NGOs and the Universal Declaration of Human Rights William Korey,1998 And the NGO Factor *NGO's and the Universal Declaration of Human Rights* W. Korey,2004-07-20 When the Universal Declaration of Human Rights was adopted 50 years ago Eleanor Roosevelt its principal architect predicted that a curious grapevine would carry its message behind barbed wire and stone walls This book tells the extraordinary story of how NGOs became the grapevine she anticipated sharpening our awareness about the violations of human rights shaming its most notorious abusers and creating the international mechanisms to bring about implementation of the Declaration Korey traces how NGO s laid the groundwork for the destruction of the Soviet empire as well as of the apartheid system in South Africa and established the principle of accountability for crimes against humanity The notion of human rights has progressed from being a marginal part of international relations a half century ago to stand today as a critical element in diplomatic discourse and this book shows that it is the NGOs that have placed human rights at the centre of humankind s present and future agenda NGO's and the Universal Declaration of Human Rights W. Korey,2001-02-02 When the Universal Declaration of Human Rights was adopted 50 years ago Eleanor Roosevelt its principal architect predicted that a curious grapevine would carry its message behind barbed wire and stone walls This book tells the extraordinary story of how NGOs became the grapevine she anticipated sharpening our awareness about the violations of human rights shaming its most notorious abusers and creating the international mechanisms to bring about implementation of the Declaration Korey traces how NGO s laid the groundwork for the destruction of the Soviet empire as well as of the apartheid system in South Africa and established the principle of accountability for crimes against humanity The notion of human rights has progressed from being a marginal part of international relations a half century ago to stand today as a critical element in diplomatic discourse and this book shows that it is the NGOs that have placed human rights at the centre of humankind s present and future agenda **NGOs and Human Rights** Claude Emerson Welch,2001 Claude E Welch Jr Non-Governmental Organisations and the United Nations Human Rights System Fiona McGaughey,2021-05-30 Non governmental Organisations NGOs have become important although sometimes overlooked actors in international human rights law Although NGOs are not generally provided for in the hard law of treaties they use the UN human rights system to hold Governments to account A key way in which they do so is using State reporting mechanisms initially the UN treaty bodies but more recently supplemented by the Human Rights Council s Universal Periodic Review In doing so NGOs provide information and contribute to developing recommendations NGOs also lobby for new treaties contribute to the drafting of these treaties and bring individual s complaints to the UN human rights bodies This book charts the historical development of the NGO role in the UN It examines the UN regulation of NGOs but the largely informal nature of the role and an exploration of the various types of NGOs including some less benign actors such as GONGOs Governmental NGOs It also draws on empirical data to illustrate NGO influence on UN human rights

bodies and gives voice to stakeholders both inside and outside the UN The book concludes that the current UN human rights system is heavily reliant on NGOs and that they play an essential fact finding role and contribute to global democratisation and governance

Civil Liberties and Human Rights in Twentieth-Century Britain Chris Moores, 2017-02-16 The National Council for Civil Liberties NCCL was formed in the 1930s against a backdrop of fascism and popular front movements In this volatile political atmosphere the aim of the NCCL was to ensure that civil liberties were a central component of political discourse Chris Moores s new study shows how the NCCL now Liberty had to balance the interests of extremist allies with the desire to become a respectable force campaigning for human rights and civil liberties From new social movements of the 1960s and 1970s to the formation of the Human Rights Act in 1998 this study traces the NCCL s development over the last eighty years It enables us to observe shifts and continuities in forms of political mobilisation throughout the twentieth century changes in discourse about extensions and retreats of freedoms as well as the theoretical conceptualisation and practical protection of rights and liberties

United Nations Politics takes a unique approach that focuses on the politics that is the persistent and mostly singular emphasis that all member states place on the pursuit of national political economic cultural and ideological interests of UN affairs The project began as an effort to research and write a ten year later sequel to *The Challenge of Relevance* written by Puchala and Coate in 1989 This earlier volume was an assessment of the United Nations and its operations in the late eighties *United Nations Politics* builds from a series of some 200 interviews conducted at the UN and in various member state missions between 2000 and 2005 Among other things these interviews revealed that the existing English language literature on the UN fails to take into appropriate account the dynamics and the impacts of the internal and external political contexts within which the UN operates This book directly addresses this shortcoming in the academic literature **NGOs and Political Change** Patrick Kilby, 2015-08-13 The Australian Council for International Development is the peak body of Australian international development NGOs This book explores ACFID's history since its founding in 1965 drawing on current and contemporary literature as well as extensive archival material The trends and challenges in international development are seen through the lens of an NGO peak body from the heady optimism of the first Development Decade of the 1960s through the growth in government support of NGOs in the 1980s to the challenges of the 2010s The major themes of ACFID are presented human rights gender justice humanitarianism NGO codes of conduct and influencing government policy both broadly and as it relates to NGOs Each of these themes is placed in a global context and in relation to what other NGO networks are doing internationally Justice, Sustainability, and Security E. Critical Bibliographical Review This latest volume's focus is both the genocidal activity that has taken place over the past fourteen years including that in Rwanda and the former Yugoslavia as well as a critique of the international community's response to genocide and potential genocidal situations including those of the United Nations and nongovernmental organizations. *Genocide at the Millennium* is divided into ten chapters. The opening chapter treats the Yugoslav genocide discussing the causes of the conflict, the violence that ensued, the reaction of the international community and the ramifications that are still being felt in that part of the world today. Chapter 2 provides a detailed and thought-provoking examination of the causes, results and ramifications of the 1994 Rwandan genocide. Chapter 3 examines the conflict in Kosovo and the events surrounding the controversial intervention by NATO. Chapter 4 discusses the remarkable efforts and successes that various non-governmental agencies have had in addressing a wide variety of issues related to genocide. Chapter 5 examines the United Nations efforts to address the issue of genocide at the turn of the century. The role of individual states confronting issues and cases of genocide is analyzed in chapter 6. Chapter 7 gives a solid overview of the evolution of international law as it pertains to the crime of genocide and how and why major changes in such law have begun to take place in the 1990s and early 2000s. The international criminal tribunals for Rwanda and the former Yugoslavia are considered in chapters 8 and 9. The concluding chapter provides an extremely detailed and highly informative overview of key aspects of the International Criminal Court. In keeping with the multidisciplinary approach of previous volumes in the series, each of the essays is accompanied by an annotated bibliography.

Nongovernmental Organizations in International Society V. Heins, 2008-04-14. Based on a wealth of original information and research, this book offers both a critical introduction to NGOs and a discussion of recent theoretical approaches which have either dismissed or wildly exaggerated their political significance.

Interdisciplinary Perspectives on International Law and International Relations Jeffrey L. Dunoff, Mark A. Pollack, 2013. Influential writers on international law and international relations explore the making of international law and the interpretation and enforcement of international law.

Prosperity for All Matthew Hilton, 2011-05-02. The history of consumerism is about much more than just shopping. Ever since the eighteenth century, citizen consumers have protested against the abuses of the market by boycotting products and promoting fair trade instead of free trade. In recent decades, consumer activism has responded to the challenges of affluence by helping to guide consumers through an increasingly complex and alien marketplace. In doing so, it has challenged the very meaning of consumer society and tackled some of the key economic, social and political issues associated with the era of globalization. In *Prosperity for All*, the first international history of consumer activism, Matthew Hilton shows that modern consumer advocacy reached the peak of its influence in the decades after World War II. Growing out of the product testing activities of Consumer Reports and its international counterparts, including Which in the United Kingdom, Que Choisir in France and Test in Germany, consumerism evolved into a truly global social movement. Consumer unions, NGOs and individual activists like Ralph Nader emerged in countries around the world.

including developing countries in Southeast Asia and Latin America concerned with creating a more equitable marketplace and articulating a politics of consumption that addressed the needs of both individuals and society as a whole Consumer activists achieved many victories from making cars safer to highlighting the dangers of using baby formula instead of breast milk in countries with no access to clean water The 1980s saw a reversal in the consumer movement's fortunes thanks in large part to the rise of an antiregulatory agenda both in the United States and internationally In the process the definition of consumerism changed focusing more on choice than on access As Hilton shows this change reflects more broadly on the dilemmas we all face as consumers Do we want more stuff and more prosperity for ourselves or do we want others less fortunate to be able to enjoy the same opportunities and standard of living that we do Prosperity for All makes clear that by abandoning a more idealistic vision for consumer society we reduce consumers to little more than shoppers and we deny the vast majority of the world's population the fruits of affluence

Globalizing Human Rights Christian Peterson, 2012-03-12

Globalizing Human Rights explores the complexities of the role human rights played in U S Soviet relations during the 1970s and 1980s It will show how private citizens exploited the larger effects of contemporary globalization and the language of the Final Act to enlist the U S government in a global campaign against Soviet Eastern European human rights violations A careful examination of this development shows the limitations of existing literature on the Reagan and Carter administrations efforts to promote internal reform in USSR It also reveals how the Carter administration and private citizens not Western European governments played the most important role in making the issue of human rights a fundamental aspect of Cold War competition Even more important it illustrates how each administration made the support of non governmental human rights activities an integral element of its overall approach to weakening the international appeal of the USSR In addition to looking at the behavior of the U S government this work also highlights the limitations of arguments that focus on the inherent weakness of Soviet dissent during the early to mid 1980s In the case of the USSR it devotes considerable attention to why Soviet leaders failed to revive the international reputation of their multinational empire in face of consistent human rights critiques It also documents the crucial role that private citizens played in shaping Mikhail Gorbachev's efforts to reform Soviet style socialism

Beyond Liberal Democracy Daniel A. Bell, 2009-01-10 Is liberal democracy appropriate for East Asia In this provocative book Daniel Bell argues for morally legitimate alternatives to Western style liberal democracy in the region Beyond Liberal Democracy which continues the author's influential earlier work is divided into three parts that correspond to the three main hallmarks of

liberal democracy human rights democracy and capitalism These features have been modified substantially during their transmission to East Asian societies that have been shaped by nonliberal practices and values Bell points to the dangers of implementing Western style models and proposes alternative justifications and practices that may be more appropriate for East Asian societies If human rights democracy and capitalism are to take root and produce beneficial outcomes in East Asia Bell argues they must be adjusted to contemporary East Asian political and economic realities and to the values of nonliberal East Asian political traditions such as Confucianism and Legalism Local knowledge is therefore essential for realistic and morally informed contributions to debates on political reform in the region as well as for mutual learning and enrichment of political theories Beyond Liberal Democracy is indispensable reading for students and scholars of political theory Asian studies and human rights as well as anyone concerned about China's political and economic future and how Western governments and organizations should engage with China
