## **Nagarjunas Madhyamaka A Philosophical Introduction:**

Nagarjuna's Madhyamaka Jan Westerhoff, 2009-02-23 The Indian philosopher Acharya Nagarjuna c 150 250 CE was the founder of the Madhyamaka Middle Path school of Mahayana Buddhism and arguably the most influential Buddhist thinker after Buddha himself Indeed in the Tibetan and East Asian traditions Nagarjuna is often referred to as the second Buddha His primary contribution to Buddhist thought lies in the further development of the concept of sunyata or emptiness For Nagarjuna all phenomena are without any svabhava literally own nature or self nature and thus without any underlying essence In this book Jan Westerhoff offers a systematic account of Nagarjuna's philosophical position He reads Nagarjuna in his own philosophical context but he does not hesitate to show that the issues of Indian and Tibetan Buddhist philosophy have at least family resemblances to issues in European philosophy

**A Religious Foundation for Global Business Ethics** Cristiano Ciappei, Giacomo Mininni, 2025-03-25 This book aims to draft a viable path for establishing a business ethics model based on the wisdom traditions of nine of the world's great religions Judaism Christianity Islam Hinduism Buddhism Taoism Confucianism Zoroastrianism and Animism In light of the failure of many models based on various philosophies we turn to the only cultural and anthropological realities that have proven to withstand the test of time and move the consciences of billions of people throughout history religions By exploring sacred texts and wisdom traditions we investigate how religions contribute to the ongoing ethical debate in business environments with the aim of sparking academic and public interest in the potential of establishing a truly effective religion based business ethics model

**Global Origins of the Modern Self, from Montaigne to Suzuki** Avram Alpert, 2019-04-16 In *Global Origins of the Modern Self* from Montaigne to Suzuki Avram Alpert contends that scholars have yet to fully grasp the constitutive force of global connections in the making of modern selfhood Alpert argues that canonical moments of self making from around the world share a surprising origin in the colonial anthropology of Europeans in the Americas While most intellectual histories of modernity begin with the Cartesian inward turn Alpert shows how this turn itself was an evasion of the impact of the colonial encounter He charts a counter history of the modern self tracing lines of influence that stretch from Michel de Montaigne's encounter with the Tupi through the writings of Jean Jacques Rousseau into German Idealism American Transcendentalism postcolonial critique and modern Zen Alpert considers an unusually wide range of thinkers including Kant Hegel Fanon Emerson Du Bois Senghor and Suzuki This book not only breaks with disciplinary conventions about period and geography but also argues that these conventions obscure our ability to understand the modern condition

**Classical Theism and Buddhism** Tyler Dalton McNabb, Erik Baldwin, 2022-02-10 As an atheistic religious tradition Buddhism conventionally stands in opposition to Christianity and any bridge between them is considered to be riddled with contradictory beliefs on God the creator salvific power and the afterlife But what if a Buddhist could also be a Classical Theist Showing how the various contradictions are not as fundamental as commonly thought Tyler Dalton McNabb and Erik Baldwin challenge existing assumptions and argue

that Classical Theism is in fact compatible with Buddhism They draw parallels between the metaphysical doctrines of both traditions synthesize their ethical and soteriological commitments and demonstrate that the Theist can interpret the Buddhist's religious experiences specifically those of emptiness as veridical without denying any core doctrine of Classical Theism By establishing that a synthesis of the two traditions is plausible this book provides a bold fresh perspective on the philosophy of religion and reinvigorates philosophical debates between Buddhism and Christianity Sculptum Est Prosa (Volume 2) Ivan Kireevskii, 2018-11-07 This volume explores the range and uses of quotations echoes and allusions drawn from thousands of intertextual instances that Kireevskii has recognized in his work The principal interest of the echoes examined here lies in the revaluation of the poet and the theoretical issues his varied use of them suggests Through echoing Kireevskii embodies and explicates his assertions of continuity in human development his vision of interchange between the mind and nature As a poet he is a person who constantly experiences sees hears suspects hopes and dreams extraordinary things is struck by his own thoughts as if from outside or from above and below as if by his type of events and lightning bolts is perhaps a storm himself pregnant with new lightning and is a fatal person in whose vicinity things are always rumbling growling gaping and acting in uncanny ways Listen very carefully because Kireevskii writes in a very symbolic form and unless you are very alert in reading his words you may miss all the implications The reason why he is so symbolic is that he is so full of new insights and he has so much he desires to share and to give As with a hermit's writings you can always hear something of the echo of the desert something of the whisper and the timid sideways glance of solitude a concealed philosophy where every opinion is also a hiding place every word is also a mask **Classical Indian Philosophy** Peter Adamson, Jonardon Ganeri, 2020-03-26 Peter Adamson and Jonardon Ganeri present a lively introduction to one of the world's richest intellectual traditions the philosophy of classical India They begin with the earliest extant literature the Vedas and the explanatory works that these inspired known as Upanishads They also discuss other famous texts of classical Vedic culture especially the Mahabharata and its most notable section the Bhagavad Gita alongside the rise of Buddhism and Jainism In this opening section Adamson and Ganeri emphasize the way that philosophy was practiced as a form of life in search of liberation from suffering Next the pair move on to the explosion of philosophical speculation devoted to foundational texts called sutras discussing such traditions as the logical and epistemological Nyaya school the monism of Advaita Vedanta and the spiritual discipline of Yoga In the final section of the book they chart further developments within Buddhism highlighting Nagarjuna's radical critique of non-dependent concepts and the no-self philosophy of mind found in authors like Dignaga and within Jainism focusing especially on its standpoint epistemology Unlike other introductions that cover the main schools and positions in classical Indian philosophy Adamson and Ganeri's lively guide also pays attention to philosophical themes such as non-violence political authority and the status of women while considering textual traditions typically left out of overviews of Indian thought like the Crvaka school Tantra and aesthetic theory as well Adamson and Ganeri conclude by focusing on the much debated

question of whether Indian philosophy may have influenced ancient Greek philosophy and from there evaluate the impact that this area of philosophy had on later Western thought

**Red Enlightenment** Graham Jones, 2023-05-09 Why we need a materialist spirituality for the secular left and how to build one The left commonly rejects religion and spirituality as counter revolutionary forces citing Marx's famous dictum that religion is the opium of the people Yet forms of spirituality have motivated struggles throughout history ranging from medieval peasant uprisings and colonial slave revolts to South American liberation theology and the US civil rights movement And in a world where religion is growing and political movements are ridden with conflict burnout and failure what can the left learn from religion Red Enlightenment argues not only for a deepened understanding of religious matters but calls for the secular left to develop its own spiritual perspectives It proposes a materialist spirituality built from socialist and scientific sources finding points of contact with the global history of philosophy and religion From cybernetics to liberation theology from ancient Indian and Chinese philosophy to Marxist dialectical materialism from traditional religious practices to contemporary art music and film Red Enlightenment sets out a plausible secular spirituality a new socialist praxis and a utopian vision **The Oxford Handbook of World Philosophy** Jay L. Garfield, William Edelglass, 2011-06-09 This volume provides the advanced student or scholar a set of introductions to each of the world's major non European philosophical traditions Sections on Chinese philosophy Indian philosophy Buddhist philosophy East Asian philosophy African philosophy and trends in global philosophy are all edited by an expert *Vanishing into Things* Barry Allen, 2015-04-07 Barry Allen

explores the concept of knowledge in Chinese thought over two millennia and compares the different philosophical imperatives that have driven Chinese and Western thought Challenging the hyperspecialized epistemology of modern Western philosophy he urges his readers toward an ethical appreciation of why knowledge is worth pursuing Waking, Dreaming, Being Evan Thompson, 2014-11-18 A renowned philosopher of the mind also known for his groundbreaking work on Buddhism and cognitive science Evan Thompson combines the latest neuroscience research on sleep dreaming and meditation with Indian and Western philosophy of mind casting new light on the self and its relation to the brain Thompson shows how the self is a changing process not a static thing When we are awake we identify with our body but if we let our mind wander or daydream we project a mentally imagined self into the remembered past or anticipated future As we fall asleep the impression of being a bounded self distinct from the world dissolves but the self reappears in the dream state If we have a lucid dream we no longer identify only with the self within the dream Our sense of self now includes our dreaming self the I as dreamer Finally as we meditate either in the waking state or in a lucid dream we can observe whatever images or thoughts arise and how we tend to identify with them as me We can also experience sheer awareness itself distinct from the changing contents that make up our image of the self Contemplative traditions say that we can learn to let go of the self so that when we die we can witness its dissolution with equanimity Thompson weaves together neuroscience philosophy and personal narrative to depict these transformations adding uncommon depth to life's profound questions Contemplative experience comes to illuminate scientific findings and scientific evidence enriches the vast knowledge acquired by contemplatives

*Nietzsche and Buddhist Philosophy* Antoine Panaïoti, 2012-12-06 Nietzsche once proclaimed himself the Buddha of Europe and throughout his life Buddhism held enormous interest for him While he followed Buddhist thinking in demolishing what he regarded as the two headed delusion of Being and Self he saw himself as advocating a response to the ensuing nihilist crisis that was diametrically opposed to that of his Indian counterpart In this book Antoine Pana oti explores the deep and complex relations between Nietzsche's views and Buddhist philosophy He discusses the psychological models and theories which underlie their supposedly opposing ethics of great health and explodes the apparent dichotomy between Nietzsche's Dionysian life affirmation and Buddhist life negation arguing for a novel hybrid response to the challenge of formulating a tenable post nihilist ethics His book will interest students and scholars of Nietzsche's philosophy Buddhist thought and the

metaphysical existential and ethical issues that emerge with the demise of theism      *Classical Theism* Jonathan Fuqua, Robert C. Koons, 2023-02-10 This volume provides a contemporary account of classical theism It features 17 original essays from leading scholars that advance the discussion of classical theism in new and interesting directions It's safe to say that classical theism the view that God is simple omniscient and the greatest possible being is no longer the assumed view in analytic philosophy of religion It is often dismissed as being rooted in outdated metaphysical systems of the sort advanced by ancient and medieval philosophers The main purpose of this volume is twofold to provide a contemporary account of what classical theism is and to advance the scholarly discussion about classical theism In Section I the contributors offer a clear and cutting edge account of the nature and existence of the God and the historical and theological foundations of classical theism Section II contains chapters on a variety of topics such as whether classical theism's doctrine of simplicity needs revision whether simplicity is compatible with the Christian doctrine of the Incarnation and whether the hypothesis of a multiplicity of divine ideas is consistent with divine simplicity among others *Classical Theism* will appeal to scholars and advanced students in the philosophy of religion who are interested in the nature of God Chapters 2 and 6 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license      **Posthuman Buddhism and the Digital Self** Les

Roberts, 2023-09-20 In *Posthuman Buddhism and the Digital Self* Les Roberts extends his earlier work on spatial anthropology to consider questions of time spaciousness and the phenomenology of self Across the book's four main chapters which range from David Bowie's long standing interest in Buddhism to street photography of 1980s Liverpool to the ambient soundscapes of Derek Jarman's *Blue* or to the slow contemplative cinema of Tsai Ming Liang Roberts lays the groundwork for the concept of dwellspace as a means by which to unpick the shifting spatial temporal and experiential modalities of everyday mediascapes Understood as a particular disposition towards time Roberts's foray into dwellspace proceeds from a Pascalian reflection on the self non self in which being content in an empty room vies with the demands of having content in an empty room Taking the idea of posthuman Buddhism as a heuristic lens Roberts sets in motion a number of interrelated lines of enquiry that prompt renewed focus on questions of boredom distraction and reverie and cast into sharper relief the psychosocial and creative affordances of ambience spaciousness and slowness The book argues that the colonisation of empty time by 24/7 digital capitalism has gone hand in hand with the growth of the corporate mindfulness industry and with it the co-option commodification and digitisation of dwellspace *Posthuman Buddhism* is thus in part an exploration of the dialectics of dwellspace that orbits around a creative self praxis rooted in the negation and dissolution of the self one of the foundational cornerstones of Buddhist theory and practice      **Self-Cultivation Philosophies in Ancient India, Greece, and China** Christopher W.
