

The background of the cover is a photograph of a vast, paved plaza, likely the Tiananmen Square in Beijing. The perspective is from a low angle, looking down the length of the square towards the horizon. Two small figures of people are visible in the distance, one with arms outstretched. The sky is overcast and grey.

*Alluring Monsters* Rosalind Galt, 2021-11-16 The pontianak a terrifying female vampire ghost is a powerful figure in Malay cultures as loved and feared in Southeast Asia as Dracula is in the West In animist tradition she is a woman who has died in childbirth and her vengeful return upsets gender norms and social hierarchies The pontianak first appeared on screen in late colonial Singapore in a series of popular films that combine indigenous animism and transnational production with the cultural and political force of the horror genre In *Alluring Monsters* Rosalind Galt explores how and why the pontianak found new life in postcolonial Southeast Asian film and society She argues that the figure speaks to a series of intersecting anxieties about femininity and modernity globalization and indigeneity racial and national identities the relationship of Islam to animism and heritage and environmental destruction The pontianak offers abundant feminist potential but her disruptive gender politics also unsettle queer and feminist film theories by putting them in dialogue with Malay epistemologies Reading the pontianak as a precolonial figure of disturbance within postcolonial cultures Galt reveals the importance of cinema to histories and theories of decolonization From the horror films made by Cathay Keris and Shaw Studios in the 1950s and 1960s to contemporary film television art and fiction in Malaysia and Singapore the pontianak in all her media forms sheds light on how postcolonial identities are both developed

and contested In tracing the entanglements of Malay feminist animisms with postcolonial visual cultures *Alluring Monsters* reveals how a pontianak theory can reshape understandings of anticolonial aesthetics and world cinema **Gun Crime in Global Contexts** Peter Squires, 2014-06-27 Every year around three quarters of a million people die directly or indirectly as a result of gun violence with most deaths occurring in the poorest yet also most highly weaponized parts of the world Firearm proliferation 875 million global firearms is a direct contributor to both regional conflicts and to crime This book attempts to understand the inter related dynamics of supply and demand which are weaponizing the world Now over ten years after Peter Squires's *Gun Culture or Gun Control* the issues pertaining to gun violence and gun control have developed dramatically With *Gun Crime in Global Contexts* Peter Squires offers a cutting edge account of contemporary developments in the politics of gun crime and the social and theoretical issues that surround the problem This book contains an innovative political analysis of neo liberal globalization and weapon proliferation an overview of recent gun control debates and gang strategies in the UK an updated analysis of US gun politics self defence race and the culture war a critical analysis of US school and rampage shootings how they have impacted the gun debate and how different societies have responded to mass shootings an examination of the UN's development of an Arms Trade Treaty 2001 13 a discussion of weapon trafficking discussions about youth gangs around the world including those in Brazil Kenya West Africa Mexico and South Africa With its interdisciplinary perspective and global reach this book will be important reading for academics and students interested in youth and gang crime violent crime and comparative criminal justice as well as peace and security studies and international relations **New German Cinema and Its Global Contexts** Marco Abel, Jaimey Fisher, 2025-01-14 Contributors explore these films transnational circuits of production distribution and exhibition as well as how the films were made and received thereby inviting us to reexamine the roots of what New German Cinema was and imagine what it might yet become

**China's Peaceful Rise in a Global Context** Jinghao Zhou, 2010-04-02 China's rise has become inevitable but there is no agreement about whether China will rise peacefully or pose a threat to the United States The author asserts that both theories of China threat and peaceful rise failed to address China's central domestic problem Thus both theories are not convincing This book attempts to develop a third view of China's rise from a domestic perspective and contends that China's potential threat to the existing global order is not derived from her rapid economic growth and military expansion but from her potential domestic chaos A strong democratic China will contribute to the global peace but the collapse of China will gravely threaten Western societies The current Chinese political system directly contributes to this social instability and could possibly cause China's social crash China's democratization is the key to ensure China's peaceful rise in a global context However the Party is still in power and any attempt to dissolve the one party system in present day China has poor prospects China must take a two step gradual reform approach to complete the transition from an authoritarian regime to a democratic one In the two step theory the first phase for promoting China's democratization includes exercising freedom of

media increasing the consciousness of citizen participation and enacting religious rights Through all these democratic exercises China will gradually be able to achieve a fully democratic society This two step theory is crucial for the United States if it is to enact effective foreign policy toward China and for China to develop a democratic harmonious society
