Mustnt Grumble In Search Of England And The English:

These Englands Arthur Aughey, 2019-01-25 The term conversation is one of today's jargon terms This book explores in depth what conversation means in national terms Its premise is that to be English is to participate in a conversation about the country's history politics culture and society The conversation changes of course but there is also continuity which illustrates a distinct tradition It is a conversation the book argues which requires the plural notion of these Englands rather than the singularity of this England Englishness then is the tone register and idiom of its subject matters its anxieties and certainties differences and commonalities The book explores the English conversation through historical political literary and popular voices and tries to identify the character of contemporary Englishness **Imaginary Europes** Elisabeth

Bekers, Maggie Ann Bowers, Sissy Helff, 2019-06-24 The 20th century has witnessed crucial changes in our perceptions of Europe Two World Wars and many regional conflicts the end of empires and of the Eastern Bloc the creation and expansion of the European Union and the continuous reshaping of Europe's population through emigration immigration and globalization have led to a proliferation of images of Europe within the continent and beyond While Eurocentrism governs current public debates in Europe this book takes a special interest in literary and cinematographic imaginings of Europe that are produced from more distant decentred or peripheral vantage points and across differences of political power ideological or ethnic affinity cultural currency linguistic practice and geographical location The contributions to this book demonstrate how these particular imaginings of Europe often without first hand experience of the continent do not simply hold up a mirror to Europe but dare to conceive of new perspectives and constellations for Europe that call for a shifting of critical positions In so doing the artistic visions from afar confirm the significance of cultural imagination in re conceptualizing the past present and future of Europe This book was originally published as a special issue of the Journal of Postcolonial Writing
