AIDS Literature and Gay Identity Monica Pearl, 2013-01-04 This book discusses the significance of late twentieth century and early twenty first century American fiction written in response to the AIDS crisis and interrogates how sexual identity is depicted and constructed textually Pearl develops Freudian psychoanalytic theory in a complex account of the ways in which grief is expressed and worked out in literature showing how key texts from the AIDS crisis by authors such as Edmund White Michael Cunningham Eve Sedgwick and also later the archives of The ACT UP Oral History Project lie both within the tradition of gay writing and a postmodernist poetics The book demonstrates how literary texts both expose and construct personal identity how they expose and produce sexual identities and how gay and queer identities were written onto the page but also constructed and consolidated by these very texts Pearl argues that the division between realist and postmodern and gay and queer respectively is determined by whether the experience expressed and accounted is mediated through the psychoanalytic categories of mourning or melancholia and is marked by a kind of coherence or chaos in the texts themselves This study presents an important development in scholarly work in gay literary studies queer theory and AIDS representation

Blues Eric Maisel, PhD, 2012-08-22 Creative people will experience depression that is a given. It is a given because they are regularly confronted by doubts about the meaningfulness of their efforts. There is a kind of depression that does not respond to pharmaceutical treatment. What is required is healing in the realm of meaning. In this groundbreaking book, Eric Maisel teaches creative people how to handle these recurrent crises of meaning and how to successfully manage the anxieties of the creative process. Using examples both from the lives of famous creators such as van Gogh and from his own creativity coaching practice, Maisel explains that despite their inevitable difficulties, creative people possess the ability to forge relationships, repair themselves, and find meaning in their work and their lives. Maisel presents a step-by-step plan to help creative people handle their special brand of depression and rediscover the reasons they are driven to create in the first place.

Focus, 1993 *Great North American Stage Directors Volume 8* James Peck, 2024-01-25 The three directors gathered in this volume all approach theatre-making in part as an act of citizenship. Jesusa Rodríguez, Peter Sellars, and Reza Abdoh differ markedly in many important respects, but they all come to the theatre as an intervention in the public sphere. Rodríguez, Sellars, and

Abdoh blend a spirit of social critique with acts of democratic community building These essays examine how theatre for them is not a sphere of aesthetic experience insulated from the divisions antagonisms and alliances of a conflicted society It is a way to forge fleeting but consequential communities that might reverberate through that society and affect its future development The Great North American Stage Directors series provides an authoritative account of the art of directing in North America by examining the work of twenty four major practitioners from the late 19th century to the present Each of the eight volumes examines three directors and offers an overview of their practices theoretical ideas and contributions to modern theatre The studies chart the life and work of each director placing his or her achievement in the context of other important theatre practitioners and broader social history Written by a team of leading experts the series presents the genealogy of directing in North America while simultaneously chronicling crucial trends and championing contemporary interpretation
