**Taylor Swift** Betsy Winakur Tontiplaphol, Anastasia Klimchynskaya, 2024-10-17 Taylor Swift arguably the most prolific and acclaimed singer songwriter of the 21st century has shaped her listeners collective consciousness and challenged her industry s often limiting attitudes toward genre revision and collaboration Although Swift is a perennial subject in the media cast in both a positive and a negative light few professional scholars have considered her ever growing body of work The Literary Taylor Swift examines Swift s significance and timeliness through literary analysis and theory Taylor Swift has been celebrated for her ability to craft immersive narratives and to articulate with lyrical acuity a broad range of emotional experiences and her lyrics underscore her profound relationship with text The Literary Taylor Swift explores Swift s engagements intertextual and otherwise with literature and treats her songs as literature as that is stories poems and other textual forms to which literary critical theories and methodologies can and should be productively applied This collection offers carefully curated arguments constellated around four key relationships Swift and the literary historical canon Swift and the language of gender and sexuality Swift and the relationship between writing and memory and Swift and the nature of literary craft **Black Power Music!**

Reiland Rabaka, 2022-06-13 Black Power Music Protest Songs Message Music and the Black Power Movement critically explores the soundtracks of the Black Power Movement as forms of movement music That is to say much of classic Motown soul and funk music often mirrored and served as mouthpieces for the views and values as well as the aspirations and frustrations of the Black Power Movement Black Power Music is also about the intense interconnections between Black popular culture and Black political culture both before and after the Black Power Movement and the ways in which the Black Power Movement in many senses symbolizes the culmination of centuries of African American politics creatively combined with and ingeniously conveyed through African American music Consequently the term Black Power music can be seen as a code word for African American protest songs and message music between 1965 and 1975 Black Power music is a new concept that captures and conveys the fact that the majority of the messages in Black popular music between 1965 and 1975 seem to have been missed by most people who were not actively involved in or in

some significant way associated with the Black Power Movement
