Mother-infant Attachment and Psychoanalysis Mary Ayers,2003 Brings together theoretical interpretations of shame with clinical studies and integrates major concepts from psychoanalysis Jungian analysis developmental psychology and anthropology
Mother-Infant Attachment and Psychoanalysis Mary Y. Ayers,2014-06-11 Winner of the 2004 Gradiva Award from the National Association for the Advancement of Psychoanalysis The issue of shame has become a central topic for many writers and therapists in recent years but it is debatable how much real understanding of this powerful and pervasive emotion we have achieved Mother Infant Attachment and Psychoanalysis argues that shame can develop during the first six months of life through an unreflected look in the mother's eyes and that this shame is then internalised by the infant and reverberates through its later life The author further expands on this concept of the look through a powerful and extensive study of the concept of the Evil Eye an enduring universal belief that eyes have the power to inflict injury Finally she presents ways of healing shame within a clinical setting and provides a fascinating analysis of the role of eye contact in the therapeutic encounter This book brings together a unique blend of theoretical interpretations of shame with clinical studies and integrates major concepts from psychoanalysis Jungian analysis developmental psychology and anthropology The result is a broad understanding of shame and a real understanding of why it may underlie a wide range of clinical disorders

The Maternal Lineage Paola Mariotti,2012-09-10 Why do women want to have children How does one learn to be a mother Does having babies have anything to do with sex At a time when mothers are bombarded by prescriptive and contradicting advice on how to behave with their children The Maternal Lineage highlights various psychological aspects of the mothering experience International contributors provide clinical examples of frequent and challenging situations that have received scarce attention in psychoanalysis such as issues of neglect and psychical abuse The transgenerational repetition from mother to daughter of distressing mothering patterns is evident throughout the book and may seem inevitable However clinical examples and theoretical research indicate that when the support of partner and friends is not enough the cycle can be brought to an end if the mother receives psychoanalytic informed professional help The Maternal Lineage is divided into four parts An Introduction including a review of the literature focusing on the mother daughter relationship Pregnancy and very early issues Subfertility and its effects on a woman's psyche The psychological aspects of major mothering problems miscarriages post natal depression adolescent motherhood This timely book will be of value to psychoanalysts psychotherapists and health professionals obstetricians psychiatrists midwives and social workers

Saving Face Stephen Pattison, 2016-04-01 Faces are all around us and fundamentally shape both everyday experience and our understanding of people To lose face is to be alienated and experience shame to be enfaced is to enjoy the fullness of life In theology as in many other disciplines faces as both physical phenomena and symbols have not received the critical appreciative attention they deserve This pioneering book explores the nature of face and enfacement both human and divine Pattison discusses questions concerning what face is how important face is in human life and relationships and how we might understand face both as a physical phenomenon and as a series of socially inflected symbols and metaphors about the self and the body Examining what face means in terms of inclusion and exclusion in contemporary human society and how it is related to shame Pattison reveals what the experience of people who have difficulties with faces tell us about our society our understandings of and our reactions to face Exploring this ubiquitous yet ignored area of both contemporary human experience and of the Christian theological tradition Pattison explains how Christian theology understands face both human and divine and the insights might it offer to understanding face and enfacement Does God in any sense have a physically visible face What is the significance of having an enfaced or faceless God for Christian life and practice What does the vision of God mean now If we want to take face and defacing shame seriously and to get them properly into perspective we may need to change our theology thought and practice changing our ways of thinking about God and about theology
