Such popular work has tended to be undervalued by some critics and commentators mainly because it has not been thought to be a suitable subject for inclusion in the canon of English Literature. By contrast Sierz demonstrates that genres such as the British musical light comedy sex farce or murder mystery are worth appreciating not only for their intrinsic theatrical qualities but also as examples of the dream life of the British people. The book challenges the idea that mega hits are merely escapist entertainments and instead shows how they contribute to the creation of powerful myths about our national life. The analysis of such shows also points towards the possibility of creating an alternative history of postwar British theatre.

Popular Culture Genres Arthur Asa Berger, 1992-05-12 Witty and accessible Popular Culture Genres is a fascinating study of genres and genre criticism. Author Arthur Asa Berger empowers readers to make their own analysis by providing the methods and examples of good criticism. Part I deals with genres from a critical perspective asking questions such as How do the conventions of different genres affect the creation and production of texts and the audiences of those texts? Do certain genres have significant social and political implications? And how do genres evolve? Part II takes a look at five classic popular texts in both their novel and film versions. Viewing these works in the context of their respective genres is not only instructive in nature but captivating reading as well.

Engagement in 21st Century French and Francophone Culture Helena Chadderton, Angela Kimyongür, 2017-11-08 In the face of the contested legacy of engagement in the Francophone context this interdisciplinary collection demonstrates that French and Francophone writers, artists, intellectuals and film makers are using their work to confront unforeseen and unprecedented challenges, campaigns and causes in a politically uncertain post 9/11 world. Composed of eleven essays and a contextualising introduction this volume is interdisciplinary in its treatment of engagement in a variety of forms as it reassesses the relationship between different types of cultural production and society as it is played out in the twenty first century. With a focus on both the development of different cultural forms Part 1 and on the particular crises that have attracted the attention of cultural practitioners Part 2 this volume maps and analyses some of the ways in which cultural texts of all kinds are being used to respond to, engage with and challenge crises in the contemporary Francophone world.
