construction of the revolution and the modern Mexican state through a fresh analysis of the Mexican Revolution the era of import substitution industrialization and neoliberalism Throughout the author makes interdisciplinary links among geography political economy postcolonialism and Latin American studies in order to provide a new framework for analyzing the development of state power in Mexico He also explores key processes in the contestation of the modern state specifically through studies of the role of intellectuals democratization and democratic transition and spaces of resistance As Morton argues all these themes can only be fully understood through the lens of uneven development in Latin America Centrally the book shows how the history of modern state formation and uneven development in Mexico is best understood as a form of passive revolution referring to the ongoing class strategies that have shaped relations between state and civil society As such Morton makes an important interdisciplinary contribution to debates on state formation relevant to Mexican studies postcolonial and development studies historical sociology and international political economy by revitalizing the debate on the uneven and combined character of development in Mexico and throughout Latin America In so doing he convincingly contends that uneven development can once again become a tool for radical political economy analysis in and beyond the region A substantive new epilogue engages the main theoretical debates that have emerged since the book was first published while also exploring the dominant geographies of power and resistance that are shaping state space in Mexico in the twenty first century And now a Spanish edition *Revolución y Estado en México moderno México D F Siglo XXI* 2017 is available as well Click here to see the book trailer
