Muslim Secular Democracy Voices From Within:

Muslim Secular Democracy Lily Zubaidah Rahim, 2013-03-20 The book offers a nuanced and innovative analyses of the emergence of an inclusive secular democratic state paradigm which incorporates the sacred within the framework of secular democracy in the Muslim World

Islam and Democracy in the Maldives Azim Zahir, 2021-11-29 This book examines Islam's relationship to democratization in the Indian Ocean nation of the Maldives It explores how and why an electoral democracy based in a constitution that has many liberal features but also Islam based limitations especially lack of religious freedom emerged in the country by 2009 In doing so the book interrogates a major approach to Muslim politics that assumes reformist interpretations of Islam are a positive and even a necessary force for liberalization and democratization in Muslim majority contexts This book shows reformist Islam did play certain positive roles in democratization in the Maldives However the book suggests reformist Islam may not be an invariably uncontroversial force in the space of politics It argues that modern nation building in the Maldives shaped by political actors with reformist Islamic orientations since around the 1930s has also completely transformed Islam as a modern institutional and discursive political religion These transformations of Islam as a modern political religion have existed as path dependent constraints on the depth of democratization ensuring religion based limitations and intensifying controversy over religion vis vis the state and individual rights An original empirical contribution towards a better understanding of Islam and politics in the Maldives this book will be of interest to academics and students working on democracy and Islam in particular and in the fields of political science and area studies especially South Asian politics

Islam, Gender, and Democracy in Comparative Perspective Jocelyne Cesari, José Casanova, 2017-04-15 The relationship between secularism democracy religion and gender equality has been a complex one across Western democracies and still remains contested When we turn to Muslim countries the situation is even more multifaceted In the views of many western commentators the question of Women Rights is the litmus test for Muslim societies in the age of democracy and liberalism Especially since the Arab Awakening the issue is usually framed as the opposition between liberal advocates of secular democracy and religious opponents of women's full equality

Islam Gender and Democracy in Comparative Perspective critically re engages this too simple binary opposition by reframing the debate around Islam and women's rights within a broader comparative literature Bringing together leading scholars from a range of disciplines it examines the complex and contingent historical relationships between religion secularism democracy law and gender equality Part One addresses the nexus of religion law gender and democracy through different disciplinary perspectives sociology anthropology political science law Part Two localizes the implementation of this nexus between law gender and democracy and provides contextualized responses to questions raised in Part One The contributors explore the situation of Muslim women's rights in minority conditions to shed light on the gender politics in the modernization of the nation and to ponder on the role of Islam in gender inequality across different Muslim countries

Resistance, Power and

Conceptions of Political Order in Islamist Organizations Maren Koss, 2018-01-03 This book provides a comprehensive analysis of Islamist organizations' conceptions of political order based on a comparative case study of the Shiite Lebanese Hezbollah and the Sunni Palestinian Hamas. Connecting Islamism research, Critical Constructivist norm research, and resistance studies from the field of International Relations Theory, it demonstrates that resistance constitutes both organizations' core norm and is relevant for their conceptions of political order. Based on primary Arabic data, the book illustrates that the core norm of resistance is deeply intertwined with both organizations' interactions towards power preservation and the specific political context they are engaged in, characterizing Hezbollah's and Hamas' respective conceptions of political order and explaining the differences between them. In contrast to common perceptions presented in research, politics, and the media, the book shows that in the case of both Hezbollah and Hamas, the religious orientation in Shiite and Sunni Islamist political thought plays a secondary role only when it comes to explaining Islamist organizations' political orientation. Bringing new insights from cases that lie beyond the Western liberal world order into Critical Constructivist norm research and resistance studies, the book establishes a theoretical framework that enables scholars to comprehensively analyze Islamist organizations' political orientation in different cases without being caught in limited analytical categories. It will be of interest to students and scholars of International Relations Theory, Middle East Studies, and Global Governance.

Islam and Secularism in Post-Colonial Thought Hadi Enayat, 2017-06-30 This book is a theoretically and historically informed exploration of secularism in Muslim contexts. It does this through a critical assessment of an influential tradition of thinking about Islam and secularism derived from the work of anthropologist Talal Asad and his followers. The study employs the tools of comparative historical sociology and sociology of knowledge to engage with the assumptions of Asadian theory. Ultimately, Enayat argues against nativist assertions drawn from the experience of Western modernity and provides a qualified defense of secularism.

Islam and Democracy in the 21st Century Tauseef Ahmad Parray, 2023-09-15 This book starts with the prevailing idea of a conflicting relationship between Islam and the Western concept of democracy, both in theory and in practice. With this backdrop, the author addresses the crucial question: Is Islam compatible with democracy? The book offers very useful discussions in framing the contemporary debates surrounding Islam and democracy, treads through diverse theoretical Islamic texts like the Quran and Sunnah, discusses the historical evolution of the concept of Shura, the primary source of democratic ethics in Islam, provides an assessment of the views and visions of some selected Muslim scholars from the 19th to 21st centuries on Islam democracy compatibility, and examines the elements of compatibility between Islam and democracy without ignoring the basic differences that exist between the Western approach to democracy and Islamic political thought.

Theocratic Secularism Naser Ghobadzadeh, 2022 This book articulates a religious rationale for political secularism in the Iranian Shiite context. The genealogy of Twelver Shiite political theology shows that the bitter experience and lack of success of the Shiites in the field of governance in the early centuries of Islamic history

led them to link the realisation of their ideal political system to transcendental factors. Belief in theocracy has always been the basis of Shi'i political theology but with the messianic conception of the 12th Imam in the fourth century its realisation came to depend on the will and intervention of the divine. As a result Shi'i leaders while awaiting the return of the 12th Imam not only do not have the authority or responsibility to take over the institution of government but have been forbidden from doing so. For more than 1300 years the political thought and action of Shi'i religious leaders was shaped by the political theology formulated in this book as Theocratic secularism. In opposition to orthodox Shi'i theology a new politico-religious discourse emerged at the initiative of Ayatollah Khomeini in the last decades of the twentieth century which in this book is referred to as governmental Shi'ism. In sharp contrast to Shi'i orthodoxy governmental Shi'ism considers the occupation of the government apparatus as the duty of Shi'i religious leaders. In this book it is argued that governmental Shi'ism was neither the product of a theological transformation of Shi'i orthodoxy nor used as a blueprint to establish the Islamic Republic. Rather the formation of the Islamic Republic and the clergy's rise to power led to the birth of governmental Shi'ism and bestowed importance on Khomeini's doctrine of *wilayat-i faqih*.

Polygamous Marriages in Peninsular Malaysia Norani Othman, Yaso Nadarajah, Rozana Mohd Isa, 2025-04-28. This book presents the first national study of the practice of polygamy undertaken amongst Malay Muslims contextualised within the broader social, legal and political context of Malaysia. A collaboration between the Sisters in Islam NGO and three universities in Malaysia it examines the perspectives of both men and women through quantitative and qualitative data analysis of over 1 200 surveys and more than 60 in-depth interviews charting the legal, financial, social and emotional impacts of polygamy. It incorporates both progressive Islamic scholarly thought and the unique sociologically rich perspectives of the study respondents. In doing so the data serves to strengthen advocacy for awareness and law reforms within Islamic jurisprudence frameworks and institutions. As one of the most comprehensive surveys ever conducted on polygamy in a Muslim society this represents a major tour de force within a little explored field with tremendous potential for societal impact. This book is relevant to academics and graduate students seeking a deeper understanding of the issues related to Muslim polygamous marriage and to researchers within the broader fields of gender studies, family studies, Islamic studies and Islamic legal studies. It is also a landmark resource for activists and policymakers seeking to advocate on behalf of marginalised groups particularly women and children in polygamous families.

Mahathir's Islam Sven Schottmann, 2018-09-30. Mahathir Mohamad's legacy as Malaysia's longest serving prime minister 1981-2003 is deeply controversial. His engagement with Islam, the religion of just over half Malaysia's population has often been dismissed as partisan maneuvering. Yet his willingness to countenance a more prominent place for Islam in government and society is what distinguished him from other modernist politicians and his instinct to set Malaysian politics against the backdrop of the wider Muslim world was politically astute. Author Sven Schottmann argues that Mahathir's transformative effect on Malaysia can only be fully appreciated if we also take him seriously as one of the postcolonial Muslim world's most

significant political thought leaders Schottmann sees Mahathir's representations of Islam as a relatively coherent discourse that can legitimately be described as Mahathir's Islam. This discourse contains Mahathir's assessment of the economic, political, and sociocultural problems facing the contemporary Muslim world and the range of solutions and corrective measures that he proposed. Muslims should adopt His ideas are fraught with flaws and contradictions. On the one hand, he emphasized the individualistic, egalitarian, pluralistic, democratic, and dynamic qualities of Islam. On the other, his government enacted legislation and acquiesced in the activities of religious bodies that curtailed religious freedoms of both Muslims and non-Muslims. His ideas contributed to Malaysia's worsening state of interethnic relations, yet his insistence that every Muslim had the right to speak for Islam may have paradoxically prepared the ground for a future democratization of Malaysian politics. Mahathir's Islam is based on rigorous analysis of Mahathir's speeches, interviews, and writings, which the author is able to link to parallel processes elsewhere in the Muslim world: Indonesia, the Middle East, Pakistan, Turkey, and diaspora communities in the West. Mahathir's Islamic discourse, Schottmann suggests, must be read against the wider late twentieth-century resurgence of religion in general and the post-1970s Islamic revival in particular. Balanced in approach and engagingly written, this book will be of interest to scholars and students of political science, religious studies, and others interested in Malaysia, Southeast Asia, or Mahathir himself.

Contemporary Perspectives on Revelation and Qu'ranic Hermeneutics Akbar Ali Akbar, 2019-11-27

A number of innovative hermeneutical approaches emerged in Muslim exegetical discourse in the second half of the 20th century. Among these developments is a trend of systematic reform theology that emphasises a humanistic approach whereby revelation is understood to be dependent not only upon its initiator, God, but also upon its recipient, Prophet Muhammad, who takes an active role in the process. Ali Akbar examines the works of four noted scholars of Islam: Fazlur Rahman (Pakistan), Abdolkarim Soroush (Iran), Muhammad Mujtahed Shabestari (Iran), and Nasr Hamid Abu Zayd (Egypt). His study shows that the consequences of taking a humanistic approach to understanding revelation are not confined to the realm of speculation about God-human relations but also to interpreting Qur'anic socio-political precepts. And the four scholars emerge as a distinctive group of Muslim thinkers who open up a new horizon in contemporary Islamic discourse.
