*In Muted Modernists: The Struggle Over Divine Politics in Saudi Arabia, Madawi Al-Rasheed challenges monolithic understandings of official and opposition divine politics in Saudi Arabia by examining how activists, intellectuals and religious scholars are attempting to construct a new form of politics through reinterpretation of key Islamic texts and civil society activism. This is an important and insightful read that contributes to scholarship on changing socio-political and cultural dynamics within the Middle East and the influence of media and communication technologies on political participation, writes Philip Effiom Ephraim.*

Global events in 2016 are indicative of rapidly rising suspicion towards Muslims and Arabs in general worldwide. The closure of borders to refugees in Europe, the threat to close borders to all Muslims by a key US presidential candidate, the BREXIT referendum and the Brussels and Istanbul bombings are among the different events that have been directly linked to jihadist terrorist activities, and have served to worsen fear and suspicion. Terrorist attacks cause widespread anger and, in response, the general public can tend to overgeneralise by linking all Muslims with terrorists and other perpetrators of violent acts. Fingers often particularly point to Saudi Arabia as the mastermind and main sponsor of terrorism. In several cases, reprisal attacks on innocent members of Saudi communities in the west have followed, as witnessed during the aftermath of the 9/11 attacks in the US.

The framing of news and television programming on terrorist attacks, and indeed life in the Arab world, by the majority of western media often further aggravates the situation. Western media typically projects stereotypical images of Saudis as violent bigots, sectarian fanatics, misogynistic preachers and as socially conservative. While some aspects of these reports are factual, they often lack balance as counter-narratives on the struggles for freedom and democracy within the Arab world remain largely absent. Muslims thus tend to be lumped together as commonly seeking to establish an Islamic state where sharia law and Islamic moral codes prevail.

In *Muted Modernists: The Struggle Over Divine Politics in Saudi Arabia*, Madawi Al-Rasheed turns our attention to events in a country widely regarded as the seat of Islam. Al-Rasheed critically examines conflicting socio-cultural and political power relations between traditional-fundamentalist Islamists and those termed modernists. Modernists – comprising socio-political activists, intellectuals and ulama (religious scholars) – are attempting to rethink Islamic norms and reinterpret foundational Islamic texts with a view to aligning them with both the spirit of Islam and the sensibilities of modern society. The modernists call for a rational assessment of Islamic history and the adoption of contemporary perspectives and strategies to allow for greater freedom and political representation. By holding these counter-perspectives, modernist thinkers are directly pitched against state ideologies.

Thompson,2019-10-03 Based on remarkable primary research this unique contemporary account of the lives of young Saudi men reveals a distinct group of voices      Rentier Islamism Courtney Freer,2018-03-01 While scholars have long looked at the role of political Islam in the Middle

East it has been assumed that domestic politics in the wealthy monarchical states of the Arabian Gulf so called rentier states where taxes are very low and oil wealth subsidizes the needs of citizens are largely unaffected by such movements Using contemporary history and original empirical research Courtney Freer updates traditional rentier state theory and argues that political Islam serves as a prominent voice and tool to promote more strictly political and often populist or reformist views supported by many Gulf citizens *Inside the Arab State* Mehran Kamrava, 2018-08-15 The 2011 Arab uprisings and their subsequent aftermath have thrown into question some of our long held assumptions about the foundational aspects of the Arab state While the regional and international consequences of the uprisings continue to unfold with great unpredictability their ramifications for the internal lives of the states in which they unfolded are just as dramatic and consequential States historically viewed as models of strength and stability have been shaken to their foundations Borders thought impenetrable have collapsed sovereignty and territoriality have been in flux This book examines some of the central questions facing observers and scholars of the Middle East concerning the nature of power and politics before and after 2011 in the Arab world The focus of the book revolves around the very nature of politics and the exercise of power in the Arab world conceptions of the state its functions and institutions its sources of legitimacy and basic notions underlying it such as sovereignty and nationalism *Inside the Arab State* adopts a multi disciplinary approach examining a broad range of political economic and social variables It begins with an examination of politics and more specifically political institutions in the Arab world from the 1950s on tracing the travail of states and the wounds they inflicted on society and on themselves along the way until the eruption of the 2011 uprisings The uprisings the states responses to them and efforts by political leaders to carve out for themselves means of legitimacy are also discussed as are the reasons for the emergence and rise of Daesh and the Islamic State Power I argue and increasingly narrow conceptions of it in terms of submission and conformity remains at the heart of Arab politics popular protests and yearnings for change notwithstanding Much has changed in the Arab world over the last several decades But even more has stayed the same **Middle East Politics and International Relations** Shahram Akbarzadeh, 2022-10-28 As featured on BookAuthority s list of best International Relations books to read in 2024 Continuing civil wars and humanitarian crises coupled with a changing geopolitical dynamic highlighted by increased Russian and Chinese presence in the Middle East call for new thinking What happens in the Middle East has major global repercussions This second edition of the ground breaking textbook *Middle East Politics and International Relations* Crisis Zone provides a comprehensive overview of contemporary Middle East politics The book traces the roots of recent events across the region s modern history enabling readers to appreciate both the significance of such events and the importance of history in influencing their outcomes Structured chronologically with updated stand alone chapters containing history context and contemporary analyses this edition examines a series of interconnected themes and issues including external intervention political manifestations of Islam the role of political authority nationalism self determination and human rights

The book provides a valuable teaching tool both in its content and structure. Students will gain a deeper understanding of a changed Middle East and the evolving role of states and non state actors in the region. **Deadly Clerics** Richard A. Nielsen, 2017-11-09. *Deadly Clerics* explains why some Muslim clerics adopt the ideology of militant jihadism while most do not. The book explores multiple pathways of cleric radicalization and shows that the interplay of academic religious and political institutions has influenced the rise of modern jihadism through a mechanism of blocked ambition. As long as clerics' academic ambitions remain attainable they are unlikely to espouse violent jihad. Clerics who are forced out of academia are more likely to turn to jihad for two reasons: jihadist ideas are attractive to those who see the system as turning against them and preaching a jihad ideology can help these outsider clerics attract supporters and funds. The book draws on evidence from various sources including large scale statistical analysis of texts and network data obtained from the Internet, case studies of clerics' lives and ethnographic participant observations at sites in Cairo, Egypt. **Rethinking Salafism** Raihan Ismail, 2021-10-01. Salafism has received scrutiny as the main ideological source for violent extremism propagated by jihadi groups. Besides Salafi jihadis, however, there are two other broad trends of Salafism: quietist and activist. Quietist Salafis endorse an apolitical tradition and find political activism in any form unacceptable. Activist Salafis advocate peaceful political change. Each stream is led by ulama seen as the preservers of Salafi traditions. *Rethinking Salafism* assesses the origins, interactions and dynamics of the transnational networks of Salafi ulama in the region of Saudi Arabia, Egypt and Kuwait. It also offers a reassessment of the quietist/activist dichotomy, arguing that this dichotomy does not apply to certain aspects of Salafi thought such as attitudes towards the Shi'a and social matters in Muslim communities. **The Death of the Nation and the Future of the Arab Revolution** Vijay Prashad, 2016-09-13. This fast paced and timely book from Vijay Prashad is the best critical primer to the Middle East conflicts today, from Syria and Saudi Arabia to the chaos in Turkey. Mixing thrilling anecdotes from street level reporting that give readers a sense of what is at stake with a bird's eye view of the geopolitics of the region and the globe, Prashad guides us through the dramatic changes in players, politics and economics in the Middle East over the last five years. The Arab Spring was defeated neither in the byways of Tahrir Square nor in the souk of Aleppo, he explains. It was defeated roundly in the palaces of Riyadh and Ankara as well as in Washington DC and Paris. The heart of this book explores the turmoil in Iraq, Syria and Lebanon, countries where ISIS emerged and is thriving. It is here that the story of the region rests. What would a post-ISIS Middle East look like? Who will listen to the grievances of the people? Can there be another future for the region that is not the return of the security state or the continuation of monarchies? Placing developments in the Middle East in the broader context of revolutionary history, *The Death of the Nation* tackles these critical questions. **Troubled Waters** Mehran Kamrava, 2018-05-15. This text examines the causes and consequences of each of those dynamics both individually and collectively that have made this small waterway and its surrounding areas one of the most volatile and tension filled regions in the world. This pervasive insecurity, the book argues, is largely a product of four

interrelated developments      The Son King Madawi Al-Rasheed,2021-02-01 In 2018 journalist Jamal Khashoggi was murdered by Saudi regime operatives shocking the international community and tarnishing the reputation of Muhammad bin Salman the kingdom's young reformist crown prince Domestically bin Salman's reforms have proven divisive and his adoption of populist nationalism and fierce repression of diverse critical voices religious scholars feminists and dissident youth have failed to silence a vibrant and well connected Saudi society Madawi Al Rasheed lays bare the world of repression behind the crown prince's reforms She dissects the Saudi regime's propaganda and progressive new image while also dismissing Orientalist views that despotism is the only pathway to stable governance in the Middle East Charting old and new challenges to the fragile Saudi nation from the kingdom's very inception this blistering book exposes the dangerous contradictions at the heart of the Son King's Saudi Arabia      **Islam and Secularism in Post-Colonial Thought** Hadi Enayat,2017-06-30 This book is a theoretically and historically informed exploration of secularism in Muslim contexts It does this through a critical assessment of an influential tradition of thinking about Islam and secularism derived from the work of anthropologist Talal Asad and his followers The study employs the tools of comparative historical sociology and sociology of knowledge to engage with the assumptions of Asadian theory Ultimately Enayat argues against nativist assertions drawn from the experience of Western modernity and provides a qualified defense of secularism      **Islam and the Arab Revolutions** Usaama Al-Azami,2022-05-01 The Arab revolutions of 2011 were a transformative moment in the modern history of the Middle East as people rose up against long standing autocrats throughout the region to call for bread freedom and dignity With the passage of time results have been decidedly mixed with tentative success stories like Tunisia contrasting with the emergence of even more repressive dictatorships in places like Egypt with the backing of several Gulf states Focusing primarily on Egypt this book considers a relatively understudied dimension of these revolutions the role of prominent religious scholars While pro revolutionary ulama have justified activism against authoritarian regimes counter revolutionary scholars have provided religious backing for repression and in some cases the mass murder of unarmed protestors Usaama al Azami traces the public engagements and religious pronouncements of several prominent ulama in the region including Yusuf al Qaradawi Ali Gomaa and Abdullah bin Bayyah to explore their role in either championing the Arab revolutions or supporting their repression He concludes that while a minority of noted scholars have enthusiastically endorsed the counter revolutions their approach is attributable less to premodern theology and more to their distinctly modern commitment to the authoritarian state      *Brother Alive* Zain Khalid,2022-07-12 From the winner of the NYPL Young Lions Fiction Award CLMP Firecracker Award and Bard Fiction Prize National Book Award 5 Under 35 Honoree and finalist for the NBCC John Leonard Prize an astonishing debut novel about family sexuality and capitalist systems of control following three adopted brothers who live above a mosque in Staten Island with their imam father In 1990 three boys are born unrelated but intertwined by circumstance Dayo Iseul and Youssef They are adopted as infants and share a bedroom perched

atop a mosque in one of Staten Island's most diverse and underserved neighborhoods. The three boys are an inseparable trio but conspicuous. Dayo is of Nigerian origin, Iseul is Korean, and Youssef indeterminately Middle Eastern. Youssef shares everything with his brothers except for one secret: he sees a hallucinatory double, an imaginary friend who seems absolutely real, a shapeshifting familiar he calls Brother. Brother persists as a companion into Youssef's adult life, supporting him but also stealing his memories and shaking his grip on the world. The boys' adoptive father, Imam Salim, is known in the community for his stirring and radical sermons but at home he often keeps himself to himself, spending his evenings in his study with whiskey-laced coffee, reading poetry or writing letters to his former compatriots back in Saudi Arabia. Like Youssef, he too has secrets, including the cause of his failing health and the truth about what happened to the boys' parents. When years later Imam Salim's path takes him back to Saudi Arabia, the boys, now adults, will be forced to follow. There they will be captivated by an opulent, almost futuristic world, a linear city that seems to offer a more sustainable modernity than that of the West. But this conversion has come at a great cost, and Youssef and Brother too will have to decide if they should change to survive or try to mount a defense of their deeply held beliefs. Stylistically brilliant, intellectually acute, and deft in its treatment of complex themes, *Brother* is a remarkable debut by a hugely talented writer that questions the nature of belief and explores the possibility of reunion for those who are broken.

#### **Gender, Governance and Islam** Kandiyoti Deniz

Kandiyoti, 2019-08-05. Following a period of rapid political change both globally and in relation to the Middle East and South Asia, this collection sets new terms of reference for an analysis of the intersections between global, state, non-state, and popular actors and their contradictory effects on the politics of gender. The volume charts the shifts in academic discourse and global development practice that shape our understanding of gender both as an object of policy and as a terrain for activism. Nine individual case studies systematically explore how struggles for political control and legitimacy determine both the ways in which dominant gender orders are safeguarded and the diverse forms of resistance against them.
