Royer, 2018-08-21 When I started thinking about building a Faith based curriculum for the early childhood classroom my goal was to create a curriculum that would catch the interest of children 0 Kindergarten See I have worked in the early childhood classroom for almost two decades and while the goal is at the heart of the curriculum I have used the interest it has sparked in our young ones is mild and dulled down at best How can we best instill an excitement to learn in our young ones By making the material and manipulatives hands on and exciting I don t mean by reading a story and pulling out paper puppets on craft sticks although this may be what some children like and want to explore What I mean is presenting values and morals in an explorative manner in conjunction with developmentally appropriate learning standards that help engage your students in learning experiences while getting them excited Including stories and sensory materials story buckets role playing with dress up materials including a variety of mixed media to spark your student s interests is absolutely necessary Create an environment that appeals to learners of various ages backgrounds and learning styles Make your lesson times fun and interesting and your learners will gravitate back for more **Acts (I)** Mikeal C. Parsons, 2008-12-01 In Acts the third of eighteen volumes in the Paideia commentary series leading biblical scholar Mikeal Parsons gleans fresh theological insight into Acts by attending carefully to the cultural and educational context from which it emerges Parsons see Acts as a charter document explaining and legitimating Christian identity for a general audience of early Christians living in the ancient Mediterranean world Pastors graduate and seminary students and professors will benefit from this readable commentary as will theological libraries The Paideia commentaries are designed to be read through and used not shelved and referenced The main text is supplemented with maps sidebars and photographs Indexes and reference lists help readers locate discussions in the commentary and in other secondary literature

Death and Resurrection Dennis J. Horton,2009-06-10 Dennis Horton highlights the shape and function of the death and resurrection motif by applying William Freedman s criteria of a literary motif to the Acts narrative By analyzing the statements about death and resurrection together with the examples of this messianic pattern among the experiences of major and minor characters the motif becomes clear This central theme then becomes intensified through contrast with a secondary motif that of death and decay Death and Resurrection provides a clear example of a biblical motif and how it develops and functions within the narrative serving as a valuable guide for future studies of biblical motifs The work also supplies a needed balance between the extremes of past and present Lukan scholarship by considering the combined effect of suffering and renewed life within a single motif Both the statements and actions of the characters reveal the importance of the two elements for Lukan theology and soteriology The function of the motif derives from its usage within the narrative and proves insightful for gaining a better understanding of the aesthetic quality of the story while simultaneously showing how the narrator skillfully wields the motif to provide encouragement to the followers of The Way to issue a warning to would be persecutors and to deliver an evangelistic message to potential converts such as the God fearers The messianic pattern of death and resurrection becomes a heuristic tool that the narrator carefully applies to create a potent motif with a multifaceted message for a growing and often suffering Christian community

Tourism and Economic Development Patrizia Battilani,Carlos Larrinaga,Donatella Strangio,2025-06-30 By the end of the 19th century there were already some countries in southern Europe whose economies benefitted from the arrival of tourists But it was during the 20th century and particularly after the Second World War that the phenomenon of mass tourism arrived and dramatically impacted the economies of southern Europe This edited volume analyses when how and why tourism gained an important role in the economy and social life of Southern Europe It contributes to a reassessment of mass tourism focusing on two main dimensions first the impact on the economic development of the different southern European countries and second the building of a new sociality focusing on the rituals and values of middle and the working class This book adopts a comparative approach that opens with a comparison of European countries in terms of international market share and tourist products The other chapters focus on national case studies that allow the reader to better understand not only the similarities and differences between some countries and others but also the phenomenon as a whole Since tourism is a transnational phenomenon this book makes an important contribution to not only the study of tourism development and its economy but also social impact in Southern Europe The book will be of great interest to readers of economic history business history tourism history and European history more broadly
