Ethnoecology has blossomed in recent years into an important science because of the realization that the vast body of knowledge contained in both indigenous and folk cultures is being rapidly lost as natural ecosystems and cultures are being destroyed by the encroachment of development Ethnobotany and ethnozoology both began largely with direct observations about the ways in which people used plants and animals and consisted mainly of the compilation of lists Recently these subjects have adopted a much more scientific and quantitative methodology and have studied the ways in which people manage their environment and as a consequence have used a much more ecological approach This manual of ethnobotanical methodology will become an essential tool for all ethnobiologists and ethnoecologists It fills a significant gap in the literature and I only wish it had been available some years previously so that I could have given it to many of my students I shall certainly recommend it to any future students who are interested in ethnoecology I particularly like the sympathetic approach to local peoples which pervades this book It is one which encourages the ethnobotanical work by both the local people themselves and by academically trained researchers A study of this book will avoid many of the arrogant approaches of the past and encourage a fair deal for any group which is being studied This manual promotes both the involvement of local people and the return to them of knowledge which has been studied by outsiders Careers in Focus: Public Safety, Second Edition James Chambers,2020-04-01 Ferguson s Careers in Focus books are a valuable career exploration tool for libraries and career centers Written in an easy to understand yet informative style this series surveys a wide array of commonly held jobs and is arranged into volumes organized by specific industries and interests Each of these informative books is loaded with up to date career information presented in a featured industry article and a selection of detailed professions articles The information here has been researched vetted and analyzed by Ferguson s editors drawing from government and industry sources professional groups news reports career and job search resources and a variety of other sources For readers making career choices these books offer a wealth of helpful information and resources Each profession article includes Quick Facts a snapshot of important job facts Overview briefly introduces duties and responsibilities History describes the origins and

history of the job The Job describes primary and secondary goals and duties Earnings discusses salary ranges and typical fringe benefits Work Environment looks at typical work conditions and surroundings associated with the job Exploring offers suggestions on how to gain experience and knowledge about or even test drive a career before making a commitment Education and Training Requirements discusses required high school and post secondary education and training Certification Licensing and Special Requirements explains recommended and required certifications or prerequisites for the job Experience Skills and Personality Traits summarizes the personal traits and skills and professional experience needed to get started and succeed Employer Prospects gives an overview of typical places of employment and the best ways to land a job Advancement Prospects presents an expected career path and how to travel it Outlook summarizes the job s potential growth or decline in terms of the general economy and industry projections Unions and Associations lists essential and helpful professional groups Tips for Entry additional tips for preparing for a career and getting a foot in the door For More Information lists organizations that provide career information networking and professional development Sidebars short features showcasing stats trivia and insight about a profession or industry Careers in Focus Public Safety Second Edition covers the following 29 jobs Airport Security Personnel Bail Bondsmen Bodyguards Border Patrol Agents Bounty Hunters Corrections Officers Crime Analysts Customs Officials Deputy U S Marshals Detectives Directors of Security Emergency Medical Technicians Emergency Services Dispatchers FBI Agents Fire Inspectors Fire Investigators Fire Protection Engineers Fire Safety Directors Fire Safety Technicians Firefighters Forensic Experts Fraud Examiners Investigators and Analysts Intelligence Officers Park Rangers Parole Officers Police Officers Polygraph Examiners Secret Service Special Agents Security Consultants and Guards **CRM** ,1994 *Trends* ,1978 Florida Municipal Record ,1946 CRM Bulletin United States.
