Passion and Order Carol Lansing, 2008 The way in which a society expresses grief can reveal how it views both intense emotions and public order In thirteenth century Italian communes a conscious effort to change appropriate public reaction to death threw into sharp relief connections among urban politics gender expectations and understandings of emotionality In Passion and Order Carol Lansing explores a dramatic change in thinking and practice about emotional restraint This shift was driven by politics and understood in terms of gender Thirteenth century court cases reveal that male elites were accustomed to mourning loudly and demonstratively at funerals As many as a hundred men might gather in a town's streets and squares to weep and cry out even tear at their beards and clothing Yet these elites enacted laws against such emotional display and proceeded to pay the fines levied against themselves for violating their own legislation Political theorists used gender norms to urge men to restrain their passions histrionic grieving like lust was now considered womanish Lawmakers drew on a complex of gendered ideas about grief and public order to characterize governance in ways that linked the self and the state They articulated their beliefs in terms of rules of decorum how men and women need to behave in order to live together in society Lansing demonstrates this change through a rich combination of sources archival records from Orvieto Bologna and Perugia political treatises literary works notably Petrarch's letters and representations of grief in painting and sculpture

Polygamy and Sublime Passion Keith McMahon, 2009-11-24 For centuries of Chinese history polygamy and prostitution were closely linked practices that legitimized the polygynous male the man with multiple sexual partners Despite their strict hierarchies these practices also addressed fundamental antagonisms in sexual relations in serious and constructive ways Qing fiction abounds in stories of female resistance and superiority Women main wives concubines and prostitutes were adept at exerting control and gaining status for themselves while men indulged in elaborate fantasies about female power In Polygamy and Sublime Passion Keith McMahon introduces a new concept

passive polygamy to explain the unusual number of Qing stories in which women take charge of a man's desires turning him into an instrument of female will To this he adds a story that haunted the institutions of polygamy and prostitution the tale of sublime passion in which the main characters are a remarkable woman and her male lover Throughout the book McMahon examines how polygamy prostitution and the story of sublime passion encountered the first stages of paradigmatic change in the nineteenth century decades before the legal abolition of polygamy By the end of the Qing dynasty in 1911 love stories were celebrating the exploits of street smart prostitutes who fleeced gullible patrons in the bustling city of Shanghai What do these characters have in common with their early counterparts as men and women became inhabitants of a new city in an era flooded with ideas from radically foreign sources all of this taking place in a time of economic and cultural dislocation McMahon reads late Qing love stories in a historically symbolic way taking them as part of a larger fantasy of Chinese civilization undergoing a fundamental crisis The polygamous marriage and the affairs of the brothel became metaphorical staging grounds for portraying the destiny of China on the verge of modernity Finally McMahon speculates on the changes polygamous sexuality underwent after the Qing dynasty ended and whether it exerted a residual influence in later times Polygamy and Sublime Passion will undoubtedly engage those interested in Chinese society culture literature and gender studies as well as comparativists seeking to understand the diverse responses to modernization around the world
