Vladimir Nabokov and the Art of Moral Acts Dana Dragunoiu, 2021-09-15 Winner 2022 Brian Boyd Prize for Best Second Book on Nabokov This book shows how ethics and aesthetics interact in the works of one of the most celebrated literary stylists of the twentieth century the Russian American novelist Vladimir Nabokov Dana Dragunoiu reads Nabokov's fictional worlds as battlegrounds between an autonomous will and heteronomous passions demonstrating Nabokov's insistence that genuinely moral acts occur when the will triumphs over the passions by answering the call of duty Dragunoiu puts Nabokov's novels into dialogue with the work of writers such as Alexander Pushkin William Shakespeare Leo Tolstoy and Marcel Proust with Kantian moral philosophy with the institution of the modern duel of honor and with the European traditions of chivalric literature that Nabokov studied as an undergraduate at Cambridge University This configuration of literary influences and philosophical contexts allows Dragunoiu to advance an original and provocative argument about the formation career and legacies of an author who viewed moral activity as an art and for whom artistic and moral acts served as testaments to the freedom of the will

Nabokov's Pale Fire Brian Boyd, 2001-10-15 Pale Fire is regarded by many as Vladimir Nabokov's masterpiece The novel has been hailed as one of the most striking early examples of postmodernism and has become a famous test case for theories about reading because of the apparent impossibility of deciding between several radically different interpretations Does the book have two narrators as it first appears or one How much is fantasy and how much is reality Whose fantasy and whose reality are they Brian Boyd Nabokov's biographer and hitherto the foremost proponent of the idea that Pale Fire has one narrator John Shade now rejects this position and presents a new and startlingly different solution that will permanently shift the nature of critical debate on the novel Boyd argues that the book does indeed have two narrators Shade and Charles Kinbote but reveals that Kinbote had some strange and highly surprising help in writing his sections In light of this interpretation Pale Fire now looks distinctly less postmodern and more interesting than ever In presenting his arguments Boyd shows how Nabokov designed Pale Fire for readers to make surprising discoveries on a first reading and even more surprising discoveries on subsequent readings by following carefully prepared clues within the novel Boyd leads the reader step by step through the book gradually revealing the profound relationship between Nabokov's ethics aesthetics epistemology and metaphysics If Nabokov has generously planned the novel to be accessible on a first reading and yet to incorporate successive vistas of surprise Boyd argues it is because he thinks a deep generosity lies behind the inexhaustibility complexity and mystery of the world Boyd also shows how Nabokov's interest in discovery springs in part from his work as a scientist and scholar and draws comparisons between the processes of readerly and scientific discovery This is a profound provocative and compelling reinterpretation of one of the greatest novels of the twentieth century

Vladimir Nabokov in Context David Bethea, Siggy Frank, 2018-05-24 Vladimir Nabokov bilingual writer of dazzling

masterpieces is a phenomenon that both resists and requires contextualization This book challenges the myth of Nabokov as a sole genius who worked in isolation from his surroundings as it seeks to anchor his work firmly within the historical cultural intellectual and political contexts of the turbulent twentieth century Vladimir Nabokov in Context maps the ever changing sites people cultures and ideologies of his itinerant life which shaped the production and reception of his work Concise and lively essays by leading scholars reveal a complex relationship of mutual influence between Nabokov s work and his environment Appealing to a wide community of literary scholars this timely companion to Nabokov s writing offers new insights and approaches to one of the most important and yet most elusive writers of modern literature *Modern Fantasies on Love versus Classical Romances* Ljuba Tarvi, 2023-07-14 Viewed through the lens of physics love conquers nothing is the conclusion reached when love patterns in romances are viewed through laws of quantum physics In this book based on the metaphor Love Text is Energy love in fiction is interpreted in the same way as subatomic particles are studied in quantum mechanics by investigating traces of their clashes in giant colliders i e as Marx s converted forms of the protagonists conscious and unconscious decisions and actions The book introduces the Token Valence Method which assumes that a word like an elementary particle is neither a particle nor a wave but rather a quantum state The TVM has revealed three models of love patterns in fiction adaptation 21st century alienation 20th century and imagination 1991 2021 Vladimir Nabokov as an Author-Translator Julie Loison-Charles, 2022-11-17 Exploring the deeply translational and transnational nature of the writings of Vladimir Nabokov this book argues that all his work is unified by the permanent presence of three cultures and languages Russian English and French In particular Julie Loison Charles focusses on Nabokov s dual nature as both an author and a translator and the ways in which translation permeates his fictional writing from his very first Russian works to his last novels in English Although self translation has received a lot of attention in Nabokov criticism this book considers his work as an author translator drawing particular attention to his often underappreciated and underestimated but no less crucial third language French Looking at Nabokov s encounters with pseudotranslation Julie Loison Charles demonstrates the influence this had on his practice as both a translator and a writer arguing that this experience was crucial to his ability to create bridges between the literary traditions of Europe Russia and America The book also triangulates his practice and theory of translation for *Onegin* with those of Chateaubriand and Venuti to illuminate Nabokov s transnational vision of literature and his ethics of translation before presenting a robust case for reconsidering his collaborative translations in French as mediated self translations Vladimir Nabokov Neil Cornwell, 1999 Vladimir Nabokov s extraordinary literary career as a master of Russian and English prose is unique Acclaimed in the limited Russian migr world under the name of Sirin Nabokov switched to writing in English and settled in America a refugee from Hitler s Europe Exile memory lost love and the magic of childhood are among his themes stylistic and structural dexterity are his hallmarks *Lolita* ranked number 4 in the 1998 New York Modern Library list of 100 best novels of the century published in English enabled him to retire to a

final and productive period of European residence Film versions of his most controversial novel keep Nabokov's name before the public while almost his entire oeuvre remains currently available in paperback Neil Cornwell's study published for the Nabokov centenary examines five of Nabokov's major novels plus his short stories and critical writings situating his work against the ever expanding mass of VN scholarship and noting his cultural debt to Russia Europe America and the British Isles

Education and the Limits of Reason Peter Roberts, Herner Saeverot, 2017-07-06 In recent decades a growing body of educational scholarship has called into question deeply embedded assumptions about the nature value and consequences of reason *Education and the Limits of Reason* extends this critical conversation arguing that in seeking to investigate the meaning and significance of reason in human lives sources other than non fiction educational or philosophical texts can be helpful Drawing on the work of Dostoevsky Tolstoy and Nabokov the authors demonstrate that literature can allow us to see how reason is understood and expressed contested and compromised by distinctive individuals under particular circumstances in complex and varied relations with others Novels plays and short stories can take us into the workings of a rational or irrational mind and show how the inner world of cognitive activity is shaped by external events Perhaps most importantly literature can prompt us to ask searching questions of ourselves it can unsettle and disturb and in so doing can make an important contribution to our educational formation An original and thought provoking work *Education and the Limits of Reason* offers a fresh perspective on classic texts by Dostoevsky Tolstoy and Nabokov and encourages readers to reconsider conventional views of teaching and learning This book will appeal to a wide range of academics researchers and postgraduate students in the fields of education literature and philosophy
