## **New Research On Postpartum Depression:**

**New Research on Postpartum Depression** Adrian I. Rosenfield, 2007 Postpartum depression affects 10-15 percent of women any time from a month to a year after childbirth. Women with postpartum depression may feel restless, anxious, sad, or depressed. They may have feelings of guilt, decreased energy and motivation, and a sense of worthlessness. They may also have sleep difficulties and undergo unexplained weight loss or gain. Some mothers may worry about hurting themselves or their baby. In extremely rare cases, less than 1 percent of new mothers, women may develop something called postpartum psychosis. It usually occurs within the first few weeks after delivery. Symptoms may include refusing to eat, frantic energy, sleep disturbance, paranoia, and irrational thoughts. Women with postpartum psychosis usually need to be hospitalized.

Critical Thinking Activities at the end of each theorist chapter help you to process the theory presented and apply it to personal and hypothetical practice situations. Beginning chapters provide a strong foundation on the history and philosophy of science, logical reasoning, and the theory development process. Diagrams for theories help you visualize and better understand inherently abstract concepts. Pictures of theorists, as well as a listing of contact information for each individual, enables you to contact the source of information directly. Theorist chapters have been reviewed and edited by the theorist, validating the accounts set forth in the text for currency and accuracy. An extensive bibliography at the conclusion of each theorist chapter outlines numerous primary and secondary sources of information, ideal for both undergraduate and graduate research projects. NEW Quotes from the theorist make each complex theory more memorable. NEW Chapter on Afaf Meleis profiles a theorist who has shaped theoretical development in nursing and explores her transition theory. NEW Need to Know Information is highlighted to streamline long, complex passages and help you review key concepts.
