Gresham, 2015-12-15 This authoritative volume provides state of the art practices for supporting the approximately 20% of today's K 12 students who have emotional and behavioral disorders EBD that hinder school success. Leading experts present evidence based approaches to screening progress monitoring intervention and instruction within a multi tiered framework. Coverage encompasses everything from early intervention and prevention to applications for high risk adolescents. The book combines theory and research with practical information on how to select interventions and implement them with integrity.      *Reaching Algebra Readiness (RAR)* Tony G. Williams, 2011-10-30 Research has shown that algebra is the doorway and gateway for future success of students in many aspects including high school graduation attending and success in college and professional earning power. And the most important key to students success in algebra is their readiness. This book is not only a program that addresses algebra readiness it is also a fundamental reform effort based on the National Mathematics Advisory Panel's NMAP's Final Report spring 2008. The book approaches mathematic skills deficiencies on an individual basis much like an IEP addresses the individual needs of a student with disabilities. The Reaching Algebra Readiness RAR process consists of four components: 1 Diagnostic assessing student's mastery of the skills needed to take algebra 2 Prescriptive developing an individualized plan to address specific math deficiencies 3 Intervention utilizing tools and resources parental involvement effective teaching strategies etc to improve students mathematics skills and 4 Drills and Effective Teachings Strategies. Mathematics is a discipline and simply there is no way of avoiding practice and drilling in reaching algebra readiness which can be enhanced significantly by implementing proven effective teaching strategies. The Reaching Algebra Readiness RAR process and the related materials presented in this book will be revolutionary in helping all students acquire the math skills needed for success in algebra and beyond.
