## **Nice False Prophets Studies Authoritarianism Communication:**

**Revisiting the Frankfurt School** David Berry, 2016-04-08 What has become known as the Frankfurt School is often reduced to a small number of theorists in media communication and cultural studies Challenging this limitation Revisiting The Frankfurt School introduces a wider theoretical perspective by introducing critical assessments on a number of writers associated with the school that have been mostly marginalized from debate This book therefore expands our understanding by addressing the writings of intellectuals who were either members of the school or were closely associated with it but often neglected It thus brings together the latest research of an international team of experts to examine the work of figures such as the social psychologist Erich Fromm the philosophy of Siegfried Kracauer the writer on media and communication Leo Lowenthal introducing Hans Magnus Enzenberger to the debate whilst also shedding new light on the work of Max Horkheimer Theodor Adorno Herbert Marcuse Walter Benjamin and Jürgen Habermas A critical reassessment of the contributions of the Frankfurt School and its associates to cultural media and communication studies as well as to our modern understanding of new media technology and debate within the public sphere this book will appeal to those with interests in sociology philosophy social psychology social theory media and communication and cultural studies

Ideologies and the Corruption of Thought Joseph Gabel, 1997-01-01 Thirty five years ago Joseph Gabel published a modern masterpiece which in 1975 appeared in English as False Consciousness An Essay on Reification Combining his special knowledge of existential psychiatry axiology Marxism and political history Gabel proposed the utterly novel idea that victims of serious mental disturbances especially paranoia and schizophrenia reproduce those distorted thought patterns commonly associated with ideological beliefs at the collective level Such beliefs initially had been laid bare in the 1920s by Gabel's intellectual progenitors Karl Mannheim and George Lukács Gabel's remarkable innovation was to transfer the private crisis of mental collapse into the analytic framework previously reserved for ideological critique making him an expert on what was later called the micro macro problem Ideologies and the Corruption of Thought includes Gabel's essays over the last 40 years characteristically treating micro and macro theoretical matters simultaneously Originally written in French and German they have been recast in idiomatic English and bibliographically updated Using a unique mode and vocabulary of analysis Gabel offers theoretical investigations of McCarthyism and Stalinism original and more recent types as well as Althusser Orwell and Jonathan Swift in his capacity as a psychiatric theorist He also explores anti Zionism anti Semitism and a fascinating case study of a paranoid who regarded himself as the pope In addition this volume includes a range of general commentaries on ideological thought utopianism and false consciousness This rich feast of social and political analysis and theory illuminates a range of contemporary concerns racism Utopian fantasy ethnocentrism anti Semitism the interplay of social structure and mental illness and ideological transformations of social life which only Gabel's unique mixture of the clinical and the political could achieve It will be studied with interest by all theorists and politically alert readers in the

social sciences philosophy and related fields of study      False Prophets Leo Lowenthal, 2011-12-31 The studies in this volume deal with problems of authoritarianism and anti-Semitism Lowenthal's book-length contribution *Prophets of Deceit* which begins this collection is a classic of political psychology This research study is followed by an essay *Terror's Atomization of Man* Lowenthal uses this material for a theory of the psychological mechanisms operative under terrorist conditions and their significance for contemporary society      Prophets of Deceit Leo Lowenthal, Norbert Guterman, 2021-04-06 How authoritarian and racist discourse functions A classic book that analyzes and defines media appeals specific to American pro-fascist and anti-Semitic agitators of the 1940s such as the application of psychosocial manipulation for political ends The book details psychological deceptions that ideologues or authoritarians commonly used The techniques are grouped under the headings Discontent The Opponent The Movement and The Leader The authors demonstrate repetitive patterns commonly utilized such as turning unfocused social discontent towards a targeted enemy The agitator positions himself as a unifying presence he is the ideal the only leader capable of freeing his audience from the perceived enemy Yet as the authors demonstrate he is a shallow person who creates social or racial disharmony thereby reinforcing that his leadership is needed The authors believed fascist tendencies in America were at an early stage in the 1940s but warned a time might come when Americans could and would be susceptible to the psychological manipulation of a rabble rouser A book once again relevant in the Trump era as made clear by Alberto Toscano's new introduction      *The Other Journal: The Celebrity Issue* Christopher J. Keller, 2011-05-01 The *Other Journal*'s first print edition focuses on the role of celebrity in North American culture its phenomena its significance its utility The articles illuminate different facets of celebrity culture through multiple vantage points and methodologies This issue features articles art exhibits and interviews by such prominent thinkers as Graham Ward Carl Raschke James K A Smith James Davison Hunter Brian McLaren Luci Shaw Gary Dorrien and many others Essays and reviews by Ruth Adams Paul Jaussen Katie Kresser James K A Smith Brad Elliott Stone Gary David Stratton Kj Swanson John Totten and Graham Ward Interviews by Allison Backous David Horstkoetter Chris Keller Tom Ryan James K A Smith and Heather Smith Stringer with Gary Dorrien Ron Hansen James Davison Hunter Brian McLaren Carl Raschke and the Opiate Mass Creative writing and poetry by Daniel Bowman Jr Joel Heng Hartse Luci Shaw and Schuy R Weishaar      **Latino Studies Journal** , 1998      *Europe at the Crossroads* Pieter Bevelander, Ruth Wodak, 2020-10-01 The far right is on the rise And there are signs that part of the political mainstream in Europe the US and beyond is considering accommodating far right populist parties and their divisive ethno-nationalist programs *Europe at the Crossroads* is an urgent scholarly response to the sociopolitical challenges that far right programs pose to the idea of a more egalitarian world It offers an interdisciplinary analysis and critique of the dynamics of the far right in Europe from Poland to the UK from Sweden to Greece The authors present pertinent alternatives when tackling the exclusionary rhetoric and the politics of resentment Each contributor investigates the current advance of far right populism and the threat to liberal

democracy Their texts address the historical roots and activities of the ideologies behind Orbainism or Brexit for example The slogan Fortress Europe once a pejorative term now appeals to large numbers of voters The authors analyze the power balance in the European Parliament particularly in connection with the elections in the spring 2019

**Digital Fascism** Christian Fuchs, 2022-03-14 This fourth volume in Christian Fuchs's Media Communication and Society book series outlines the theoretical foundations of digital fascism and presents case studies of how fascism is communicated online Digital Fascism presents and engages with theoretical approaches and empirical studies that allow us to understand how fascism right wing authoritarianism xenophobia and nationalism are communicated on the Internet The book builds on theoretical foundations from key theorists such as Theodor W Adorno Franz L Neumann Erich Fromm Herbert Marcuse Wilhelm Reich Leo L wenthal Moishe Postone G nther Anders M N Roy and Henry Giroux The book draws on a range of case studies including Nazi celebrations of Hitler's birthday on Twitter the red scare 2 0 directed against Jeremy Corbyn and political communication online Donald Trump Boris Johnson the Austrian presidential election These case studies analyse right wing communication online and on social media Fuchs argues for the safeguarding of the democratic public sphere and that slowing down and decommodifying the logic of the media can advance and renew debate culture in the age of digital authoritarianism fake news echo chambers and filter bubbles Each chapter focuses on a particular dimension of digital fascism or a critical theorist whose work helps us to illuminate how fascism and digital fascism work making this book an essential reading for both undergraduate and postgraduate students of media and communication studies sociology politics and political economy as well as anyone who wants to understand what digital fascism is and how it works

*Understanding and Countering Fascist Movements* Joan Braune, 2023-12-22 This book is based on the premise that understanding fascism is crucial for defeating it Understanding and Countering Fascist Movements suggests fascism must be understood according to two dimensions First fascism is a social movement seeking power always already connected to sources of power Hence fascism cannot be defeated by policing it as a crime problem nor therapeutically treating it as a pathology of mental health Second fascists have cognitive and emotional needs they are seeking to fulfill through their participation in the movement but the presence of these motivations must be held in tension with the fact that fascists are responsible for their choices and that these individual motivations also exist in a wider social context of capitalism and systems of supremacy The book opens by examining some psychological elements of recruitment and disengagement from fascist movements before addressing broader social narratives concluding with the limitations of an approach that is grounded in the national security state that relies on individualized perpetrator centered interventions Rejecting centrist paradigms that see fascism as extremism or accelerationism Braune argues that fascism must be addressed in its specificity and uniqueness as an ideology and movement Ultimately she argues fascism can only be defeated by countervailing social movements that not only demand radical social change but offer alternative spaces of belonging community care and the search for meaning Understanding

and Countering Fascist Movements is a philosophical contribution to antifascist theory and practice that will be appreciated by academics students and activists concerned about fascism today

Psychoanalysis in the Age of Totalitarianism Matt ffytche, Daniel Pick, 2016-05-20 Psychoanalysis in the Age of Totalitarianism provides rich new insights into the history of political thought and clinical knowledge In these chapters internationally renowned historians and cultural theorists discuss landmark debates about the uses and abuses of the talking cure and map the diverse psychologies and therapeutic practices that have featured in and against tyrannical modern regimes These essays show both how the Freudian movement responded to and was transformed by the rise of fascism and communism the Second World War and the Cold War and how powerful new ideas about aggression destructiveness control obedience and psychological freedom were taken up in the investigation of politics They identify important intersections between clinical debate political analysis and theories of minds and groups and trace influential ideas about totalitarianism that took root in modern culture after 1918 and still resonate in the twenty first century At the same time they suggest how the emergent discourses of totalitarian society were permeated by visions of the unconscious Topics include the psychoanalytic theorizations of anti-Semitism the psychological origins and impact of Nazism the post war struggle to rebuild liberal democracy state funded experiments in mind control in Cold War America coercive re education programmes in Eastern Europe and the role of psychoanalysis in the politics of decolonization A concluding trio of chapters argues in various ways for the continuing relevance of psychoanalysis and of these mid century debates over the psychology of power submission and freedom in modern mass society Psychoanalysis in the Age of Totalitarianism will prove compelling for both specialists and readers with a general interest in modern psychology politics culture and society and in psychoanalysis The material is relevant for academics and post graduate students in the human social and political sciences the clinical professions the historical profession and the humanities more widely

*Subject Guide to Books in Print*, 1997

Communication in Society Leo Löwenthal, *Critical Theory and the Critique of Antisemitism* Marcel Stoetzler, 2023-11-16 This volume provides a systematic re examination of the Frankfurt School's theory of antisemitism and employing this critical theory investigates the presence of antisemitism in 20th and 21st century politics and society Critical Theory and the Critique of Antisemitism uncovers how critical theory differs from mainstream socialist or liberal critiques of antisemitism as it frames its rejection of antisemitism in the critique of other aspects of modern capitalist society which traditional theories leave unchallenged or critique only in passing Amongst others these include issues of identity nation race and sexuality In exploring the Frankfurt School's writings on antisemitism therefore the chapters in this book reveal connections to other pressing societal issues such as racism more broadly patriarchy statism and the societal dynamics of the ever evolving capitalist mode of production Putting the theory to practice this volume brings together interdisciplinary scholars and activists who employ critical theory to scrutinise right and left wing manifestations of antisemitism They develop in their critique of antisemitism a critique of capitalism as the authors ask why does modern

capitalist society seem bound to produce antisemitism And how do we challenge it At a time when the rise of populism internationally has brought with it new strains of antisemitism this is an essential resource that demonstrates the continuing relevance of the critical theory of the Frankfurt School for the struggle against antisemitism today *Late Fascism* Alberto Toscano, 2023-10-24 How do we understand the return of fascism today In a world shaken by ecological economic and political crises the forces of authoritarianism and reaction seem to have the upper hand How should we name map and respond to this state of affairs *Late Fascism* turns to theories of fascism produced in the past century testing their capacity to illuminate our moment and challenging many of the commonplaces that debate on this extremely charged term devolves into It can be tempting for any contemporary assessment of fascism to reach for historical analogy Fascism is defined by returns and repetitions but it is not best approached in terms of steps and checklists dictated by a selective reading of Italian Fascism or National Socialism Rather than treating fascism as an unrepeatable phenomenon or identifying it with a settled configuration of European parties regimes and ideologies Toscano approaches fascism as a problem and a process one that is intimately linked to capitalism's demands for domination Drawing especially on Black radical and anti colonial theories of racial fascism *Late Fascism* makes clear the limits of identifying fascism simply with the political violence of bygone European regimes Developing anti fascist theory is a vital and urgent task From the Great Replacement to campaigns against critical race theory and gender ideology today's global far right is launching lethal panics about the threats to traditional political sexual and racial regimes *Late Fascism* allows us to rediscover some truly inspiring anti fascist thinkers rooted in their turn in largely anonymous collective practices of worldmaking against domination traditions of the oppressed that remain a resource for those set on dismantling the hierarchies and segregations that the partisans of Order and Tradition seek to revive and reimpose *The American Journal of Psychiatry*, 1988 **Habermas and the Crisis of Democracy** Emilie Prattico, 2022-06-30 Emilie Prattico has used the lens of a discourse theoretic conception of deliberative democracy to engage eight prominent colleagues in stimulating interviews They critically illuminate the various ways that a sound democratic regime depends upon the deliberative milieu of an inclusive public sphere Jürgen Habermas The continued rise of populism and authoritarianism throughout the world has witnessed an alarming attack on basic democratic freedoms and led to a divided political and social world Few thinkers have done as much as Jürgen Habermas to understand and critique these problems perhaps most famously through his notions of the public sphere deliberative democracy and discourse ethics In this fascinating book Emilie Prattico considers the crisis of democracy from a Habermasian standpoint via engaging interviews with an outstanding lineup of leading philosophers and thinkers The following key topics are unpacked and explored Can some basic rights and liberties be given up to safeguard democracy With Hauke Brunkhorst How does actual deliberation confer legitimacy to democratic decisions With Cristina Lafont Why is fake news a crisis of democracy With Michael Lynch How can we build a public sphere together and share it in a world characterized by divisiveness and tribalism With Barbara

Fultner Can democracy survive without the voice of experts With Kenneth Baynes How dangerous are the current forms of authoritarianism we are seeing take hold all over the world With Mar a P a Lara What does the public sphere look like with new technologies With Gertrud Koch What duties do we owe descendants of slaves and how do we reckon with our antidemocratic and oppressive past With Lorenzo Simpson Also including a Foreword by Habermas himself this book is essential reading for anyone seeking to understand the challenges facing democracy and liberalism today It will be of great interest to those in philosophy sociology and politics as well as related fields such as religion and law *Mediations of Social Life in the 21st Century* Harry F. Dahms, 2014-11-07 The essays included in this volume illuminate mediations of the individual society relationship from a variety of angles both explicitly and implicitly They highlight the need to consider the consequences of choices made by collective decision makers politicians and leaders of organizations *Mid-American Review of Sociology* ,1991 [Politics and Resentment](#) Lars Rensmann, Julius H. Schoeps, 2010-10-29 Democratic polities continue to be faced with politics of resentment The first comparative study of its kind this book rigorously examines the contemporary relevance of antisemitism and counter cosmopolitan resentments in the European Union and beyond *Black Humor and the White Terror* Béla Bodó, 2023-04-06 This book examines political humor as a reaction to the lost war the post war chaos and antisemitic violence in Hungary between 1918 and 1922 While there is an increased body of literature on Jewish humor as a form of resistance and a means of resilience during the Holocaust only a handful of studies have addressed Jewish humor as a reaction to physical attacks and increased discrimination in Europe during and after the First World War The majority of studies have approached the issue of Jewish humor from an anthropological cultural or linguistic perspective they have been interested in the humor of lower or lower middle class Jews in the East European shtetles before 1914 On the other hand this study follows a historical and political approach to the same topic and focuses on the reaction of urban middle class and culturally assimilated Jews to recent events to the disintegration of the Dual Monarchy the collapse of law and order increased violence the reversal of Jewish emancipation and the rise of new and more pernicious antisemitic prejudices The study sees humor not only as a form of entertainment and jokes as literature and a product of popular culture but also as a heuristic device to understand the world and make sense of recent changes as well as a means to defend one's social position individual and group identity strike back at the enemy and last but not least to gain the support and change the hearts and minds of non Jews and neutral bystanders Unlike previous scholarly works on Jewish resistance during the Holocaust this study sees Budapest Jewish humor after WWI as a joint adventure as a product of urban and Hungarian culture in which Jewish not only played an important role but also cofounded Finally the book addressed the issue of continuity in Hungarian history the twisted road to Auschwitz whether urban Jewish humor as a form of escapism helped to desensitize the future victims of the Holocaust to the approaching danger or it continued to play the same defensive and positive role in the interwar period as it had done in the immediate aftermath of the Great War

## Reviewing **Nice False Prophets Studies Authoritarianism Communication**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is really astonishing. Within the pages of "**Nice False Prophets Studies Authoritarianism Communication**," an enthralling opus penned by a highly acclaimed wordsmith, readers attempt an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve in to the book is central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
