Moondust Andrew Smith,2006-04-04 In 1999 Andrew Smith was interviewing Charlie Duke astronaut and moon walker for the Sunday Times During the course of the interview which took place at Duke s Texan home the telephone rang and Charlie left the room to answer it When he returned some twenty minutes later he seemed visibly upset It seemed that he d just heard that the previous day one of his fellow moon walkers the astronaut Pete Conrad had died The more Charlie spoke the more Andrew realised that his grief was something more than the mere fact of losing a friend Now theres only nine of us he said Only nine Which meant that one day not long from now there would be none and when that day came no one on earth would have known the giddy thrill of gazing back at us from the surface of the moon The thought shocked Andrew and still does Moondust is his attempt to understand why The Apollo moon programme has been called the last optimistic act of the 20th Century Over a strange three year period between 1969 and 1972 twelve men made the longest and most eccentric of all journeys and all were indelibly marked by it In Moondust Andrew sets out to interview all the remaining astronauts who walked on the moon and to find out how their lives were changed for ever by what had happened Where do you go after you ve been to the moon In addition to this question that would prove hugely troubling to many of the returned astronauts they also had to deal with the fantasies of faceless millions at their backs for this was the first truly global media event The walkers would forever be caught between the gravitational pull of the moon and the earth s collective dreaming

The Lost Land of Lemuria Sumathi Ramaswamy, 2004-09-27 During the nineteenth century Lemuria was imagined as a land that once bridged India and Africa but disappeared into the ocean millennia ago much like Atlantis A sustained meditation on a lost place from a lost time this elegantly written book is the first to explore Lemuria s incarnations across cultures from Victorian era science to Euro American occultism to colonial and postcolonial India The Lost Land of Lemuria widens into a provocative exploration of the poetics and politics of loss to consider how this sentiment manifests itself in a fascination with vanished homelands hidden civilizations and forgotten peoples More than a consideration of

nostalgia it shows how ideas once entertained but later discarded in the metropole can travel to the periphery and can be appropriated by those seeking to construct a meaningful world within the disenchantment of modernity Sumathi Ramaswamy ultimately reveals how loss itself has become a condition of modernity compelling us to rethink the politics of imagination and creativity in our day

Comics and Archaeology Zena Kamash, Katy Soar, Leen Van Broeck, 2022-10-06 This book adds to the scant academic literature investigating how comics transmit knowledge of the past and how this refraction of the past shapes our understanding of society and politics in sometimes damaging ways The volume comes at these questions from a specifically archaeological perspective foregrounding the representation and narrative use of material cultures It fulfils its objectives through three reception studies in the first part of the volume and three chapters by comic creators in the second part All six chapters aim to grapple with a set of central questions about the power inherent in drawn images of various kinds
