Nice Book Hubris Tragedy War Twentieth Century:

The Routledge Economic History of War Jari Eloranta, Jeremy Land, Elina Kuorelahti, Price Fishback, 2025-05-30 The Routledge Economic History of War presents a broad overview of the latest research on the long lasting changes and effects that collapsing security in international relations has had on the world's economies and societies Arranged around five key themes Fiscal and Military Capacity Military Spending Economic Effects of War War and Institutions and Business and War this handbook features contributions from an international range of scholars on varying methodological approaches theories and geographical arenas Encompassing a range of disciplinary approaches the main focus is on how economic history can provide insights into the societal impact of war addressing issues such as how war preparations and arms races affect government spending the direct economic effects of war and how societies adjust to the economic realities of rearmament and recovery This volume also explores whether wars change or alter institutions such as governments religion and democracy It also looks at what lessons we can learn from the past about military spending state capacity and the effects of war on both individual societies and global cooperation Ultimately this book provides a broad overview of the methodological geographical and multidisciplinary range of the economic history of war and demonstrates how war economics institutions and society are inextricably linked throughout history

Fortune's Turn David Pollard, 2024-07-04 The year 1942 began with disaster for the Allies but paved the way to victory World War II was a conflict over land and resources but also democracy and freedom The 1920s and 30s had seen liberal democracy losing the fight against challengers from the Left and Right By the end of the 1930s Hitler had destroyed the few functioning democracies in Europe and at the end of 1941 the future looked bleak even as the US entered the war after the attack on Pearl Harbour But the year that began in such fear ended with the Allies winning victories everywhere on land on the sea and in the air Discover what caused this drastic change of fortunes in the war and its long term consequences

This Land Is Your Land RD Moore, 2023-06-10 This land was made for you and me This is the emphatic refrain of Woody Guthrie's iconic anthem a profound rendering of one of our nation's most sacred truths Yet for far too many and for far too long this hasn't felt like a land made for them or one that even wants them And that's just not sustainable This Land Is Your Land TLIYL is a telling of our social story through the lens of the American people how we became who we are and who we're in the process of becoming It's about the systems we built both generative and degenerative from democracy and equality to slavery and social supremacy and how everything about us is changing Right this minute we're in the midst of the greatest sociological shift in US history one where in every way we currently measure we'll soon be a post majority nation By 2045 incumbent majorities from racial whiteness to Christianization to heteronormativity will all be downgraded to minority status This Time of Turmoil one where everything's shifting is why we're experiencing so much unrest and instability from rising poverty to increasingly caustic elections to diminishing human regard But it's also why getting this right has never been more important or mattered more A

combination of personal vignettes and cultural analysis TLIYL covers 300 years of shared history one that s been shaped by nearly 550 million lives lived and explores how together we move forward It s a story with three parts Part One How the American Race Construct ARC and other toxic frameworks impaired us Part Two How the Degenerative Cycle DGC and other predatory processes imperiled us Part Two and Part Three How through personal practices like the Four Actions each of us can help us become a society that embraces all of us Today we find ourselves in a bit of a tough place But instead of an ending this shift we re undergoing might actually be a beginning a chance to both make our founding dreams real and gift the future a future And in doing so we transform ourselves into a new land one as Woody sang made for you and me War Stories J. J. Zerr,2016-11-09 Joe Bob is a pilot who has been taught everything about flying from his war veteran father Two weeks before Joe Bob is set to leave for college and the United States Navy ROTC program his pop purposely pilots his plane into power lines and kills himself Years later Joe Bob reflects on the what and who of his identity as he returns to his own memories of war In twelve short stories J J Zerr explores both past and present conflicts that occur between genders and generations and societal and individual consciences from Missouri to Los Angeles fighter bomber cockpits to playgrounds the Civil War to Vietnam and a backyard to present day Emerson Sharp has a decision to make His woman Sally provides salvation redemption forgiveness and a future But there is only one problem it is her future Third grader Heiny Bauer is frantically searching for something to say when an angry nun asks him who he loves during class one day But when he answers baseball Heiny discovers the true meaning of punishmentand the difference between a good and bad nun War Stories shares a diverse collection of short tales that highlight eclectic characters who bravely face lifes greatest challenges with perseverance courage and humor The Totalitarian Experiment in Twentieth-century Europe David D. Roberts,2006 By assessing totalitarianism in a more deeply historical way this study suggests how we might learn further lessons from this troubling phase of modern political development Jacket **The Totalitarian Experiment in Twentieth Century Europe** David Roberts,2006-04-27 By developing a long term supranational perspective this ambitious multi faceted work provides a new understanding of totalitarianism the troubling common element linking Soviet communism Italian fascism and German Nazism The book s original analysis of antecedent ideas on the subject sheds light on the common origins and practices of the regimes Through this fresh appreciation of their initial frame of mind Roberts demonstrates how the three political experiments yielded unprecedented collective mobilization but also a characteristic combination of radicalization myth making and failure Providing deep historical analysis the book proves that totalitarianism best characterizes the common features in the originating aspirations the mode of action and even the outcomes of Soviet communism Italian fascism and German Nazism By enhancing our knowledge of what totalitarianism was and where it came from Roberts affords important lessons about the ongoing challenges possibilities and dangers of the modern political experiment **The Art of Peace** Juliana Geran Pilon,2017-07-05 Sun Tzu author of The Art of War believed that the acme of leadership consists in figuring out

how to subdue the enemy with the least amount of fighting a fact that America's Founders also understood and practiced with astonishing success For it to work however a people must possess both the ability and the willingness to use all available instruments of power in peace as much as in war US foreign policy has increasingly neglected the instruments of civilian power and become overly dependent on lethal solutions to conflict The steep rise in unconventional conflict has increased the need for diplomatic and other non hard power tools of statecraft The United States can no longer afford to sit on the proverbial three legged national security stool military diplomacy development where one leg is a lot longer than either of the other two almost forgetting altogether the fourth leg information especially strategic communication and public diplomacy The United States isn't so much becoming militarized as de civilianized According to Sun Tzu self knowledge is as important as knowledge of one's enemy if you know neither yourself nor the enemy you will succumb in every battle Alarmingly the United States is deficient on both counts And though we can stand to lose a few battles the stakes of losing the war itself in this age of nuclear proliferation are too high to contemplate The Uncrowned King of Cambodia David Chandler, Anthony Barnett, 2023-10-01 Lt Col Edward D Moke Murray an outstanding officer in the Indian Army and became a Gurkha commander in Malaya In 1939 he fired the crucial shot that dispersed a strike that threatened the Raj He became an outstanding leader in the fight against the Japanese in Assam and Burma He suppressed the Viet Minh in Saigon in 1945 in what can be seen as the start of the Vietnam War He was Allied Land Commander in Cambodia and supervised the surrender of the Japanese there In 1953 he was cheered by millions along the eight kilometre route of Elizabeth II's coronation parade as he marched at the head of the hugely popular Gurkha contingent But when he died not a single obituary of him appeared apart from a short notice in the Gurkha gazette From Anthony Barnett's Introduction What sort of man was Moke Murray this forgotten Achilles of the dying British Empire He served his King in wars from Waziristan to Burma and helped to shape the future of Indochina But as this touching and fascinating biography recounts he ended his life in lonely poverty as the Empire itself dissolved and fell out of memory Neal Ascherson novelist reporter and historian

Indo-Pacific Empire Rory Medcalf, 2020-03-19 This book explains why the idea of the Indo Pacific is so strategically important and concludes with a strategy designed to help the West engage with Chinese power in the region in such a way as to avoid conflict

Hubristic Leadership Eugene Sadler-Smith, 2018-10-27 Investigating the societal economic financial and reputational costs of hubristic leadership with insights into the characteristics and causes of this phenomenon and recommended safeguards to avoid hubris from happening in the first place As research into hubristic leadership becomes increasingly popular following recent political developments the book adopts an inter disciplinary approach to investigating this form of leadership Outlining what causes hubristic leadership in the first place the author looks at how it's potentially destructive consequences can be anticipated and avoided through an informed stance of moderation critical analysis and reflexivity Examples are drawn from business and politics including the Lehmann Brothers BP and Deepwater Horizon Blair

and Bush in the Iraq Invasion NASA and Donald Trump Ideal reading for undergraduate and postgraduate students in business and management leadership and organizational behaviour Check out the Hubris Hub for further information on hubristic leadership including a regularly updated blog written by author Eugene Sadler Smith **Ancient Greeks on the Human Condition** Matthew Sims,2021-08-03 This book examines the writings of four ancient Greeks Homer Thucydides Euripides and Aristophanes Each of these four individuals represents a different approach toward the human condition ranging from the heroic and tragic to the comic and absurd This book focuses on how the human condition can best be understood within the framework of these four perspectives by examining the major contributions of these Greek writers whether in the form of epic Homer s Iliad history Thucydides History of the Peloponnesian War or drama the plays of Euripides and Aristophanes These various perceptions of Greek thought illuminate our understanding of what it means to be fully human By focusing on the concepts of the heroic tragic comic and absurd we can see how these ancient Greek authors still provide key insights for us today as they clarify those timeless features that define the human condition *Stalin's War* Sean McMeekin,2021-04-20 A prize winning historian reveals how Stalin not Hitler was the animating force of World War II in this major new history World War II endures in the popular imagination as a heroic struggle between good and evil with villainous Hitler driving its events But Hitler was not in power when the conflict erupted in Asia and he was certainly dead before it ended His armies did not fight in multiple theaters his empire did not span the Eurasian continent and he did not inherit any of the spoils of war That central role belonged to Joseph Stalin The Second World War was not Hitler s war it was Stalin s war Drawing on ambitious new research in Soviet European and US archives Stalin s War revolutionizes our understanding of this global conflict by moving its epicenter to the east Hitler s genocidal ambition may have helped unleash Armageddon but as McMeekin shows the war which emerged in Europe in September 1939 was the one Stalin wanted not Hitler So too did the Pacific war of 1941 1945 fulfill Stalin s goal of unleashing a devastating war of attrition between Japan and the Anglo Saxon capitalist powers he viewed as his ultimate adversary McMeekin also reveals the extent to which Soviet Communism was rescued by the US and Britain s self defeating strategic moves beginning with Lend Lease aid as American and British supply boards agreed almost blindly to every Soviet demand Stalin s war machine McMeekin shows was substantially reliant on American material from warplanes tanks trucks jeeps motorcycles fuel ammunition and explosives to industrial inputs and technology transfer to the foodstuffs which fed the Red Army This unreciprocated American generosity gave Stalin s armies the mobile striking power to conquer most of Eurasia from Berlin to Beijing for Communism A groundbreaking reassessment of the Second World War Stalin s War is essential reading for anyone looking to understand the current world order *Why War?* Richard Overly,2024-06-04 An Economist Best Book of 2024 Why has war been such a consistent presence throughout the human past A leading historian explains drawing on rich examples and keen insight Richard Overly is not the first scholar to take up the title question In 1931 at the request of the League of Nations Albert

Einstein asked Sigmund Freud to collaborate on a short work examining whether there was a way of delivering mankind from the menace of war. Published the next year as a pamphlet entitled *Why War*, it conveyed Freud's conclusion that the death drive made any deliverance impossible: the psychological impulse to destruction was universal in the animal kingdom. The global wars of the later 1930s and 1940s seemed ample evidence of the dismal conclusion. A preeminent historian of those wars, Overy brings vast knowledge to the title question and years of experience unraveling the knotted motivations of war. His approach is to separate the major drivers and motivations and consider the ways each has contributed to organized conflict. They range from the impulses embedded in human biology and psychology to the incentives to conflict developed through cultural evolution to competition for resources, conflicts stirred by the passions of belief, the effects of ecological stresses, the drive for power in leaders and nations, and the search for security. The discussions show remarkable range, delving deep into the Neolithic past through the twentieth-century world wars and up to the current conflict in Ukraine. The examples are absorbing, from the Roman Empire's voracious appetite for resources to the impulse to power evident in Alexander the Great, Napoleon, and Hitler. The conclusion is not hopeful, but Overy's book is a gift to readers: a compact, judicious, engrossing examination of a fundamental question.

Gambling on War Roger L. Ransom, 2018-06-28. The First World War left a legacy of chaos that is still with us a century later. Why did European leaders resort to war, and why did they not end it sooner? Roger L. Ransom sheds new light on this enduring puzzle by employing insights from prospect theory and notions of risk and uncertainty. He reveals how the interplay of confidence, fear, and a propensity to gamble encouraged aggressive behavior by leaders who pursued risky military strategies in hopes of winning the war. The result was a series of military disasters and a war of attrition which gradually exhausted the belligerents without producing any hope of ending the war. Ultimately, he shows that the outcome of the war rested as much on the ability of the Allied powers to muster their superior economic resources to continue the fight as it did on success on the battlefield.

Superpowers, Rogue States and Terrorism Paul L. Moorcraft, 2017-11-30. Numerous books have attempted to assess the generational threat from Jihadist-inspired terrorism, but few offer any positive advice on solutions. Islamist terrorism is today a fact of life, and its potency is vividly illustrated by outrages in otherwise secure Western democracies, not to mention overt ISIL aggression in the Middle East and many African States. Without a far better understanding of the Islamic religion, its beliefs, values, hierarchy, or lack of, and different sects countering the existential threat will be greatly hindered, not to say nearly impossible. In this thoughtful book, the author, who combines scholarship with gritty on-the-ground experience, examines numerous options to counter the insidious threat that faces not only Western civilization but the wider world. These range from the extremes, such as deportation and internment, through the multifaceted combined actions against hate preachers, intensified intelligence work, and border security, to comprehensive and inclusive joint action programs. This is an important and timely book on what is today the greatest security threat, written by an acknowledged expert.

Anzac to Understanding Mary Anneeta Mann, 2010-10-12. Anzac the

Play A Saga of War and Peace in the 20th Century was written in Berkeley in 1969 published in 1971 and produced at the Globe Playhouse Los Angeles in 1984 with readings at the Lankershim Arts Center No Ho North Hollywood in 1996 Accompanying the play is historical documentation of the lives of the families from whom the characters were drawn as well as war letters of Willie Augustus Mann 1914 1919 his own story and relevant pages from the Anzac Book written by the Anzacs themselves published in 1916 A Quest for Understanding is rooted in this Great War the First World War the war to end all wars In Australia half the eligible young men enlisted Their casualties were horrific but they brought Australia on to the world stage They were called Anzacs members of the Australian New Zealand Army Corps a name coined on the Gallipoli Peninsula Turkey in 1915 Theirs was a shining light of naked courage an epiphany of what it meant to be human beings who had earned their own freedom and freedom for the world To be a child of Anzac was a privilege and a great joy The quest for the understanding of why war by one of these children began with the Second World War in 1939 It would go back to the Greeks to the origins of English Literature through halls of learning across two continents to the great religions and recent scientific advances and into the heart of a woman It ended with a Practical Philosophy of Life based upon the understandings reverence for life gender differences the female as the guardian of ethics and the inorganic nature of money It offers the individual conscience as humanity's inherent connection to the Life Force of the Universe or God **Hitler's Fatal**

Miscalculation Klaus Schmider, 2021-01-28 Challenges long held assumptions regarding the German declaration of war on the United States in December 1941 China's Foreign Policy and Practice Wenguang Shao, 2022-12-21 This book is one of the first wide ranging surveys of China's foreign policy and practice from the 16th century to the present day from a Chinese perspective A modern history of China's interaction with major powers it throws new light on the events and issues of major interest clarifies possible points of ambiguity and misunderstanding and brings the reader up to date about some of the current issues of contention in China's international relations China Foreign Policy and Practice Presents a unique account of Chinese statecraft and foreign policy from the vantage point of an insider who has spent years participating in the decisionmaking process at the national level Paints a larger picture of China's interaction with the world connecting wars negotiations treaties and boundary settlements with its neighbours Focuses on policy evolution in specific areas such as trade regional diplomacy dispute settlement crisis management and engagement with major powers Draws on Chinese records and publications that may not be readily accessible as well as the latest memoirs and declassified documents Is a nuanced comprehensive and accessible guide for students of international politics as well as general readers interested in China A unique history of China in world affairs this book will be essential reading for students of politics and international relations history foreign policy diplomacy China studies and Asian studies *Science and Spirituality* Mary A. Mann, 2004 How can science and the spirituality of the great religions help us all in our quest for global harmony How can artists philosophers and mystics reveal to us who we are How can studying our civilization's timeline show us where we came from

How can meditation prayer and the desire to recognize the divinity in each and every one of us inspire us to create a freer safer and better world

American Trinity Larry Len Peterson, 2017-09-11 American Trinity is for everyone who loves the American West and wants to learn more about the good the bad and the ugly It is a sprawling story with a scholarly approach in method but accessible in manner In this innovative examination Dr Larry Len Peterson explores the origins development and consequences of hatred and racism from the time modern humans left Africa 100 000 years ago to the forced placement of Indian children on off reservation schools far from home in the late 1800s Along the way dozens of notable individuals and cultures are profiled Many historical events turned on the lives of legendary Americans like the Father of the West Thomas Jefferson and the Son of the West George Armstrong Custer two strange companions who shared an unshakable sense of their own skills as their interpretation of truths motivated them in the winning of the West Dr Peterson reveals how anti Indian sentiments were always only obliquely about them They were victims but not the cause The Indian was a symbol not a real person The politics of hate and racism directed toward them was also experienced in prior centuries by Jews enslaved Africans and other Christians Hatred and racism when taken into the public domain are singularly difficult to justify which is why Europeans and Americans have always sought vindication from the highest sources of authority in their cultures In the Middle Ages it was religion supplemented later by the philosophy of the Enlightenment In nineteenth century Europe and America religion and philosophy were joined by science and medicine to support Manifest Destiny scientific racism and social Darwinism all of which had profound consequences on Native Americans and the Spirit of the West Presenting research in anthropology archaeology biology history law medicine religion philosophy and psychology Dr Peterson provides the latest observations that delineate why the Native American s life was destroyed American Trinity is a stunning portrait a view at once unique panoramic and intimate It is a fascinating book that will make you think about the differences between belief and knowledge about the self skepticism of science and medicine and about what aspects of the world we take on faith
