3. Inspect the ski for abnormal bends or cracks.

INSTALLING

CAUTION

Do not over-tighten the ski lock nut or binding will break.

2. Tighten the lock nut securely making sure the ski is flat to ground.

Ski Wear Bar

The ski wear bar is a replaceable bar attached to the underside of the ski. The purpose of the wear bar is to assist in turning the snowmobile, to minimize ski wear, and to maintain good steering control. If the snowmobile is operated primarily in deep snow, the wear bar may not be needed; however, if the snowmobile is operated in terrain where the turn circle is constant, the ski wear bar will wear faster. Arctic Cat recommends that the ski wear bar be checked once a week and replaced if more than 1/2 of original diameter.

REMOVING

1. Remove ice and snow buildup from the ski.
2. With the gas tank nearly empty (less than 1/4 full) by the snowmobile on its side.

CAUTION

A piece of cardboard should be used to protect the forest on the hood.

3. Remove the lock nuts and washers securing the wear bar to the ski. Account for any spacers.

4. Pry the end of the wear bar down until the wear bar ends are clear of the ski, then slide the wear bar upward until the front of the wear bar is free from the ski.

5. Remove the wear bar.
