INDIVIDUALISM AND POLITICAL DISORDER

Nice Individualism Political Disorder James Buchanan

Dengjian Jin

Nice Individualism Political Disorder James Buchanan:

Individualism and Political Disorder The late James M. Buchanan, Yong J. Yoon, 2015-09-25 Inspired by F A Hayek's Individualism and Economic Order this book also stands in contrast to the themes of that work by emphasizing that collective action works differently from the way the market works The chapters comprise papers written by James M Buchanan both with and without Yoon's co authorship after the publication of his Collected Work volumes These chapters reflect the authors' thoughts on politics seen through the lens of fiscal policy and the tragedies of the commons and anti commons in collective action The pathologies of democratic politics rigorously analyzed in the book prove the relevance of Buchanan's constitutionalism

Exploring the Political Economy and Social Philosophy of James M. Buchanan Paul Dragos Aligica, Christopher J. Coyne, Stefanie Haeffele, 2018-05-22 James M Buchanan winner of the Nobel Prize in Economics in 1986 was a pioneer of public choice and constitutional political economy as well as contributing to many fields of study including philosophy political science and public finance Each chapter in this volume seeks to explore critique and emphasize the continuing relevance of the vast contributions of Buchanan to our understanding of political economy and social philosophy The diversity in topics and approaches will make the volume of interest to readers in a variety of fields and accessible to scholars from a variety of backgrounds providing the opportunity to further a cross disciplinary exploration and discussion on market process theory

James M. Buchanan and Liberal Political Economy Richard E. Wagner, 2017-05-23 James M Buchanan and Liberal Political Economy A Rational Reconstruction examines the contemporary meaning and significance of James M Buchanan's body of work The book uses Buchanan's past contributions to explore the present and future relevance of his scholarly contributions and insights It seeks mainly to explain what insight for their work contemporary scholars might acquire by becoming familiar with some of Buchanan's formulations Buchanan was one of the most creative and prolific scholars of political economy during the post war period Not only was his body of work so immense that it could not be contained within 20 volumes of Collected Works but also Buchanan's scholarship made such strong contact with law ethics and political science that he could easily have served as a poster child for the programs in Politics Philosophy and Economics which have been gaining momentum in recent years Buchanan spoke for a style of economics that made wide and firm contact with the full range of the humane studies This book emphasizes those features of Buchanan's thought that seem relevant for contemporary scholarship within the broadly liberal tradition of political economy

James M. Buchanan Richard E. Wagner, 2019-02-15 A fine collection of essays exploring and in many cases extending Jim Buchanan's many contributions and insights to economic political and social theory Bruce Caldwell Professor of Economics Duke University USA The overwhelming impression the reader gets from this very fine collection is the extraordinary expanse of James Buchanan's work Everyone interested in economics and related fields can profit mightily from this book Mario Rizzo Professor of Economics New York University USA This book explores the academic contribution of James Buchanan who

received the Nobel Prize for economics in 1986 Buchanan's receipt of the Prize is noteworthy because he was a maverick within the economics profession. In contrast to the preponderance of economists, Buchanan made little use of mathematics and no use of econometrics, preferring to use logic and language to insert his ideas into the scholarly community. Moreover, his ideas extended the domain of economic inquiry along many paths that numerous economists subsequently pursued. Buchanan's scholarship brought economics and political science together under the rubric of public choice. He was also a prime figure in bringing economic theory into closer contact with moral and social philosophy. This volume includes essays distributed across the extensive domain of Buchanan's scholarly contributions, reflecting the range of his scholarly interests. Chapters will examine Buchanan's scholarly work on public finance, social insurance, public debt, public choice, economic methodology, constitutional political economy, law and economics, and ethics and social theory. The book also examines Buchanan in relation to other prominent economists both from the distant past and the recent past.

Research in the History of Economic Thought and Methodology Luca Fiorito, Scott Scheall, Carlos Eduardo Suprinyak, Rebeca Gomez Betancourt, 2024-02-09. Research in the History of Economic Thought and Methodology (RHETM) is a book series dedicated to an interdisciplinary approach to a broad range of topics related to the history and methodology of economics.

Towards an Economics of Natural Equals David M. Levy, Sandra J. Peart, 2020-01-02. Explores how the Virginia School developed an economics for natural equals in which consent is critical for policy.

Individualism And Community Michael Peters, James Marshall, 2002-11. Examining in the widest sense the changes in political philosophy that have occurred in Western capitalist states since the early 1980s, this book focuses on the introduction of neo-liberal principles in the combined area of social and education policy. New Zealand presents a paradigm example of the neo-liberal shift in political philosophy. From constituting the social laboratory of the Western world in the 1930s in terms of social welfare provision, New Zealand has become the neo-liberal experiment of the fully marketised society in the 1990s. Against the theoretical background of educational theory and practice, this book examines neo-liberalism and its critiques as responses to the so-called crisis of the welfare state and argues for a reformulated critical social policy in the postmodern condition. The conclusions about social policy drawn by the authors can be generalized to similar situations in other Western capitalist countries.

Political Thought and China's Transformation H. Li, 2015-04-07. Since the late 1970s, China has undergone a great transformation during which time the country has witnessed an outpouring of competing schools of thought. This book analyzes the major schools of political thought, redefining China's transformation and the role Chinese thinkers are playing in the post-Mao era.

The ^AOxford Handbook of Austrian Economics Peter J. Boettke, Christopher J. Coyne, 2015-09-01. The Oxford Handbook of Austrian Economics was designed to give an overview of the main methodological, analytical, and practical implications of the Austrian School of Economics. This intellectual tradition in economics and political economy has a long history that dates back to Carl Menger in the late 19th century. The various contributions discussed in this book all reflect this tension of an orthodox

argumentative structure rational choice and invisible hand to address heterodox problem situations uncertainty differential knowledge ceaseless change The Austrian economists from the founders to today seek to derive the invisible hand theorem from the rational choice postulate via institutional analysis in a persistent and consistent manner

The Routledge Handbook of Anarchy and Anarchist Thought Gary Chartier, Chad Van Schoelandt, 2020-12-30 This Handbook offers an authoritative up to date introduction to the rich scholarly conversation about anarchy about the possibility dynamics and appeal of social order without the state Drawing on resources from philosophy economics law history politics and religious studies it is designed to deepen understanding of anarchy and the development of anarchist ideas at a time when those ideas have attracted increasing attention The popular identification of anarchy with chaos makes sophisticated interpretations which recognize anarchy as a kind of social order rather than an alternative to it especially interesting Strong centralized governments have struggled to quell popular frustration even as doubts have continued to percolate about their legitimacy and long term financial stability Since the emergence of the modern state concerns like these have driven scholars to wonder whether societies could flourish while abandoning monopolistic governance entirely Standard treatments of political philosophy frequently assume the justifiability and desirability of states focusing on such questions as What is the best kind of state and What laws and policies should states adopt without considering whether it is just or prudent for states to do anything at all This Handbook encourages engagement with a provocative alternative that casts more conventional views in stark relief Its 30 chapters written specifically for this volume by an international team of leading scholars are organized into four main parts I Concept and Significance II Figures and Traditions III Legitimacy and Order IV Critique and Alternatives In addition a comprehensive index makes the volume easy to navigate and an annotated bibliography points readers to the most promising avenues of future research

The Dynamics of Knowledge Regimes Dengjian Jin, 2001 This work provides the reader with a series of sectoral and comparative insights into the new world of national competitiveness with particular reference to the US and Japan It also provides a synthesis of emerging fields around knowledge and evolutionary thought The author demonstrates the role of cultural factors in co evolutionary processes and investigates why different countries consistently perform very differently from one sector to another in the international market for technologies The book offers an integrated framework for understanding how different national learning patterns affect innovation and a perspective on the dynamic interaction and co evolution of culture technology institutions and governance

The Theory of Public Choice--II James M. Buchanan, Robert D. Tollison, 1984 Discusses voting tax policy government regulation redistribution of wealth and international negotiation in a new approach to government

Handbook of Islamic Philosophy of Science Masudul Alam Choudhury, 2024-03-28 This handbook provides a comprehensive overview of Islamic ethical issues within a wide spectrum of philosophy of science topics examining the development of the model of moral inclusiveness in economics science and society from ontological epistemological and analytical perspectives This paradigm takes the view that ethics is

systemically endogenous and can be studied by the most rigorous scientific analysis pertaining to diverse issues and problems of ethicality in socio scientific inquiry This handbook takes a sweeping transdisciplinary approach that is deeply phenomenological to the nature and logic of scientific inquiry of and in the Qur an Such an approach invokes the episteme of the unity of knowledge in the socio scientific systemic sense The volumes respective sections focus on the nature logic and role that ethics plays in formulating new vistas of alternative epistemic futures in Islamic economics finance and the social sciences The ideas presented are situated within the broader context of the post modernist post pandemic and the post Covid 19 epoch while being aimed at conceptualising a distinctive new outlook of transdisciplinary intellection in Islamic philosophy The content is rigorously conceptual qualitative quantitative and applied Covering a diversity of subject areas from philosophy of science to economics and in socio scientific context within the realm of Islamic philosophy this forms a key text for scholars in these respective arenas led by pioneering scholarship in Islamic studies

Contesting World Order? Joe Wills, 2017-04-13 What do equality dignity and rights mean in a world where eight men own as much wealth as half the world s population *Contesting World Order Socioeconomic Rights and Global Justice Movements* examines how global justice movements have engaged the language of socioeconomic rights to contest global institutional structures and rules responsible for contributing to the persistence of severe poverty Drawing upon perspectives from critical international relations studies and the activities of global justice movements this book evaluates the counter hegemonic potential of socioeconomic rights discourse and its capacity to contribute towards an alternative to the prevailing neo liberal common sense of global governance

Security, Reconstruction, and Reconciliation Muna Ndulo, 2007-01-24 This key text brings together a team of leading contributors to address the complex issues of security reconciliation and reconstruction in post conflict societies *Security Reconstruction and Reconciliation* is organized into four main sections the social political and economic dimensions of conflict the impact of conflict on women and children reconstruction and past human rights violations disarmament demobilization reintegration post war reconstruction and the building of a capable state and the role of the international community in the peace process The chapters offer a detailed and succinct exposition of the challenges facing post conflict societies by articulating the vision of a new society With a foreword by Francis Deng the UN Secretary General s Special Representative on Internally Displaced Persons the authors discuss the issues in the context of possible solutions and lessons learnt in the field This new book is a valuable resource for researchers policy makers and students in the fields of conflict resolution security studies law and development

Individualism and Political Disorder Introduction James M. Buchanan, Yong J. Yoon, 2014 This note forms the introduction to a book entitled *Individualism and Political Disorder* It helps to contextualize the rest of the articles in the book The chapters in the book are papers written by James M Buchanan singly or jointly with Yong J Yoon after the publication of his collected work volumes 1999 2001

The People's Republic of China Today Zhiqun Zhu, 2011 Despite the significant progress it had achieved in the past 60 years especially

in the past 30 years since Deng Xiaoping's reform initiatives in the late 1970s China faces daunting challenges today. These challenges include among others a rigid political system that does not match economic vibrancy, uneven economic growth and widening income gap, a graying population, environmental degradation, potential social instability, ethnic tensions and separatist movement, poor international image and military modernization. Based on papers originally presented at an international conference held at Bucknell University in Pennsylvania to mark the 60th anniversary of the People's Republic of China PRC, this book provides an up-to-date comprehensive and authoritative assessment of the PRC's political, economic, social, ethnic, energy, security, military, diplomatic and other developments and challenges today. Contributed by scholars and experts in political science, international relations, economics, public administration, history, mass communication, psychology and diplomacy, the book focuses on the efforts needed by China to grow in a sustainable manner and to become a respected global power. With each chapter addressing a different and yet an inter-related issue of the PRC's development, this book aims to make a significant contribution to the understanding of key challenges the country faces today as it strives to become a global power.

Neoliberalism and Imperialism: Dissecting the Dynamics of Global Oppression Tatah

Mentan, 2016-08-06. Today's neoliberal imperialism crushes all unfavourable conditions through multiple forms of oppression to ensure the creation of a world in its own image. The systemic and structural oppression birthed by neoliberal imperialism once again reproduces and implements colonialism, armed robbery on a global scale. The difference between the old form and the new form is the scale of destruction and the overt use of Weapons of Mass Destruction. Hence the militarization of the globe is a natural outcome. In this book Professor Tatah Mentan argues that United Fruit Company for instance could not have flourished without the strong support of the Marines, the U.S. State Department and all of its resources. In fact the French, the German, the British and the Belgian financiers could not have been able to suck the blood out of their colonies without their legionnaires, soldiers, mercenaries, preachers, merchants and generals. Specifically the Western colonial empires in the nineteenth century presented their penetration, pillage and rape of Africa, Asia and Latin America as modernization and tutelage, aided by the ideology of survival of the fittest. This conceit pervaded the entire Western bourgeois social science, educational and religious institutions. And today there is the same clear symbiotic relationship between business and the military. Empirical realities demonstrate that companies like Microsoft could not enjoy its overwhelming prosperity without having the strong military that America has. This is precisely why neoliberal imperialism operates alongside oppressive militarism, war and dictatorship and must be disrupted to liberate mankind from its death grip.
