Martin Buckley,2023-02-14 Launched in 1967 the NSU Ro80 had modern aerodynamic styling a technologically advanced Wankel rotary engine and was voted Car of the Year in 1968 However after the initial positive reception the car developed a reputation for unreliability with problems arising as early as 15 000 miles and many vehicles required a rebuilt engine before 30 000 miles Despite the company resolving these reliability issues in both existing and new vehicles and offering a generous warranty the damage to the car s reputation was done The NSU Ro80 is the most celebrated motoring lost cause of the second half of the twentieth century outranking the likes of the Edsel and the DeLorean because unlike those statements of misplaced optimism and ego it was a good car Not just good the NSU Ro80 is one of the great saloons Launched in September 1967 the Ro80 was an all new four door five seater from a West German company that post war had never made anything other than economy runabouts motorcycles and mopeds That alone should have been enough of a risk but this was also the world s first purpose built Wankel engined family saloon This compact refined and elegantly simple power unit was the first really new concept in the realm of internal combustion engines to achieve mass production for ninety years A car like the Ro80 could only really have come from Germany where there was a passion for research and a pride in engineering not found elsewhere in Europe With front wheel drive superb power steering and four wheel disc brakes the car had top handling and driver appeal Quite simply it was a masterpiece considered by many to be the finest vehicle of its type in the world But with one fatal flaw its engine With over 300 archive photographs drawings and diagrams this book tells the story of the NSU **BMW E34 - The Complete Story** James Taylor,2024-10-29 The BMW E34 5 Series is considered one of the most

impressive car designs to come out of the 1980s The BMW E34 5 Series became the benchmark executive saloon during its eight year production life and today enthusiasts still look back on it as one of the high points of the BMW story The E34 range made its debut in 1988 and built on BMW's growing success in the medium sized saloon class From the start its makers aimed to seize leadership of the market sector from their arch rivals at Mercedes Benz and to that end they developed a sleek sporty shape and made the car available with a range of 6 cylinder engines These included highly regarded diesel types and later there would be an entry level 4 cylinder as well BMW kept the E34 range fresh to the very end through three major eras of production The first lasted until 1990 and established the range firmly The second period from 1990 to 1992 brought Touring estate models 4 wheel drive variants and advanced new 4 valve engines Between 1992 and 1996 the third phase brought annual updates including VANOS variable valve timing and new V8 engines for the top of the range models In the BMW tradition these cars combined strong performance with excellent handling and these qualities were exploited to the hilt by the M5 variants produced by the legendary M Division Aftermarket tuning specialists made their own contributions too adding to the aura of glamour around the E34 range There were lesser known elements of the story too when BMW used the E34 range for some fascinating experiments with hybrid power systems a convertible and a dual fuel system

Rolls-Royce Silver Cloud - The Complete Story James Taylor, 2021-11-22 The Rolls Royce company acquired Bentley Motors in 1931 and although models continued to be produced with the Bentley name they increasingly used many Rolls Royce components By the time the Silver Cloud and Bentley S were released in 1955 they were really differently badged versions of the same design Yet the sporting tradition of the Bentley marque was upheld with the exotic Continental models that were derived from them The Silver Cloud family represents a pinnacle for the Rolls Royce company The cars all had and still have a very special presence and the standard saloons have an unsurpassed elegance and rightness of line The special bodied cars meanwhile are reminders of an age when the skill of the best coachbuilders was something deserving of universal admiration With around 190 photographs this book features The story of the design and development of the Rolls Royce Silver Cloud and Bentley S Type A look at the production development of these cars between 1955 and 1965 An examination of the Bentley Continental models that were derived from Silver Cloud and S Type design The history of the Phantom V and Phantom VI limousine chassis introduced in 1959 and destined to last until 1990 Full technical specifications including paint and interior trim choices Production figures and chassis codes and finally a chapter on buying and owning one of these wonderful classic cars

**The MG Story** Joseph H. Wherry,1967 The exciting history of the exotic MG from 1923 to the 1970s *The Story of the M.G. Sports Car* F. Wilson McComb,1972 **Business Archives** ,1996 Living Faith in God 2 / Meeting God in Jesus , Triumph Cars - The Complete Story Graham Robson,Richard M. Langworth,2018 Relating the story of Triumph cars is complex enough but to include all the earlier events which persuaded Siegfried Bettman to begin car manufacture in 1923 is even more so The two authors however both of them experts in all things Triumph the cars and the political events surrounding them have assembled and presented an enthralling story of the way the car making side of the business came to prosper was then afflicted by financial problems and then rescued from oblivion by Standard in 1944 Thereafter Triumph once again became a prominent marque eventually dominated Standard and from the 1960s onwards became an important cast member in the melodramatic events which involved Leyland BMC and eventually British Leyland This however is not merely a turbulent trawl through the historical record for both authors were also successful in locating the important characters whose efforts made it possible for Triumph to excite the world Along the way the career of cars as famous as the Glorias and Dolomites of the 1930s the Heralds Spitfires and TRs of the post war years and the headline grabbing exploits in racing and rallying build up a story which no fictional writer could have created
