Artist Management in the Music Industries Yiyi Wang, 2024-11-19 Artist Management in the Music Industries A Sui Generis Form of Management provides one of the first substantive academic examinations of the role of an artist manager. This book deconstructs the nature of Artist Management, unveiling the pivotal role of the artist manager in creating and sustaining a dynamic environment referred to as the Loop, where success is realised by navigating four variables: Risks, Relationships, Emotions, and Expectations (2Rs and 2Es) within and beyond the Loop. This book offers a new perspective on Artist Management as a sui generis discipline that does not fit easily inside standard conceptions of management. Featuring ethnography and interviews, this book sheds light on the realworld challenges and successes in the field. It is a must read for researchers, students and practitioners in the music business, music marketing and artist management, offering invaluable insights into the practices that shape the cultural landscape.

Music Artist Managers Guy Morrow, 2024-07-05 To what extent is it possible to do good work in music artist management? Drawing upon original research, this shortform book explores and evaluates motivation, remuneration and equity stakes within the music industries. The author ponders the apparent managerial exodus from the music industries and whether this brain drain could be addressed by providing better remuneration via equity. Based on evidence from Australia, the book illuminates how pay in this sector has remained flat despite increasing responsibility. Emphasising the quality of the subjective experience of music artist managers, this concise book provides readers with new insights into the important role managers play in the music business. The result is a book that will be useful reading for academics and reflective practitioners.
