New Worlds New Anthology Series Vol 1:

The Year's Best Science Fiction: Ninth Annual Collection Gardner Dozois, 1992-06-15 In The Year's Best Science Fiction Ninth Annual Collection Gardner Dozois produces another volume in the series that Locus calls the field's real anthology of record. With a unique combination of foresight and perspective Dozois continues to collect outstanding work by newcomers and established authors alike reflecting the present state of the genre while suggesting its future directions. With the editor's annual summary of the year in the field and his appendix of recommended reading this book is indispensable for anyone interested in contemporary science fiction.

Gateways to Forever Mike Ashley, 2007-04-01 This third volume in Mike Ashley's four volume study of the science fiction magazines focuses on the turbulent years of the 1970s when the United States emerged from the Vietnam War into an economic crisis. It saw the end of the Apollo moon programme and the start of the ecology movement. This proved to be one of the most complicated periods for the science fiction magazines. Not only were they struggling to survive within the economic climate they also had to cope with the death of the father of modern science fiction John W Campbell Jr while facing new and potentially threatening opposition. The market for science fiction diversified as never before with the growth in new anthologies, the emergence of semi professional magazines, the explosion of science fiction in college, the start of role playing, gaming magazines, underground and adult comics, and with the success of Star Wars media magazines. This volume explores how the traditional science fiction magazines coped with this from the death of Campbell to the start of the major popular science magazine Omni and the first dreams of the Internet.
