Mfa Vs Nyc The Two Cultures Of American Fiction:

MFA vs NYC Chad Harbach, 2024-05-01 Collectively thought provoking and provocative Essential insights masterfully assembled on the precarious state of American publishing Kirkus Reviews Writers write but what do they do for money In a widely read essay entitled MFA vs NYC bestselling novelist Chad Harbach *The Art of Fielding* argued that the American literary scene has split into two cultures New York publishing versus university MFA programs This book brings together established writers MFA professors and students and New York editors publicists and agents to talk about these overlapping worlds and the ways writers make or fail to make a living within them Should you seek an advanced degree or will workshops smother your style Do you need to move to New York or will the high cost of living undo you What's worse having a day job or not having health insurance How do agents decide what to represent Will Big Publishing survive How has the rise of MFA programs affected American fiction The expert contributors including George Saunders Elif Batuman and Fredric Jameson consider all these questions and more with humor and rigor **MFA vs NYC** is a must read for aspiring writers and for anyone interested in the present and future of American letters **MFA vs NYC** will appeal to many young writers not merely for its insider perspective but also for its gossip and confessional essays Dwight Garner *The New York Times* The book's contributors neatly articulate the opposing viewpoints in practical and quite creative ways Any reader who aspires to make a living as an author would do well to devour this collection *Library Journal*

Contemporary American Fiction in the European Classroom Laurence W. Mazzeno, Sue Norton, 2022-04-06 This book offers insight into the ways students enrolled in European classrooms in higher education come to understand American experience through its literary fiction which for decades has been a key component of English department offerings and American Studies curricula across the continent and in Great Britain and Ireland The essays provide an understanding of how post World War II American writers some already elevated to canonical status and some not are represented in European university classrooms and why they have been chosen for inclusion in coursework The book will be of interest to scholars and teachers of American literature and American studies and to students in American literature and American studies courses

The Wealthy, the Brilliant, the Few Sophie Spieler, 2021-06-09 How does the US make sense of its elite educational system given that it seems to be at odds with core American values such as equality of opportunity or upward mobility Sophie Spieler explores scholarly and journalistic investigations self representational texts and fictional narratives revolving around the Ivy League and its peers in order to understand elite education and its peculiar position in American cultural discourse Among the book's most surprising and groundbreaking insights is the tenacity and adaptability of meritocratic ideology across all three sub discourses despite its fundamental incompatibility with the American educational system

Some of My Best Friends Tajja Isen, 2022-05-03 A fearless and darkly comic essay collection about race justice and the limits of good intentions from the editor in chief of *Catapult* In this stunning debut collection award winning voice actor and cultural critic Tajja Isen explores the absurdity of

living in a world that has grown fluent in the language of social justice but doesn't always follow through. These nine daring essays explore the sometimes troubling and often awkward nature of that discord. Some of My Best Friends takes on subjects including the cartoon industry's pivot away from color blindcasting, the pursuit of diverse representation in the literary world, the law's refusal to see inequality, and the cozy fictions of nationalism. Throughout, Isen deftly examines the quick cosmetic fixes society makes to address systemic problems and reveals the unexpected ways they can misfire. In the spirit of Zadie Smith, Cathy Park Hong, and Jia Tolentino, Isen interlaces cultural criticism with her lived experience to explore the gaps between what we say and what we do, what we do and what we value, and what we value and what we demand. **Creative**

Writing Scholars on the Publishing Trade Sam Meekings, Marshall Moore, 2021-10-01. In Creative Writing Scholars on the Publishing Trade. Practice Praxis. Print. Sam Meekings and Marshall Moore, along with prominent scholar-practitioners, undertake a critical examination of the intersection of creative writing scholarship and the publishing industry. Recent years have seen dramatic shifts within the publishing industry as well as rapid evolution and development in academic creative writing programs. This book addresses all of these core areas and transformations, such as the pros and cons of self-publishing versus traditional publishing, issues of diversity and representation within the publishing industry, digital transformations, and possible career pathways for writing students. It is crucial for creative writing pedagogy to deal with the issues raised by the sudden changes within the industry, and this book will be of interest to creative writing students and practitioners as well as publishing students and professionals. **The Encyclopedia of Contemporary American Fiction, 2 Volumes** Patrick

Institutions of World Literature Stefan Helgesson, Pieter Vermeulen, 2015-06-19 This volume engages critically with the recent and ongoing consolidation of world literature as a paradigm of study On the basis of an extended active and ultimately more literary sense of what it means to institute world literature it views processes of institutionalization not as limitations but as challenges to understand how literature may simultaneously function as an enabling and exclusionary world of its own It starts from the observation that literature is never simply a given but is always performatively and materially instituted by translators publishers academics and academics critics and readers as well as authors themselves This volume therefore substantiates refines as well as interrogates current approaches to world literature such as those developed by David Damrosch Pascale Casanova and Emily Apter Sections focus on the poetics of writers themselves market dynamics postcolonial negotiations of discrete archives of literature and translation engaging a range of related disciplines The chapters contribute to a fresh understanding of how singular literary works become inserted in transnational systems and conversely how transnational and institutional dimensions of literature are inflected in literary works Focusing its methodological and theoretical inquiries on a broad archive of texts spanning the triangle Europe Latin America Africa the volume unsettles North America as the self evident vantage of recent world literature debates Because of the volume s focus on dialogues between world literature and fields such as postcolonial studies translation studies book history and transnational studies it will be of interest to scholars and students in a range of areas

[Work in Progress](#) Rieke Jordan, 2019-05-02 Work in Progress Curatorial Labor in Twenty First Century American Fiction interrogates contemporary texts that showcase forms of reading practices that feel anachronistic and laborious in times of instantaneity and short buffering times Objects of analysis include the graphic narrative Building Stories by Chris Ware the music album Song Reader by the indie rock artist Beck Hansen and the computer game Kentucky Route Zero by the programming team Cardboard Computer These texts stage their fragmentary nature and alleged unfinishedness as a quintessential part of both their narrative and material modus operandi These works in and of progress feel both contemporary and retro in the 21st century They draw upon and work against our expectations of interactive art in the digital age incorporating and likewise rejecting digital forms and practices This underlines the material and narrative flexibilities of the objects for no outcome or reading experience is the same or can be replicated It becomes apparent that the texts presuppose a reader who invests her spare time in figuring these texts out diagnosing a contorted work leisure dichotomy working these stories out is a significant part of the reading experience for the reader curatorial labor This conjures up a reader who as the author argues is turned into a curator and creative entity of and in these texts for she implements and reassembles the options made available

Talking Art Gary Alan Fine, 2018-08-31 In Talking Art acclaimed ethnographer Gary Alan Fine gives us an eye opening look at the contemporary university based master s level art program Through an in depth analysis of the practice of the critique and other aspects of the curriculum Fine reveals how MFA programs have shifted the goal of creating art away from beauty and toward theory Contemporary visual art Fine argues is no longer a calling or a passion it s a discipline with an academic culture that requires its practitioners to be verbally skilled in the presentation of their intentions Talking Art offers a remarkable and disconcerting view into the crucial role that universities play in creating that culture

The Origins of Dislike Amit Chaudhuri, 2018-09-20 Strategic thinking for a writer articulates itself as dislike and as allegiance In this wonderfully rich and diverse collection of essays Amit Chaudhuri explores the way in which writers understand and promote their own work in antithesis to writers and movements that have gone before Chaudhuri s criticism disproves and questions several assumptions that a serious and original artist cannot think critically in a way that matters that criticism can t be imaginative and creative work contain radical argumentation that a writer reflecting on their own position and practice cannot be more than a testimony of their work but open up how we think of literary history and reading Illuminating new ways of thinking about Western and non Western traditions prejudices and preconceptions Chaudhuri shows us again that he takes nothing as a given literary

tradition the prevalent definitions of writing and culture and the way the market determines the way culture and language express themselves He asks us to look again at what we mean by the modern and how it might be possible to think of the literary today

After the Program Era Loren Glass, 2017-01-04 The publication in 2009 of Mark McGurl's *The Program Era* provoked a sea change in the study of postwar literature Even though almost every English department in the United States housed some version of a creative writing program by the time of its publication literary scholars had not previously considered that this institutional phenomenon was historically significant McGurl's groundbreaking book effectively established that the rise of the creative writing program stands as the most important event in postwar American literary history forcing us to revise our understanding not only of the relationship between higher education and literary production but also of the periodizing terminology we had previously used to structure our understanding of twentieth century literature *After the Program Era* explores the consequences and implications as well as the lacunae and liabilities of McGurl's foundational intervention Glass focuses only on American fiction and the traditional MFA program and this collection aims to expand and examine its insights in terms of other genres and sites Postwar poetry in particular has until now been neglected as a product of the Program Era even though it is arguably a purer example since poets now depend almost entirely on the patronage of the university Similarly this collection looks beyond the traditional MFA writing program to explore the pre history of writing programs in American universities as well as alternatives to the traditionally structured program that have emerged along the way Taken together the essays in *After the Program Era* seek to answer and explore many of these questions and continue the conversations McGurl only began
