Multiple Choice Questions of Homoeopathic Pharmacy Dr Parag Ramesh Bhagwat, 2023-07-19 A multiple choice question MCQ is made up of two parts: a stem that identifies the question. It also consists of a set of alternatives or possible answers that contain a key that is the best answer to the question and a number of distractors that are plausible but incorrect answers to the question. Multiple choice questions i.e. MCQs explore the depth of the subjects at all the levels in understanding of the topics. It is a form of an objective assessment in which respondents are asked to select only correct answers from the choices offered as a list. The multiple choice format is most frequently used in educational testing. MCQs are the part of assessment and hence become important for the students in their education. The students are used to MCQs due to the competitive examinations. The aim of writing this book is that the students should cultivate an art of understanding the possible hidden MCQ while reading the chapter. This will motivate them and they will be mentally prepared for examination. There are several benefits of reading the MCQ viz remembering the particular information, answer there by memorizing the particular topic. MCQs test your ability to understand the main ideas contained in a text and then to look for the specific information. All though it is also having some limitations. The MCQ can be classified in three different varieties while reading any chapter like 1 from must know zone, 2 from better to know zone, 3 from well if know zone. MCQ can cover the different aspects of the topic, chapter and the students can be assessed in short period of time. First read the MCQ with calm mind and not with unnecessary hurried reactions. A previously properly prepared topic will always help you to solve the MCQ. What You will get after reading this book: Multidimensional treasure of the MCQ, Insight how to prepare MCQ while reading chapters.
