New Perspectives On The Origins Of Americanist Archaeology:

New Perspectives on the Origins of Americanist Archaeology David L Browman, Stephen Williams, 2002-02-19 In this landmark book experienced scholars take a retrospective look at the developing routes that have brought American archaeologists into the 21st century In 1996 the Society for American Archaeology's Committee on the History of Archaeology established a biennial symposium named after Gordon R Willey one of the fathers of American archaeology to focus on the history of the discipline This volume grew out of the second symposium presented at the 1998 meeting of the Society for American Archaeology Interest in the intellectual history of the field is certainly nothing new the first such volume appeared in 1856 but previously focus has been on individuals and their theories and methods or on various government agencies that supported developed or mandated excavations in North America This volume however focuses on the roots of Americanist archaeology including its pre 1915 European connections and on some of the earliest work by women archaeologists which has been largely overlooked Full of valuable insights for archaeologists and anthropologists both professional and amateur into the history and development of Americanist archaeology *New Perspectives* will also inspire and serve as a model for future research David Browman is Professor of Anthropology and Chair of the Interdisciplinary Program in Archaeology at Washington University Stephen Williams is Professor Emeritus of Anthropology at Harvard University

Anthropology at Harvard David L. Browman, Stephen Williams, 2013-07-15 The history of anthropology at Harvard is told through vignettes about the people famous and obscure who shaped the discipline at Harvard College and the Peabody Museum The role of amateurs and private funders in the early growth of the field is highlighted as is the participation of women and of students and scholars of diverse ethnicities

In the Shadow of Quetzalcoatl Merilee Grindle, 2023-11-07 The first biography of Zelia Nuttall 1857-1933 a pioneering Mexican American anthropologist whose work on Aztec cosmology and mastery of ancient codices helped shape our understanding of pre-Columbian Mexico Grindle captures the appeal and contradictions of this trailblazing woman who brought a new rigor to the study of ancient civilizations

The Great Paleolithic War David J. Meltzer, 2015-11-03 Following the discovery in Europe in the late 1850s that humanity had roots predating known history and reaching deep into the Pleistocene era scientists wondered whether North American prehistory might be just as ancient And why not The geological strata seemed exactly analogous between America and Europe which would lead one to believe that North American humanity ought to be as old as the European variety This idea set off an eager race for evidence of the people who might have occupied North America during the Ice Age a long and as it turned out bitter and controversial search In *The Great Paleolithic War* David J Meltzer tells the story of a scientific quest that set off one of the longest running feuds in the history of American anthropology one so vicious at times that anthropologists were deliberately frightened away from investigating potential sites Through his book we come to understand how and why this controversy developed and stubbornly persisted for as long as it did and how in the process it

revolutionized American archaeology *Measuring Time with Artifacts* R. Lee Lyman, Michael John O'Brien, 2006-01-01 Combining historical research with a lucid explication of archaeological methodology and reasoning *Measuring Time with Artifacts* examines the origins and changing use of fundamental chronometric techniques and procedures and analyzes the different ways American archaeologists have studied changes in artifacts sites and peoples over time In highlighting the underpinning ontology and epistemology of artifact based chronometers cultural transmission and how to measure it archaeologically this volume covers issues such as why archaeologists used the cultural evolutionism of L H Morgan E B Tylor L A White and others instead of biological evolutionism why artifact classification played a critical role in the adoption of stratigraphic excavation how the direct historical approach accomplished three analytical tasks at once why cultural traits were important analytical units why paleontological and archaeological methods sometimes mirror one another how artifact classification influences chronometric method and how graphs illustrate change in artifacts over time An understanding of the history of artifact based chronometers enables us to understand how we know what we think we know about the past ensures against modern misapplication of the methods and sheds light on the reasoning behind archaeologists actions during the first half of the twentieth century *Bioarchaeology* Jane E Buikstra, Lane A Beck, 2017-03-02 The core subject matter of bioarchaeology is the lives of past peoples interpreted anthropologically Human remains contextualized archaeologically and historically form the unit of study Integrative and frequently inter disciplinary bioarchaeology draws methods and theoretical perspectives from across the sciences and the humanities *Bioarchaeology The Contextual Study of Human Remains* focuses upon the contemporary practice of bioarchaeology in North American contexts its accomplishments and challenges Appendixes a glossary and 150 page bibliography make the volume extremely useful for research and teaching

Minnesota's Geologist Sue Leaf, 2020-06-09 Winner of the 2021 Minnesota Book Award for Minnesota Nonfiction The story of the scientist who first mapped Minnesota s geology set against the backdrop of early scientific inquiry in the state At twenty Newton Horace Winchell declared I know nothing about rocks At twenty five he decided to make them his life s work As a young geologist tasked with heading the Minnesota Geological and Natural History Survey Winchell 1839 1914 charted the prehistory of the region its era of inland seas its volcanic activity and its several ice ages laying the foundation for the monumental five volume *Geology of Minnesota* Tracing Winchell s remarkable path from impoverished fifteen year old schoolteacher to a leading light of an emerging scientific field *Minnesota s Geologist* also recreates the heady early days of scientific inquiry in Minnesota a time when one man s determination and passion for learning could unlock the secrets of the state s distant past and present landscape Traveling by horse and cart by sailboat and birchbark canoe Winchell and his group surveyed rock outcrops river valleys basalt formations on Lake Superior and the vast Red River Valley He studied petrology at the Sorbonne in Paris bringing cutting edge knowledge to bear on the volcanic rocks of the Arrowhead region As a founder of the American Geological Society and founding editor of *American Geologist* the first journal for professional

geologists Winchell was the driving force behind scientific endeavor in early state history serving as mentor to many young scientists and presiding over a household the Winchell House located on the University of Minnesota's present day mall that was a nexus of intellectual ferment His life story told here for the first time draws an intimate picture of this influential scientist set against a backdrop of Minnesota's geological complexity and splendor **Classic Maya Political History** T. Patrick Culbert, 1996-03-29 This volume is the first to present in detail the results of recent decipherment of Maya hieroglyphic writing and to consider the implications of a Classic Maya written history Contributors examine the way in which the Maya elite created the kinship alliance warfare and ceremonial networks on which the civilization was founded

History of Archaeology: International Perspectives Geraldine Delley, Margarita Diaz-Andreu, Francois Djindjian, 2016-06-23 The present volume gathers the communications of the three sessions organized under the auspices of the Commission History of Archaeology at the XVII UISPP World Congress Burgos 2014 *Graphing Culture Change in North American Archaeology* R. Lee Lyman, 2021-06-10 Documentation analysis and explanation of culture change have long been goals of archaeology Scientific graphs facilitate the visual thinking that allow archaeologists to determine the relationship between variables and if well designed comprehend the processes implied by the relationship Different graph types suggest different ontologies and theories of change and particular techniques of parsing temporally continuous morphological variation of artefacts into types influence graph form North American archaeologists have grappled with finding a graph that effectively and efficiently displays culture change over time Line graphs bar graphs and numerous one off graph types were used between 1910 and 1950 after which spindle graphs displaying temporal frequency distributions of specimens within each of multiple artefact types emerged as the most readily deciphered diagram The variety of graph types used over the twentieth century indicate archaeologists often mixed elements of both Darwinian variational evolutionary change and Midas touch like transformational change Today there is minimal discussion of graph theory or graph grammar in introductory archaeology textbooks or advanced texts and elements of the two theories of evolution are still mixed Culture has changed and archaeology provides unique access to the totality of humankind's cultural past It is therefore crucial that graph theory construction and decipherment are revived in archaeological discussion History of Humanity UNESCO, 2008-12-31 This is the seventh and final volume in this comprehensive guide to the history of world cultures throughout historical times *Ancient Maya Wetland Agriculture* Mary Deland Pohl, 2019-08-27 Changes in the orientation of archaeological research in the post World War II period affected Maya studies The cultural ecological perspective which was rising to prominence put an old debate in bold relief How had this prehistoric civilization adapted to the tropical forest environment How could swidden cultivation have sustained the unexpectedly high population densities that settlement pattern studies appeared to be revealing Had the ancient Maya practiced some form of intensive agriculture Archaeologist Dennis E Puleston went to the Maya Lowlands to investigate geographer Alfred H Siemens's reports of possible intensive

agriculture ridged fields seen from the air and to study prehistoric Maya cultivation and civilization from a cultural ecological perspective This volume presents the results of the Rio Hondo Project field research on Albion Island in northern Belize from 1973 to 1980 with the addition of selected results from Pohl s continuing work in northern Belize *Thinking from Things* Alison Wylie,2002-11-13 No other work in this field covers the history of important conceptual issues in archaeology in such a deep and knowledgable way bringing both philosophical and archeological sophistication to bear on all of the issues treated Wylie s work in *Thinking from Things* is original scholarly and creative This book is for anyone who wants to understand contemporary archaeological theory how it came to be as it is its relationship with other disciplines and its prospects for the future Merrilee Salmon author of *Philosophy and Archaeology* Wylie is a reasonable and astute thinker who lucidly and persuasively makes genuinely constructive criticisms of archaeological thought and practice and very useful suggestions for how to proceed She commands both philisophy and archaeology to an unusual degree Having her articles together in *Thinking from Things* with much new material extending and integrating them is a major contribution that will be widely welcomed among archaeologists both professionals and students philosophers and historians of science and social scientists George L Cowgill Arizona State University **A Hopi Social History** Scott Rushforth,Steadman Upham,2014-08-27 Incorporate s a multitude of theoretical approaches about Hopi sociological life Ranging from prehistoric times until contemporary times Indigenous Nations Studies Journal All anthropologists and archaeologists seek to answer basic questions about human beings and society Why do people behave the way they do Why do patterns in the behavior of individuals and groups sometimes persist for remarkable periods of time Why do patterns in behavior sometimes change A Hopi Social History explores these basic questions in a unique way The discussion is constructed around a historically ordered series of case studies from a single sociocultural system the Hopi in order to understand better the multiplicity of processes at work in any sociocultural system through time The case studies investigate the mysterious abandonments of the Western Pueblo region in late prehistory the initial impact of European diseases on the Hopis Hopi resistance to European domination between 1680 and 1880 the split of Oraibi village in 1906 and some responses by the Hopis to modernization in the twentieth century These case studies provide a forum in which the authors examine a number of theories and conceptions of culture to determine which theories are relevant to which kinds of persistence and change With this broad theoretical synthesis the book will be of interest to students and scholars in the social sciences A foundation for general discourse on anthropological theory and explanation Covering the prehistoric Spanish early historic and contemporary periods American Indian Quarterly *Across a Great Divide* Laura L. Scheiber,Mark D. Mitchell,2010-02-15 Archaeological research is uniquely positioned to show how native history and native culture affected the course of colonial interaction but to do so it must transcend colonialist ideas about Native American technological and social change This book applies that insight to five hundred years of native history Using data from a wide variety of geographical temporal and cultural settings the

contributors examine economic social and political stability and transformation in indigenous societies before and after the advent of Europeans and document the diversity of native colonial experiences The book s case studies range widely from sixteenth century Florida to the Great Plains to nineteenth century coastal Alaska The contributors address a series of interlocking themes Several consider the role of indigenous agency in the processes of colonial interaction paying particular attention to gender and status Others examine the ways long standing native political economies affected and were in turn affected by colonial interaction A third group explores colonial period ethnogenesis emphasizing the emergence of new native social identities and relations after 1500 The book also highlights tensions between the detailed study of local cases and the search for global processes a recurrent theme in postcolonial research If archaeologists are to bridge the artificial divide separating history from prehistory they must overturn a whole range of colonial ideas about American Indians and their history This book shows that empirical archaeological research can help replace long standing models of indigenous culture change rooted in colonialist narratives with more nuanced multilineal models of change and play a major role in decolonizing knowledge about native peoples

Cultural Evolution Gary M. Feinman,Linda R. Manzanilla,2000-06-30 Drawing on Kent Flannery s forty years of cross cultural research in the area the contributors to this collection reflect the current diversity of contemporary approaches to the study of cultural evolutionary processes Collectively the volume expresses the richness of the issues being investigated by comparative theorists interested in long term change as well as the wide variety of data approaches and ideas that researchers are employing to examine these questions

Sourcebook of Paleolithic Transitions Marta Camps,Parth Chauhan,2009-09-01 As the study of Palaeolithic technologies moves towards a more analytical approach it is necessary to determine a consistent procedural framework The contributions to this timely and comprehensive volume do just that This volume incorporates a broad chronological and geographical range of Palaeolithic material from the Lower to Upper Palaeolithic The focus of this volume is to provide an analysis of Palaeolithic technologies from a quantitative empirical perspective As new techniques particularly quantitative methods for analyzing Palaeolithic technologies gain popularity this work provides case studies particularly showcasing these new techniques Employing diverse case studies and utilizing multivariate approaches morphometrics model based approaches phylogenetics cultural transmission studies and experimentation this volume provides insights from international contributors at the forefront of recent methodological advances
