Together in Music Renee Timmers, Freya Bailes, Helena Daffern, 2021-11-04 Recent years have seen a rise in interest from a diversity of fields in the musical ensemble as an exemplary form of creative group behavior Musical

ensembles can be understood and investigated as high functioning small group organizations that have coordinative structures in place to perform under pressure within strict temporal boundaries Rehearsals and performances exemplify fruitful contexts for emergent creative behaviour where novel musical interpretations are negotiated and discovered through improvisatory interaction Furthermore group music making can be an emotionally and socially rewarding experience that enables positive outcomes for wellbeing and development This book brings together these different perspectives into one coherent volume offering insight into the musical ensemble from different analytical levels Part 1 starts from the meso level considering ensembles as creative teams and investigating how musical groups interact at a social and organizational level Part 2 then zooms in to consider musical coordination and interaction at a micro level when considering group music making as forms of joint action Finally a macro level perspective is taken in Part 3 examining the health and wellbeing affordances associated with acoustical expressive and emotional joint behavior Each part contains a balance of review chapters showcasing the most recent developments in each area of research followed by demonstrative case studies featuring various ensemble practices and processes A rich and multidisciplinary reflection on ensemble music practice this volume will be an insightful read for music students teachers academics and professionals with an interest in the dynamics of group behavior within a musical context

Where Music Helps: Community Music Therapy in Action and Reflection Cochavit
Elefant, Mercédès Pavlicevic, Dr Gary Ansdell, Professor Brynjulf Stige, 2013-06-28 This book explores how people may use music in ways that are helpful for them especially in relation to a sense of wellbeing belonging and participation The central premise for the study is that help is not a decontextualized effect that music produces The book contributes to the current discourse on music culture and society and it is developed in dialogue with related areas of study such as music sociology ethnomusicology community psychology and health promotion Where Music Helps describes the emerging movement that has been labelled Community Music Therapy and it presents ethnographically informed case studies of eight music projects localized in England Israel Norway and South Africa The various chapters of the book portray music s help in action within a broad range of contexts with individuals groups and communities all of whom have been challenged by illness or disability social and cultural disadvantage or injustice Music and musicing has helped these people find their voice literally and metaphorically to be welcomed and to welcome to be accepted and to accept to be together in different and better ways to project alternative messages about themselves or their community and to connect with others beyond their immediate environment The overriding theme that is explored is how music comes to afford things in concert with its environments which may suggest a way of accounting for the role of music in music therapy without reducing music to a secondary role in relation to the therapeutic that is being just a symbol of psychological states a stimulus or a text reflecting socio cultural content
