Nice Book Pagan Moon Cathedral Freda Warrington:

The Triumph of the Moon Ronald Hutton, 2019 This is the second and extensively revised edition of the first full scale scholarly study of what is arguably the only fully formed religion that England has ever given the world that of modern pagan witchcraft which has now spread from English shores across four continents Ronald Hutton examines the nature of that religion and its development and offers a history of attitudes to witchcraft paganism and magic in British society since 1800 Its pages reveal village cunning folk Victorian ritual magicians classicists and archaeologists leaders of woodcraft and scouting movements Freemasons and members of rural secret societies We also find some of the leading figures of English literature from the Romantic poets to W B Yeats D H Lawrence and Robert Graves as well as the main personalities who have represented pagan witchcraft to the public world since 1950 Thriller writers like Dennis Wheatley and films and television programmes get similar coverage as does tabloid journalism The material is by its very nature often sensational and care is taken throughout to distinguish fact from fantasy in a manner not hitherto applied to most of the stories involved

Consistently densely researched **Triumph of the Moon** presents an authoritative insight into an aspect of modern cultural history which has attracted sensational publicity but has hitherto been little understood This edition incorporates all of the new research carried out into the subject by the author and by others who have often been inspired by this book during the twenty years since it was first published **Grail of the Summer Stars** Freda Warrington, 2013-04-23 A painting depicting haunting scenes of a ruined palace and a scarlet haired goddess in front of a fiery city arrives unheralded in an art gallery with a cryptic note saying The world needs to see this The painting begins to change the lives of the woman who is the gallery's curator and that of an ancient man of the fey Aetherial folk who has mysteriously risen from the depths of the ocean Neither human nor fairy knows how they are connected but when the painting is stolen both are compelled to discover the meaning behind the painting and the key it holds to their future In a haunting powerful tale of two worlds and those caught between Freda Warrington weaves an exciting story of suspense adventure and danger that fulfills the promise of the Aetherial Tales as only she can

Midsummer Night Freda Warrington, 2012-06-26 What started as a joke unleashes supernatural forces that wreaks havoc on a family whose magic will need the power of the human heart to undo the terrible consequences of one fateful night's mischief *The Mammoth Book of Best New Horror* Stephen Jones, Ramsey Campbell, 1997 *Pagan Moon* Freda Warrington, 1997 *The Encyclopedia of Fantasy* John Clute, John Grant, 1999-03-15 Like its companion volume *The Encyclopedia of Science Fiction* this massive reference of 4 000 entries covers all aspects of fantasy from literature to art

The A to Z of Fantasy Literature Brian Stableford, 2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross-referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites
