Musical Sincerity and Transcendence in Film Timothy B. Cochran,2021-08-16 *Musical Sincerity and Transcendence in Film* focuses on the ways filmmakers treat music reflexively that is draw attention to what it is and what it can do Examining a wide range of movies from recent decades including examples from Indiewood teen film and blockbuster cinema the book explores two recurring ideas about music implied by foregrounded musical activity on screen that music can be a potent means of sincere expression and genuine human connection and that music can enable transcendence of disenchantment and the mundane As an historical musicologist Timothy Cochran explores these assumptions through analysis of musical style aesthetic implications and narrative strategy while treating the ideas as historically grounded and culturally situated with conceptual origins often lying outside of film The book covers eclectic critical terrain to highlight various layers of musical sincerity and transcendence in film including the nineteenth century aesthetics of E T A Hoffmann David Foster Wallace s literary resistance to irony sometimes called the New Sincerity strategies of self revelation in singer songwriter repertoires Lionel Trilling s distinction between sincerity and authenticity theories of play David Nye s notion of the American

technological sublime and Svetlana Boym's writings on nostalgia. These lenses reveal that film is a way of perpetuating, revising, and critiquing ideas about music, and that music in film is a potent means of exploring broader social, emotional, and spiritual desires.

Kaliyuga David Stacton, 2015-02-19. The last of the three trilogies authored by David Stacton (1923-68) was described by the author as an intermezzo designed to deal with sexual relations. After *Old Acquaintance* (1962) and *Sir William* (1963) came *Kaliyuga* (1965), described by Stacton as the story of the relations of Siva and Kali, lightly told. Its chief figures are Charlie and Denise, an American couple in Switzerland prone to domestic spats. After one such set to Charlie finds himself wishing men were gods so to be spared the banality of life's cyclical little dramas. But he knows not of what he speaks or wants. In Hindu mythology, the gods go round and round as we do, making the same mistakes as Charlie and Denise will discover.

Sounding Modernism Julian Murphet, 2017-03-08. This volume brings together a range of essays by eminent and emergent scholars working at the intersection of modern literary cinema and sound studies. The individual studies ask what specific sonorous qualities are capable of being registered by different modern media, and how sonic transpositions and transferences across media affect the ways in which human subjects attend to modern soundscapes. Script, groove, electrical current, magnetic imprint, phonographic vibration: as the contributors show, sound traverses these and other material platforms to become an insistent ground note of modern aesthetics, one not yet adequately integrated into critical accounts of the period. This collection also provides a commanding and wide-ranging investigation of the conditions under which modernists tapped technically into the rhythms, echoes, and sonic architectures of their worlds.

The book moves beyond the traditional topics of human spaceflight, space technology, and space science to include political, social, cultural, and economic issues, and also commercial, civilian, and military applications. Produced in conjunction with the History Committee of the American Astronautical Society, this work divides its coverage into six sections, each beginning with an overview essay followed by an alphabetically organized series of entries on topics such as astrophysics and planetary science, civilian and commercial space applications, human spaceflight, and microgravity science, space and society, and space technology and engineering.
