Michigan Public Schools Calendar 2015:

IJER Vol 25-N4 International Journal of Educational Reform, 2016-10-27 The mission of the International Journal of Educational Reform IJER is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities As the only peer reviewed scholarly publication that combines authors voices without regard for the political affiliations perspectives or research methodologies IJER provides readers with a balanced view of all sides of the political and educational mainstream To this end IJER includes but is not limited to inquiry based and opinion pieces on developments in such areas as policy administration curriculum instruction law and research IJER should thus be of interest to professional educators with decision making roles and policymakers at all levels turn since it provides a broad based conversation between and among policymakers practitioners and academicians about reform goals objectives and methods for success throughout the world Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes Finally it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U S and the world *Helping Parents Understand Schools* Lyndon G. Furst, 2016-11-01 There is a great deal of misunderstanding about how schools in America function and what goes on in the typical classroom Parents even relatively young parents perceive that public schools are just like when they attended This faulty perception is held by a large portion of the general public In addition a number of aspects of schooling have come under close scrutiny by critics of the public schools resulting in a heated debate throughout the nation It is the purpose of this book to provide parents and others who are interested in the operation of public schools an alternative way of looking at publically supported education and the issues surrounding better educational practice The framework for this volume is the published articles of the author over the past 20 years in his weekly newspaper column A Different Perspective While no attempt is made to be comprehensive the 13 chapters cover a broad range of issues facing the schools The reader is treated to a fascinating look at the viewpoint of an experienced observer of these public institutions The author has changed his perspective over the two decades on only a few issues The book was written with the average reader in mind It does not contain a large amount of educational jargon although the issues are approached with enough depth to be useful to the professional educator Throughout the entire volume the author maintains strong support for public schools *Dismantled* Leanne Kang, 2020 All across America our largest city school districts have been rapidly and dramatically changing From Chicago to Detroit in the Midwest to Newark and New York in the East charter schools continue to crop up everywhere while traditional public schools are shuttered In what remains of public schools school boards are increasingly bypassed or suspended by state appointed managers who are often non local actors and public services are increasingly privatized This

book tells the story of how as early as the 1980s reform efforts both state and federal have essentially transformed Detroit's school system by introducing new education players like Betsy DeVos who have gradually eclipsed local actors for the control of schools I argue that Detroit's embittered school wars are fought between two fronts a dwindling regime of native school leaders and local constituents i.e. teachers parents students community activists etc against the ascension of new and outside managers It is a story that captures the greatest school organizational change since the Progressive Era **Directory of Public Elementary and Secondary Education Agencies** , *Urban Emergency (Mis)Management and the Crisis of Neoliberalism* ,2021-08-24 This volume places the Flint Michigan water contamination disaster in the context of a broader crisis of neoliberal governance in the United States Authors from a range of disciplines including sociology criminal justice anthropology history communications and jurisprudence examine the failures in Flint but with an emphasis upon comparison calling attention to similar trajectories for cities like Detroit and Pontiac in Michigan and Stockton in California While the studies collected here emphasize policy failures class conflict and racial oppression they also attend to the resistance undertaken by Flint residents Michiganders and U.S. activists as they fought for environmental and social justice Contributors include Terressa A. Benz Jon Carroll Graham Cassano Daniel J. Clark Katrinell M. Davis Michael Doan David Fasenfest A. E. Garrison Peter J. Hammer Ami Harbin Shea Howell Jacob Lederman Raoul S. Lievanos Benjamin J. Detroit After Bankruptcy Joe T. Darden,2023-07-31 Detroit is the first city of its size to become bankrupt and policy makers have argued that since then it has entered a new beginning This book analyses whether Detroit's patterns of inequality on race and class lines still exist and whether the city is truly reversing its decline Race, Crime, and Criminal Justice Anita Kalunta-Crumpton,2025-06-12 One of the most controversial topics on the subject of race crime and criminal justice is the disproportionate representation of Blacks in the criminal justice system as offenders and prison inmates Rather than portraying Blacks as perpetual victims of racism in which societal institutions are solely responsible for reform this book seeks to put the power of change in the hands of Blacks It focuses on the preventative role that Blacks might play and considers solution oriented ways to stop this vicious cycle Rape and Sexual Assault Alison E. Hatch,2023-01-18 This authoritative one stop resource helps readers understand the problem of sexual assault in the United States including societal factors notorious cases laws and practices victim advocacy and reform efforts and keys to recovery It discusses who is being victimized who is perpetrating the offenses and what can be done and is being done to reduce rape sexual assault and sexual harassment in homes and communities across America The volume also explores the role that investigative shortcomings and rape culture have played in facilitating sexual assault and abuse and how shifts in attitude and policy could combat this devastating crime *Now Elected, Now What?* Chuck Namit,2017-11-01 The information in this book will provide board members with simple tools to become an effective member of the board even in the first term Board members are introduced to Values Governance system that incorporates community process techniques curricular and instructional

innovations This new model provides greater efficiency effectiveness and coherence in the governance of the board With the completion of this survival guide the new board member is ready to join the board with some skills in hand **Moody's**

Reform Frank Adamson,Bjorn Astrand,Linda Darling-Hammond,2016-03-02 With contributions from Linda Darling Hammond Michael Fullan Pasi Sahlberg and Martin Carnoy Global Education Reform is an eye opening analysis of national educational reforms and the types of high achieving systems needed to serve all students equitably The collection documents the ideologically and educationally distinctive approaches countries around the world have taken to structuring their education systems Focusing on three pairs of case studies written by internationally acclaimed experts the book provides a powerful analysis of the different ends of an ideological spectrum from strong state investments in public education to market based approaches An introductory chapter offers an overview of the theories guiding both neoliberal reforms such as those implemented in Chile Sweden and the United States with efforts to build strong and equitable public education systems as exemplified by Cuba Finland and Canada The pairs of case studies that follow examine the historical evolution of education within an individual country and compare and contrast national educational outcomes A concluding chapter dissects the educational outcomes of the differing economic and governance approaches as well as the policy implications

Handbook of the Sociology of Education in the 21st Century Barbara Schneider,2018-10-10 This handbook unifies access and opportunity two key concepts of sociology of education throughout its 25 chapters It explores today s populations rarely noticed such as undocumented students first generation college students and LGBTQs and emphasizing the intersectionality of gender race ethnicity and social class Sociologists often center their work on the sources and consequences of inequality This handbook while reviewing many of these explanations takes a different approach concentrating instead on what needs to be accomplished to reduce inequality A special section is devoted to new methodological work for studying social systems including network analyses and school and teacher effects Additionally the book explores the changing landscape of higher education institutions their respective populations and how labor market opportunities are enhanced or impeded by differing postsecondary education pathways Written by leading sociologists and rising stars in the field each of the chapters is embedded in theory but contemporary and futuristic in its implications This Handbook serves as a blueprint for identifying new work for sociologists of education and other scholars and policymakers trying to understand many of the problems of inequality in education and what is needed to address them **Alterity and the Flint Water Crisis** Mitchell Atkinson III,2023-09-13 This text develops a novel methodology for social investigation into the Flint Michigan USA water crisis by using classical Husserlian phenomenology as its point of departure To develop a

proper method in a case like this the author uses as primary data the experiences of the affected community The text investigates philosophically how a water crisis happens as well as the structures of power responsible This book grounds contemporary theories of power in a phenomenology of social experience Key to that grounding is the careful elaboration of subject positions in power structures as partially constitutive of lifeworlds lebensumwelten for consciousness The applied phenomenological tools unravel the central enigma of how a community s concerns and the dictates of power can become so disastrously estranged This text appeals to researchers and students working not just in phenomenology and philosophy but also to those working in the field of environmental humanities and on social justice issues **A Federal Right to**

Education Kimberly Jenkins Robinson,2023-06-13 The United States Supreme Court closed the courthouse door to federal litigation to narrow educational funding and opportunity gaps in schools when it ruled in San Antonio Independent School District v Rodriguez in 1973 that the Constitution does not guarantee a right to education Rodriguez pushed reformers back to the state courts where they have had some success in securing reforms to school funding systems through education and equal protection clauses in state constitutions but far less success in changing the basic structure of school funding in ways that would ensure access to equitable and adequate funding for schools **Beyond Marriage** Susan Gluck

Mezey,2017-03-23 In this book Susan Gluck Mezey examines LGBT policymaking over the last several decades highlighting advances in LGBT rights as well as formidable challenges that still confront the LGBT community With an emphasis on courts she traces developments in the struggles for LGBT rights in the United States and abroad The chapters focus on employment discrimination transgender rights marriage equality and the ongoing battles over discrimination against same sex couples and transgender persons in education employment and public accommodations It also adds a global perspective by appraising issues affecting LGBT rights in other parts of the world discussing claims of discrimination in the Canadian and South African courts as well as in the European Court of Human Rights Mezey provides a succinct and accessible guide to the debates over sexual orientation and gender identity evaluating the roles played by state and federal courts legislatures and chief executives in formulating and implementing LGBT policy Suitable as an up to date resource for anyone interested in LGBT rights Beyond Marriage will also help students in upper level classes focusing on judicial politics public policymaking family law civil rights gender policy and minority group politics understand ways forward for the LGBT community in the political realm **Legal Issues in Special Education** Kevin Brady,Charles Russo,Cynthia Dieterich,Allan

Osborne, Jr,2019-10-28 Legal Issues in Special Education provides teachers and school administrators with a clearly written well organized and understandable guide from the perspective of the practitioner without formal legal training Even though over 50 percent of students with disabilities are now educated in general education classes most teachers are not required to complete coursework in special education law and can unwittingly expose themselves and their schools to liability for violating the rights of students with disabilities This practitioner s guide explicitly addresses the major issues and legal

complexities educators inevitably face when dealing with special education legal and policy issues Using case based learning to synthesize important legal concepts and principles from leading special education legal cases this text guides educators administrators and parents alike toward a thorough understanding of and the ability to navigate many of the current and pressing legal concerns in special education

Shuttered Schools Ebony M. Duncan-Shippy,2019-04-01 Since the late 1990s mass school closures have reshaped urban education across the United States Popular media coverage and research reports link this resurgence of school closures in major cities like Chicago and Philadelphia to charter school expansion municipal budget deficits and racial segregation However this phenomenon is largely overlooked in contemporary education scholarship Shuttered Schools Race Community and School Closures in American Cities Information Age Publishing is an interdisciplinary volume that integrates multiple perspectives to study the complex practice of school closure an issue that transcends education Academics practitioners activists and policymakers will recognize the far reaching implications of these decisions for school communities Shuttered Schools features rigorous new studies of school closures in cities across the United States This research contextualizes contemporary school closures and accounts for their disproportionate impact on African American students With topics ranging from gentrification and redevelopment to student experiences with school loss research presented in this text incorporates various methods e g case studies interviews regression techniques and textual analysis to evaluate the intended and unintended consequences of closure for students families and communities This work demonstrates that shifts in the social economic and political contexts of education inform closure practice in meaningful ways The impacts of shuttering schools are neither colorblind nor class neutral but indeed interact with social contexts in ways that reify existing social inequalities in education
