The Political Economy of Press Freedom

Jaw-Nian Huang, 2019-08-01 This book offers a political economy analysis of the development and degradation of freedom of the press in Taiwan since 1949 exploring how state business elites and foreign hegemons interacted to shape the evolution of Taiwan's media. It examines why freedoms increased alongside democratization in the 1990s but deteriorated after the second peaceful turnover of power in 2008 and why significant improvements accompanied Taiwan's close economic connections with the US during the Cold War only to become eroded as the country developed deeper economic ties with China in the 21st century. Presenting both a domestic and international perspective, this study of the controversial case of Taiwan ultimately argues in favor of three factors. First, state power is not the only threat to press freedom as corporate organizations and market forces may also play a role in curtailing it. Second, cross-national economic connections do not always improve human and civil rights but may cause damage when they involve more powerful authoritarian countries. Third, just as norms diffuse from liberal contexts to repressive states, repressive norms are also likely to diffuse from powerful authoritarian countries to more liberal but politically and economically weaker ones. Providing a new viewpoint on China's media control overseas, *The Political Economy of Press Freedom* will be useful for students and scholars of Chinese Studies and Taiwan Studies as well as comparative politics, international relations, and Media Studies.

Assessing the Threat: The Chinese Military and Taiwan's Security

Since at least the early 1950s, the entire Asia Pacific region has struggled with the complicated and complex relationship between China and Taiwan. Today, the Taiwan question is considered a potential flashpoint for a much larger international conflict. Bringing together experts from the United States and Taiwan, *Assessing the Threat* provides a comprehensive look at the dangers of military escalation in the Taiwan Strait, the latest advances in capabilities of the People's Liberation Army, and China's security relationship with the United States and the Asia Pacific. There is increasing concern that Beijing is steadily shifting the balance of power across the Taiwan Strait in its favor. Recent advances in Chinese air and naval power along with changes in PLA doctrine have the potential to weaken deterrence and destabilize the cross-strait military balance. At this critical juncture, there is no question that this issue requires sustained, detailed analysis and that many measures can and should be taken to reduce the threat of conflict between China, Taiwan, and the United States. *Assessing the threat* offers such analysis as well as concrete suggestions and crisis management practices for government and military leaders in Washington, D.C., Beijing, and Taipei.

Taiwan, Humanitarianism and Global Governance

Alain Guilloux, 2009-03-09 Guilloux explores the complexities and dilemmas of providing humanitarian aid to people in need and distress, especially underlined by Taiwan's unclear status in the global arena and how, in its efforts, Taiwan faces both international isolation and opposition from the People's Republic of China at multiple levels.

Africa-China-Taiwan Relations, 1949-2020 Sabella Ogbobode Abidde, 2022-07-26 The ongoing tension and hostility between China and Taiwan in Africa are a continuation of the Chinese

Civil War 1927-1949 between the forces of the Chinese Communist Party (CCP) which remained in mainland China and the Kuomintang (KMT) of the Republic of China (ROC) which fled to the island of Taiwan. In the intervening years, China has claimed Taiwan as part of its territory and through persistent and aggressive political and economic efforts convinced much of the world to accept her as the sole and legitimate seat of the Chinese people and government.

Africa-China-Taiwan Relations 1949-2020 provides a coherent account of why and how China was able to convince African governments to acquiesce to her claims which have resulted in the expulsion of and the diplomatic isolation of Taiwan on the African continent. This volume, edited by Sabella Ogbobode Abidde, also explains Taiwan's unsuccessful efforts at blunting China's maneuvers. It further discusses the endogenous and exogenous factors that swayed African governments to switch their diplomatic allegiance away from Taiwan, a country that was for many years an ally and dependable partner in their quest for growth and development. Finally, the book contains critical assessments of the role and place of China and Taiwan and their current relationship with states and societies on the African continent.

Report to Congress of the U.S.-China Economic and Security Review Commission U.S.-China Economic and Security Review Commission, 2014

Planning for Protraction Iskander Rehman, 2023-11-09

As Sino-US relations have deteriorated, concerns have grown in Washington over its ability to defeat China in a major conflict. A conflict between such peer competitors would likely become a protracted war of attrition, drawing on all dimensions of national power, but this reality has yet to receive a sufficient degree of analytical attention. In this Adelphi book, Iskander Rehman provides a historically informed and empirically grounded study of protracted great power war: its core drivers and characteristics and an examination of the elements that have most often determined a competitor's long-term strategic performance. Final victory in a protracted conflict, this book argues, rests on a combination of three core factors: a state's military effectiveness and adaptability, its socio-economic power and resiliency, and the soundness of its alliance management and grand strategy. A detailed analysis of the contemporary Sino-US rivalry assesses how both parties might fare in the event of a protracted war while highlighting some of its key differentiating aspects, most notably its nuclear and cyber dimensions.

Culture of Enmity: The Discursive Struggle for Taiwan in the Making of the New Cold War Alain Brossat, Juan Alberto Ruiz Casado, 2023-07-10

This book provides a thought-provoking analysis of the perception of China as a formidable threat amidst the current era of socio-political polarization and growing militarization. By exploring the discursive strategies and tactics employed to cultivate antagonism, it unveils the culture of enmity that fosters fear and distrust towards China both in Taiwan and beyond. Drawing on interdisciplinary research, the book delves into the ontological characteristics of such a culture and provides insights into the Taiwan conflict as a crucial observation post for understanding the intricate discursive dynamics of the New Cold War. The geopolitical situation of Taiwan presents a predicament as it finds itself at the crossroads of two conflicting realms. On one hand, it is deeply intertwined with Chinese culture and history, with the added dimension of its strategic proximity to China at a time when the latter aspires to become a

regional hegemon On the other hand Taiwan boasts a Western influenced political system Western leaning strategic alliances and a distinct political identity forged over the past few decades It is within this intricate interplay of apparently dissonant but overlapping factors that the thorny and challenging nature of the discursive struggle for Taiwan becomes apparent The book consists of a collection of articles initially created by the authors during their research in Taiwan over several years first at National Yang Ming Chiao Tung University and then at National Cheng Kung University The articles organized into different chapters cover various disciplines such as political philosophy geopolitics history discourse analysis and anthropology reflecting the diverse educational backgrounds of the authors Despite their diversity all chapters are deeply connected to the discursive struggle over Taiwan Ultimately by offering a nuanced perspective that challenges prevailing narratives the authors provide a deliberately controversial yet refreshing viewpoint that advocates for a policy of empathy and negotiation Such approach goes beyond mere dialogue and diplomacy emphasizing the need for coexistence and peaceful living among different worlds

China and the World since 1945 Chi-kwan Mark, 2025-04-02 Now in its second edition *China and the World since 1945* offers an accessible introduction to China's foreign policy and diplomatic history across a broad chronology After the century of humiliation China was in constant search of a new identity on the world stage which significantly changed the way the nation defined itself and its role in the world The book traces developments in China's relations with the two superpowers Asian neighbours Third World countries and European powers examining China's role in modern globalization and the international community It also considers the influence of domestic politics and ideology on China's international relations Fully revised and updated with the latest scholarship the second edition includes a new chapter on China's foreign relations under Xi Jinping's administration including the reassertion of China as a Communist state identification with the Global South and the New Cold War with the United States as both powers grapple for global influence By examining the rise of China from a long term historical perspective this concise yet comprehensive study will be essential to scholars and students of Chinese history and contemporary international relations *2017 Report to Congress of the U.S.-China Economic and Security Review Commission, November 2017, 115-1*, 2018
