*Franklin D. Roosevelt's Presidency* Linda Crotta Brennan, 2017-01-01 When Franklin Delano Roosevelt took office in 1932 the United States was in crisis. The Great Depression had left many people unemployed, homeless, and desperate. Roosevelt established a New Deal which set the country on a path to recovery. Roosevelt's administration also faced severe threats from overseas, eventually drawing the United States into World War II. In his historically long presidency, Roosevelt led the country through an international conflict, helped bring an end to the Great Depression, and launch a new era of prosperity for the United States, all while confined to a wheelchair. Follow the setbacks and achievements of FDR's presidency as he worked to rebuild the nation from within and defend it abroad.

**Franklin D. Roosevelt** Lorena Huddle, 2016-07-15 During Franklin D. Roosevelt's twelve years as U.S. president, most people loved him, but many thought he was destroying the country and their way of life. Roosevelt became president in 1933 in the midst of a global business depression. Millions of people had no work or money. He created jobs and helped those who needed help, but to accomplish this, he had to change the government's part in national life. He ably led America during World War II and played the principal part in starting the United Nations. Some of his methods may be questioned, but his goals were admirable.

James Madison's Presidency Erika Wittekind, 2016-02-01 By the time he became the fourth president of the United States in 1807, James Madison was already a legend. Although he was a short, slight man with a quiet voice, he had played an instrumental role in crafting the U.S. Constitution. As president, he oversaw the country's first international conflict since the American Revolution, when tensions with Great Britain led to the War of 1812. He worked to build unity among the states and to preserve many Americans' individual rights, even as larger divisions over slavery and American Indian policy simmered across the country. For a man who was notoriously shy, Madison proved a formidable commander in chief, from his internal policies to his wartime leadership.

**Andrew Jackson's Presidency** Christine Zuchora-Walske, 2016-08-01 In 1829, Andrew Jackson became the seventh president of the United States, the first who did not come from a wealthy East Coast family. Jackson led an adventurous, some would say notorious, life. More than any president before him, he sought to represent the voters at this time: only white men and the common people who, in his view, built and sustained the nation. In addition to supporting slavery, Jackson's policy of forcing American Indians to move West led to disaster, including the death of thousands on the Trail of Tears. President Jackson left a controversial legacy that modern Americans still grapple with.

Theodore Roosevelt's Presidency Heather E. Schwartz, 2016-08-01 Theodore Roosevelt was thrust into the presidency after William McKinley's assassination in 1901. He led the country into the Progressive Era, which meant stronger government controls over businesses and better protection of workers' rights, women, African Americans, and consumers. Roosevelt worked to spread U.S. influence around the world, and he was instrumental in the construction of the Panama Canal. While he had a mixed stance on civil rights issues, Roosevelt made bold stands for several African Americans. He also advocated for the conservation of national

parks and monuments throughout the country In his two terms as president Roosevelt s domestic reforms and foreign policies left a lasting legacy *Nonviolence for the Third Millennium* G. Borton,2023-04-15 For 25 years Franklin Roosevelt tried to build the world s first tidal electric power plant by harnessing the Bay of Fundy s giant tides The enormous project would have dammed up 110 square miles of coastal Maine and Canada Moondoggle is a dramatic tale about the appeal of tidal power the difficulties in realizing its potential and the engineers and three U S Presidents Roosevelt Truman and Kennedy who tried to make clean and renewable tidal power a reality Now on the 100th anniversary of the Passamaquoddy Project s conception 1920 2020 Moondoggle the only book on the project explores what almost was and what could be *Complete Presidential Press Conferences of Franklin D. Roosevelt* Franklin Delano Roosevelt,1972 Thomas Jefferson's Presidency Emily Rose Oachs,2016-08-01 Thomas Jefferson the third president of the United States was a man of contradictions Jefferson penned the most stirring claim of the Declaration of Independence all men are created equal Yet during his lifetime Jefferson owned hundreds of enslaved African Americans An adamant believer in limited government Jefferson nevertheless acted without constitutional power to buy land from France the Louisiana Purchase that doubled the size of the United States Jefferson died on the Fourth of July 1826 exactly fifty years after the signing of the Declaration of Independence Despite his contradictions Jefferson s words continue to express the noble ideals of Americans freedom from tyranny and equality for all **Reclamation Era** United States. Bureau of Reclamation,1949 **The History of Large Federal Dams** David P. Billington,Donald C. Jackson,Martin V. Melosi,2005 Explores the story of Federal contributions to dam planning design and construction From Great Wilderness to Seaway Towns Claire Puccia Parham,2012-02-01 From Great Wilderness to Seaway Towns adds a new dimension to the debate over the perceived differences between American and Canadian society This fascinating case study examines two communities separated by the St Lawrence River Cornwall Ontario and Massena New York from the end of the Revolutionary War to the present Moving from the struggles of early settlers to industrialization and beyond Claire Puccia Parham chronicles how the

residents of both areas created similar social political and economic institutions because of their peripheral locations in a capitalist world system and their inherent congregational and democratic values These distinctive views often brought them into conflict with national leaders

**Presidents' Most Wanted™** Nick Ragone,2008-01-31 The presidency is a special office Along with the vice president the victorious candidate is our only nationally elected official and the position has come to symbolize American government worldwide In many ways the office is greater than the people who have occupied it In the 200 plus years of our nation s history the presidency has grown and evolved dramatically With the exception of Abraham Lincoln and Andrew Jackson the nineteenth century office holders exerted little executive power and mostly deferred to Congress on domestic affairs Teddy Roosevelt began to change all that and FDR completed the transformation with his New Deal laying the foundations for the modern presidency With the onset of the Cold War the imperial presidency was in full bloom and after a brief lull the government s response to the war on terror has given the office new and unprecedented powers Undoubtedly now the presidency is not only the most powerful and important job in the United States but arguably in the world Presidents Most Wanted celebrates the office the people who inhabited it and the process of winning it with thirty five chapters packed full of all sorts of presidential trivia It covers everything from elections to first ladies to blunders and triumphs and gives the reader an in depth look at the most powerful person in the world

[George Washington's Presidency](#) Krystyna Poray Goddu,2017-01-01 In 1789 when George Washington took office as the nation s first president the United States was an experiment that could easily fail Only a few years earlier the fledgling democracy had broken away from British rule The thirteen states were vying for power and had only reluctantly accepted a strong central government Whoever led that central government would face many challenges Most Americans believed Washington was the right person for the job He worked to

revive the struggling economy secure the nation's borders and gain the respect of other nations And by inventing many of his duties and powers as he went along he shaped the presidency into a strong and influential office **John F. Kennedy's**

**Presidency** Rebecca Rowell,2017-01-01 When John F Kennedy became the youngest person ever elected president of the United States in 1961 he stepped to the forefront of an invisible battleground The Cold War standoff between America and the Soviet Union threatened to lead to nuclear war and worldwide destruction Kennedy also faced domestic turmoil with the civil rights movement Despite these challenges Kennedy worked to bring the country into a New Frontier He supported space exploration the arts education and groundbreaking social programs He took a controversial stand in favor of civil rights legislation and navigated dangerous webs of foreign affairs Kennedy inspired the nation with his hopes for the future and his efforts to make them a reality **Abraham Lincoln's Presidency** Catherine M. Andronik,Karen Latchana

Kenney,2016-08-01 Abraham Lincoln was born to poor parents in a log cabin on the western frontier of a young nation The unity of the United States which had been built on the ideal that all people are created equal was cracking under the heavy yoke of slavery As Lincoln embarked on his presidency the slaveholding states in the South left the Union causing him to face the American Civil War Lincoln said the war was no less than a fight to save government of the people by the people and for the people Though his life was cut short Lincoln's leadership and his written words continue to inspire Americans
