When Muslim Teens Rebel Mohamed Rida Beshir, 2008

James Herriot meets Bridget Jones in this honest no holds barred account of the ups and downs of a vet's life Misty was ecstatic to see her owner but to the nurse's surprise her owner just stood there and said What have you done with my dog's head I'm sorry replied the nurse what do you mean She's just been in for spaying That isn't my dog's head The rest of it is my dog but you've put a different head on it On a crisp October morning in 1996 Emma Milne started her first job as a newly qualified vet and now she tells the full story We discover the numerous things that can get stuck in an animal's stomach how to stop a cow exploding and the biggest truth of all that animals are easy to deal with in comparison to their owners They say that truth is stranger than fiction and these tales turn out to be stranger and funnier than you could ever have imagined

Teens, Religion & Values Hal Marcovitz, 2014-09-02 Most young people report that they believe in God yet recent surveys by the Gallup Organization have shown that fewer than half of all teenagers in the United States regularly attend church Is organized religion losing its influence on young people How many teenagers think about careers in the clergy This volume examines the influence of religion and values on young people today

The Psychodynamics of First Generation Arab-American Muslim Women Amal Hassoun Nardi, 2007-05-17 This causal comparative study explores the acculturation and its affects on the psychodynamics of first generation Arab American Muslim women born and raised in the United States Torn between the Old World customs of their parents and modern American traditions first generation Arab American Muslim women face a major identity challenge in trying to balance their two worlds Developmental psychologist E H Erikson 1970 proposed a theory of psychosocial development based on six basic concepts stages of development developmental task psychosocial crisis the central process for resolving the psychosocial crisis the radius of significant relationship and coping behaviors Coupled with Erikson's theory is Young Yun Kim's theory of acculturation 1977 which posits that acculturation is a phenomenon when immigrants eventually come to understand the norms and values of their host society and that media of the host society provided a catalyst for the acculturation process Suinn Rickard Figueroa Lew Vigil 1987 developed the Suinn Lew Asian Self Identity Acculturation Scale SL ASIA with 26 questions designed to measure acculturation level The author adjusted the SL ASIA to a more Arab focused version of the scale called the ASL ASIA A pilot study was conducted to insure reliability and validity The Arab Focused Suinn Lew Asian Self Identity Acculturation Scale ASLASIA was used to measure the levels of acculturation of immigrant Arab Muslim mothers and the acculturation levels of their first generation Arab American Muslim daughters A second tool used was the Mother Adult Daughter MAD Questionnaire Developed by Rastogi 1995 the twenty five question MAD measures the adult daughter's perception of connectedness interdependence and trust in hierarchy in her relationship with her mother The last instrument used in this study was the Adult Attachment Inventory AAI Created by Main et al 1984 the AAI is used to assess the attachment related issues of the mother's parenting styles The AAI

is a structured hour long semi clinical interview focusing on early experiences and their effects Several studies have shown that a mother s attachment level affects the attachment level of her daughter Therefore this study focuses on the question Does the level of acculturation of an immigrant Arab Muslim mother compare with the level of acculturation of her first generation Arab American Muslim daughter The research design of this study was based on an extensive literature review on the topics of Erikson s psychosocial theory 1970 Kim s acculturation theory 1977 Arab Muslim cultural perspective and Islamic texts The premise of this study was that Arab Muslim mothers levels of acculturation will affect the levels of acculturation of their first generation Arab American Muslim daughters It was also expected that the level of maternal cultural identification would affect the acculturation level of the first generation Arab American Muslim daughter Finally it is anticipated that the first generation Arab American Muslim daughter s level of acculturation would affect her attachment level to her immigrant Arab Muslim mother Findings appeared to support the hypothesis that the level of acculturation of the immigrant Arab Muslim mother is positively correlated with the level of acculturation of her first generation Arab American Muslim daughter A second hypothesis that the level of maternal cultural identification would affect the acculturation level of her first generation Arab American Muslim daughter was not supported Also results did not support the third hypothesis that the acculturation level of first generation Arab American Muslim daughters would affect her attachment level with her immigrant Arab Muslim mother The aim of future research is to aide therapists in becoming more culturally sensitive to their patients as well as to gain deeper understanding of the affects of acculturation I
