aims to equip students with the skills and knowledge required for postgraduate music research in any subdiscipline to consider all aspects of the research process and to provide a teaching framework for music lecturers **Scholarly Research in Music** Sang-Hie Lee, 2022-04-28 **Scholarly Research in Music** Shared and Disciplinary Specific Practices Second Edition offers a comprehensive and detailed guide to engaging in research in all disciplines of music This second edition continues to provide the foundational principles of research for all musicians including performers theorists composers conductors music educators and musicologists It strengthens the core pedagogical framework of the first edition by offering updated guidance on available technologies methodologies and materials Driven by the rapidly shifting research paradigms within music sixteen contributors expand the already broad scope of the book with new chapters on research in today's library neurophenomenology in music and self efficacy in music performance as well as new sections in chapters on philosophy historical research social science research and statistics Introducing research as a friendly and accessible process the book engages students in brainstorming a topic asking pertinent questions systematically collecting relevant information analyzing and synthesizing the information and designing a cohesive research plan to conduct original research Detailing the methodologies and techniques of both conventional and innovative approaches to music research **Scholarly Research in Music** provides an essential grounding for all kinds of music researchers **Basic Music Reference** Alan Green, Michael J. Duffy, IV, 2012-11-01 **Basic Music Reference** is a quick start guide designed to introduce library employees to the basic tools and techniques involved in answering questions related to music As in every specialist subject area music has its own terminology but unlike most it also has a multitude of formats on paper and other materials as well as special notation and frequent use of foreign languages in titles and texts These features make it particularly difficult for library employees to answer users questions and thus a guide such as this one is essential Not all libraries with a music collection can afford to hire a music reference librarian Even libraries with such a specialist rely on support staff and student employees to answer questions when the music librarian is not available Whatever the scenario this volume will serve as a helpful training tool for library employees to learn about the basic music reference tools and to develop the techniques of greatest use when answering the most common types of music related questions **Scholarly Research for Musicians** Sang-Hie Lee, 2017-01-20 **Scholarly Research for Musicians** presents a range of research methods and techniques incorporating both the common elements of traditional music research methodologies with innovative research strategies endemic to the fields of social science education and performance science The author's collaborative and interdisciplinary approach reinforces the belief that research is most palpable and successful when accessed through a relevant and meaningful way of organizing thoughts and knowledge Drawing from over twenty years of classroom experience the author organizes the text into five units Common Bases Qualitative Research Quantitative Research Performance Science and Review Research is presented as an accessible process one facilitated by brainstorming and question asking the systematic collection of information and the

analysis and synthesis of information all with the aim to develop a succinct conceptual framework In explicating this process the author introduces traditional Western thought alongside contemporary and Eastern philosophy Experts in the field of performance science explore novel approaches to studying the audience incorporating various measuring devices and methods In the final chapter the author offers strategies for disseminating and publishing research reports Scholarly Research for Musicians demystifies the research process for musicians and music students alike demonstrating the common principles of cohesive research plans PowerPoint presentations are available to instructors covering chapter discussion points in summary format This text explores interdisciplinary methods that merge with and focus on the study of music while emphasizing concepts and materials relevant to all types of research
