**Muslim Political Participation in Europe** Jørgen S. Nielsen, 2013-02-20 To what extent are Muslims in Europe integrated Muslims are increasingly making themselves noticed in the political process of Europe But what is happening behind the often sensational headlines This book looks at the processes and realities of Muslim participation in local and national politics in a range of Eastern and Western European countries voting patterns in local and national assemblies membership of elected councils and national parliaments and the tensions between ethnic political and religious identities It also asks how political participation and wider integration issues interrelate and considers how Muslims as ethnic groups or through specific institutions seek to locate themselves within European political society

**Muslims and Political Participation in Britain** Timothy Peace, 2015-05-01 This new volume showcases the latest research into Muslim political participation both in terms of electoral politics and civil society initiatives Muslims play a prominent role in British political life yet what do we actually know about the involvement of British Muslims beyond the existence of a handful of Muslim MPs What is unique about political participation in Muslim communities All the major parties actively seek to court a Muslim electorate but does such a phenomenon exist Despite the impact that Muslims have had on election campaigns and their roles in various political institutions research on this topic remains scant Indeed much of the existing work was couched within the broader areas of the participation of ethnic minorities or the impact of race on electoral politics The chapters in this volume address this lacuna by highlighting different aspects of Muslim participation in British politics They investigate voting patterns and election campaigns civil society and grassroots political movements the engagement of young people and the participation of Muslims in formal political institutions Written in an accessible style this book will be of interest to students and scholars of political participation and religious studies
