My Antonia Broadview Literary Texts:

My Antonia Willa Cather, 2003-03-12 Willa Cather's *My Antonia* is considered one of the most significant American novels of the twentieth century. Set during the great migration west to settle the plains of the North American continent, the narrative follows Antonia Shimerda, a pioneer who comes to Nebraska as a child and grows with the country, inspiring a childhood friend Jim Burden to write her life story. The novel is important both for its literary aesthetic and as a portrayal of important aspects of American social ideals and history, particularly the centrality of migration to American culture. The Broadview edition includes a rich selection of primary source materials, the revised introduction for the 1926 edition, Cather's *Mesa Verde*, *Wonderland is Easy to Reach*, *Nebraska*, *The End of the First Cycle*, Peter and her comments on the novel, contemporary reviews, and photographs.

My Antonia Willa Cather, 2003-03-12 Willa Cather's *My Antonia* is considered one of the most significant American novels of the twentieth century. Set during the great migration west to settle the plains of the North American continent, the narrative follows Antonia Shimerda, a pioneer who comes to Nebraska as a child and grows with the country, inspiring a childhood friend Jim Burden to write her life story. The novel is important both for its literary aesthetic and as a portrayal of important aspects of American social ideals and history, particularly the centrality of migration to American culture. The Broadview edition includes a rich selection of primary source materials, the revised introduction for the 1926 edition, Cather's *Mesa Verde*, *Wonderland is Easy to Reach*, *Nebraska*, *The End of the First Cycle*, Peter and her comments on the novel, contemporary reviews, and photographs.

The Tallgrass Prairie Reader John T Price, 2014-06-01 The tallgrass prairie of the early 1800s, a beautiful and seemingly endless landscape of wildflowers and grasses, is now a tiny remnant of its former expanse. As a literary landscape with much of the American environmental imagination focused on a mainstream notion of more spectacular examples of wild beauty, tallgrass is even more neglected. Prairie author and advocate John T Price wondered what it would take to restore tallgrass prairie to its rightful place at the center of our collective identity. The answer to that question is his *Tallgrass Prairie Reader*, a first of its kind collection of literature from and about the tallgrass bioregion. Focusing on autobiographical nonfiction in a wide variety of forms, voices, and approaches, including adventure narrative, spiritual reflection, childhood memoir, Native American perspectives, literary natural history, humor, travel writing, and reportage, he honors the ecological diversity of tallgrass itself and provides a range of models for nature writers and students. The chronological arrangement allows readers to experience tallgrass through the eyes and imaginations of forty-two authors from the nineteenth to the twenty-first centuries. Writings by very early explorers are followed by works of nineteenth-century authors that reflect the fear, awe, reverence, and thrill of adventure rampant at the time. After 1900, following the destruction of the majority of tallgrass, much of the writing became nostalgic, elegiac, and mythic. A new environmental consciousness asserted itself midcentury as personal responses to tallgrass were increasingly influenced by larger ecological perspectives. Preservation and restoration, informed by hard science, emerged as major themes. Early twenty

first century writings demonstrate an awareness of tallgrass environmental history and the need for citizens including writers to remember and to help save our once magnificent prairies Island of Grass Ellen E. Wohl, 2011-05-18 Island of Grass tells the story of the Cathy Fromme Prairie Natural Area a 240 acre preserve surrounded by housing developments in Fort Collins Colorado This small grassland is a remnant of the once vast prairies of the West that early European explorers and settlers described as seas of grass Agricultural land use and urban expansion during the past two centuries have fragmented and altered these prairies All that remains today are small islands These remnants cannot support some of the larger animals that once roamed the prairie but they continue to support a diverse array of plants and animals and can still teach us much about grassland ecology Through her examinations of daily changes during walks across the Fromme Prairie over the course of a year Ellen Wohl explores one of the more neglected ecosystems in North America describing the geology soils climate ecology and natural history of the area as well as providing glimpses into the lives of the plants animals and microbes inhabiting this landscape Although small in size pieces of preserved shortgrass prairie like the Cathy Fromme Prairie Natural Area are rich diverse and accessible natural environments deserving of awareness appreciation and protection Anyone concerned with the ecology and conservation of grasslands in general the ecology and conservation of open space in urban areas or the natural history of Colorado will be interested in this book Heritage of the Great Plains , 2006 Contains articles on the literature language folklore history art and music of the Great Plains *Willa Cather Pioneer Memorial and Educational Foundation Newsletter and Review* , 2005 **Canadian Books in Print. Author and Title Index** , 1975 *A Community of Inquiry* Patrick Kieran Dooley, 2008 Examines the connections between American philosophy and literature This title includes discussion of subjects ranging from Stephen Crane s metaphysics to business ethics in William Dean Howells pragmatic religion in Willa Cather and Harold Frederic John Steinbeck s philosophy of work and Norman Maclean s philosophy of community *Canadian Books in Print* , 2003 *Canadian Books in Print* Marian Butler, 2000 **American Women and Classical Myths** Gregory Allan Staley, 2009 American women in contrast to their European counterparts have long engaged with and critiqued the myths of antiquity *American Women and Classical Myths* is a collection of essays exploring the paradoxical attitudes that women in the U S have exhibited over a span of more than two centuries Contributors address two broad topics They examine the attempts of several influential American women including Margaret Fuller Edith Hamilton and Hilda Doolittle to interpret myth for an audience that distrusted it In addition they show how American women have reinterpreted myths about women such as Antigone Penelope or the Amazons to create identities appropriate to women in the New World **Handbook of the American Novel of the Twentieth and Twenty-First Centuries** Timo Müller, 2017-01-11 Increasing specialization within the discipline of English and American Studies has shifted the focus of scholarly discussion toward theoretical reflection and cultural contexts These developments have benefitted the discipline in more ways than one but they have also resulted in a certain neglect of close reading As a result

students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on dated methodological and ideological presuppositions The handbook aims to fill this gap by providing new readings of texts that figure prominently in the literature classroom and in scholarly debate from James s The Ambassadors to McCarthy s The Road These readings do not revert naively to a time before theory Instead they distil the insights of literary and cultural theory into concise introductions to the historical background the themes the formal strategies and the reception of influential literary texts and they do so in a jargon free language accessible to readers on all levels of qualification

Race, Rights, and Recognition Dean J. Franco, 2012-05-15 In Race Rights and Recognition Dean J Franco explores the work of recent Jewish American writers many of whom have taken unpopular stances on social issues distancing themselves from the politics and public practice of multiculturalism While these writers explore the same themes of group based rights and recognition that preoccupy Latino African American and Native American writers they are generally suspicious of group identities and are more likely to adopt postmodern distancing techniques than to presume to speak for their people Ranging from Philip Roth s scandalous 1969 novel Portnoy s Complaint to Gary Shteyngart s Absurdistan in 2006 the literature Franco examines in this book is at once critical of and deeply invested in the problems of race and the rise of multicultural philosophies and policies in America Franco argues that from the formative years of multiculturalism 1965 1975 Jewish writers probed the ethics and not just the politics of civil rights and cultural recognition this perspective arose from a stance of keen awareness of the limits and possibilities of consensus based civil and human rights Contemporary Jewish writers are now responding to global problems of cultural conflict and pluralism and thinking through the challenges and responsibilities of cosmopolitanism Indeed if the United States is now correctly if cautiously identifying itself as a post ethnic nation it may be said that Jewish writing has been well ahead of the curve in imagining what a post ethnic future might look like and in critiquing the social conventions of race and ethnicity

Разкази За Периферията Ludmilla Kostova, 1997

Secret Histories David Wyatt, 2010-11-01 Secret Histories claims that the history of the nation is hidden in plain sight within the pages of twentieth century American literature David Wyatt argues that the nation s fiction and nonfiction expose a secret history that cuts beneath the straight histories of our official accounts And it does so by revealing personal stories of love work family war and interracial romance as they were lived out across the decades of the twentieth century Wyatt reads authors both familiar and neglected examining double consciousness in the post Civil War era through works by Charles W Chesnutt W E B Du Bois and Booker T Washington He reveals aspects of the Depression in the fiction of F Scott Fitzgerald Anzia Yezierska and John Steinbeck Period by period Wyatt s nuanced readings recover the felt sense of life as it was lived opening surprising dimensions of the critical issues of a given time The rise of the women s movement for example is revived in new appraisals of works by Eudora Welty Ann Petry and Mary McCarthy Running through the examination of individual works and times is Wyatt s argument about reading itself Reading is not a passive activity but an empathetic act of

cocreation what Faulkner calls overpassing to love Empathetic reading recognizes and relives the emotional cultural and political dimensions of an individual and collective past And discovering a usable American past as Wyatt shows enables us to confront the urgencies of our present moment *Maternity and Romance Narratives in Early Modern England* Karen Bamford, Naomi J. Miller, 2016-05-06 Though recent scholarship has focused both on motherhood and on romance literature in early modern England until now no full length volume has addressed the notable intersections between the two topics This collection contributes to the scholarly investigation of maternity in early modern England by scrutinizing romance narratives in various forms considering motherhood not as it was actually lived but as it was figured in the fantasy world of romance by authors ranging from Edmund Spenser to Margaret Cavendish Contributors explore the traditional association between romance and women both as readers of fiction and as tellers of old wives tales as well as the tendency of romance plots with their emphasis on the family and its reproduction to foreground matters of maternity Collectively the essays in this volume invite reflection on the uses to which Renaissance culture put maternal stereotypes the virgin mother the cruel step dame as well as the powerful fears and desires that mothers evoke assuage and sometimes express in the fantasy world of romance

The Oxford English Literary History Margaret J. M. Ezell, 2017-09-15 The Oxford English Literary History is the new century's definitive account of a rich and diverse literary heritage that stretches back for a millennium and more Each of these thirteen groundbreaking volumes offers a leading scholar's considered assessment of the author's works cultural traditions events and ideas that shaped the literary voices of their age The series will enlighten and inspire not only everyone studying teaching and researching in English Literature but all serious readers This volume covers the period 1645-1714 and removes the traditional literary period labels and boundaries used in earlier studies to categorize the literary culture of late seventeenth century England It invites readers to explore the continuities and the literary innovations occurring during six turbulent decades as English readers and writers lived through unprecedented events including a King tried and executed by Parliament and another exiled the creation of the national entity Great Britain and an expanding English awareness of the New World as well as encounters with the cultures of Asia and the subcontinent The period saw the establishment of new concepts of authorship and it saw a dramatic increase of women working as professional commercial writers London theatres closed by law in 1642 reopened with new forms of entertainments from musical theatrical spectacles to contemporary comedies of manners with celebrity actors and actresses Emerging literary forms such as epistolary fictions and topical essays were circulated and promoted by new media including newspapers periodical publications and advertising and laws were changing governing censorship and taking the initial steps in the development of copyright It was a period which produced some of the most profound and influential literary expressions of religious faith from John Milton's *Paradise Lost* and John Bunyan's *Pilgrim's Progress* while simultaneously giving rise to a culture of libertinism and savage polemical satire as well as fostering the new dispassionate discourses of experimental sciences and the conventions of popular romance

Willa Cather's My Ántonia Harold Bloom, 2008 Willa Cather's *My Ántonia* a nostalgic novel about an earlier America portrays the harmonies and disharmonies of the human world and the world of nature This new edition gathers together some of the best criticism available on the text

Considering Children's Literature Andrea Schwenke Wyile, Teya Rosenberg, 2008-02-21 The study of children's literature is not just about children and the books said to be for them it is also about the societies and cultures from which the literature comes and it is about the assumptions and ideas we hold about children and childhood For adults reading children's literature is ultimately both an act of nostalgia and of self examination When we consider children's literature we must include ourselves in the equation What kinds of readers are we How do we relate to books and stories To what degree should we impose our experience upon others Reading children's literature actively can lead to all kinds of remarkable and sometimes unsettling revelations about ourselves and our society from the Introduction

Considering Children's Literature is a collection of previously published essays on a variety of topics that inform the study of children's literature Exploring issues such as censorship the canon the meanings of fairy tales and the adaptation of children's literature into film the essays in this anthology are as diverse as they are illuminating Along with authors like Natalie Babbitt and Margaret Mahy teachers scholars and publishers of children's books are also contributors Accessible and comprehensive this book will appeal to anyone interested in children's literature

Eighteenth-Century Women Poets and Their Poetry Paula R. Backscheider, 2005-12-31 Co Winner James Russell Lowell Prize Modern Language Association This major study offers a broad view of the writing and careers of eighteenth century women poets casting new light on the ways in which poetry was read and enjoyed on changing poetic tastes in British culture and on the development of many major poetic genres and traditions Rather than presenting a chronological survey Paula R Backscheider explores the forms in which women wrote and the uses to which they put those forms Considering more than forty women in relation to canonical male writers of the same era she concludes that women wrote in all of the genres that men did but often adapted revised and even created new poetic kinds from traditional forms Backscheider demonstrates that knowledge of these women's poetry is necessary for an accurate and nuanced literary history Within chapters on important canonical and popular verse forms she gives particular attention to such topics as women's use of religious poetry to express candid ideas about patriarchy and rape the continuing evolution and important role of the supposedly antiquarian genre of the friendship poetry same sex desire in elegy by women as well as by men and the status of Charlotte Smith as a key figure of the long eighteenth century not only as a Romantic era poet
