about how parliament discharges its duty to scrutinise the executive and hold it to account This book available in paperback for the first time charts the course of Westminster reform since 1997 but does so by placing it in the context of parliamentary reform pursued in the past and thus adopts a historical perspective which lends it considerable analytical value Significantly the book examines parliamentary reform through the lens of institutional theory in order not only to describe reform but also to interpret and explain it It also draws on extensive interviews conducted with MPs and peers involved in the reform of parliament since 1997 thus offering a unique insight into how these political actors perceived the reform process in which they played a part Parliamentary reform at Westminster now available in paperback provides a comprehensive and authoritative analysis of the trajectory and outcome of the reform of parliament along with an incisive interpretation of the implications for our understanding of British politics

Paradise Mislaid Jeffrey Burton Russell,2006-05-01 The Christian concept of heaven flourished for almost two millennia but it has lost much of its power in the last hundred years Indeed today even theologians tend to avoid the topic But heaven has always been a central tenet of the Christian faith writes Jeffrey Burton Russell If there is no heaven no resurrection of the dead the entire Christian story makes no sense In this stimulating book Russell sets out to rehabilitate heaven by forcefully attacking a series of ideas that have made belief in heaven not to mention belief in God increasingly difficult for modern people Russell provides elegant and persuasive refutations of arguments ranging from the idea that science has disproved the existence of the supernatural to the notion that biblical criticism has emptied the scripture of meaning Along the way as Russell looks at the ideas of Charles Darwin and Herbert Spencer Mark Twain and Alfred Lord Tennyson Marx and Freud and a host of others he sheds light not only on the history of Christian thought but on the process of secularization in the West One by one Russell refutes these anti religious ideologies pinpointing the deficiencies of their reasoning Throughout the book Russell invites the reader whatever his or her beliefs to take the concept of heaven seriously both as a worldview in itself and as one with enormous influence on the world It is a book that will be welcomed by thinking Christians who often feel beleaguered by the forces of modernity and sometimes find it hard to defend their own beliefs **A ^AMerciful End**
