Narratologies New Perspectives On Narrative Analysis Theory Interpretation Narrativ:

Narratologies David Herman, 1999 **The Bloomsbury Handbook of Literary and Cultural Theory** Jeffrey R. Di Leo, 2018-11-15 The Bloomsbury Handbook of Literary and Cultural Theory is the most comprehensive available survey of the state of theory in the 21st century With chapters written by the world's leading scholars in their field this book explores the latest thinking in traditional schools such as feminist Marxist historicist psychoanalytic and postcolonial criticism and new areas of research in ecocriticism biopolitics affect studies posthumanism materialism and many other fields In addition the book includes a substantial A to Z compendium of key words and important thinkers in contemporary theory making this an essential resource for scholars of literary and cultural theory at all levels **Postclassical Narratology** Jan Alber, Monika Fludernik, 2010 In this volume an international group of contributors presents new perspectives on narrative Using David Herman's 1999 definition of postclassical narratology from *Narratologies New Perspectives on Narrative Analysis* OSUP as their launching point these eleven essayists explore the various ways in which new approaches overlap and interrelate to form new ways of understanding narrative texts Postclassical narratology has reached a new phase of consolidation but also continued diversification This collection therefore discriminates between what one could call a critical but frame abiding and a more radical frame transcending or frame shattering handling of the structuralist paradigm Postclassical Narratology Approaches and Analyses discusses a large variety of different aspects of narrative such as extensions of classical narratology new generic applications autobiography oral narratives poetry painting and film the history of narratology the issue of fictionality the role of cognition and questions of authorship and authority as well as thematic matters related to ethics gender and queering Additionally it uses a wide spectrum of critical approaches including feminism psychoanalysis media studies the rhetorical theory of narrative unnatural narratology and cognitive studies In this manner the essays manage to produce new insights into many key issues in narratology The contributors also demonstrate that narratologists nowadays see the object of their research as more variegated than was the case twenty years ago they resort to a number of different methods in combination when approaching a problem and they tend to ground their analyses in a rich contextual framework *Die Poetik der Apostelgeschichte* Ute E. Eisen, 2006 Story Logic David Herman, 2004-01-01 Featuring a major synthesis and critique of interdisciplinary narrative theory Story Logic marks a watershed moment in the study of narrative David Herman argues that narrative is simultaneously a cognitive style a discourse genre and a resource for writing Because stories are strategies that help humans make sense of their world narratives not only have a logic but also are a logic in their own right providing an irreplaceable resource for structuring and comprehending experience Story Logic brings together and pointedly examines key concepts of narrative in literary criticism linguistics and cognitive science supplementing them with a battery of additional concepts that enable many different kinds of narratives to be analyzed and understood By thoroughly tracing and synthesizing the development of different strands of narrative theory and

provocatively critiquing what narratives are and how they work Story Logic provides a powerful interpretive tool kit that broadens the applicability of narrative theory to more complex forms of stories however and wherever they appear Story Logic offers a fresh and incisive way to appreciate more fully the power and significance of narratives

Basic Elements of Narrative David Herman, 2009-02-02 Basic Elements of Narrative outlines a way of thinking about what narrative is and how to identify its basic elements across various media introducing key concepts developed by previous theorists and contributing original ideas to the growing body of scholarship on stories Includes an overview of recent developments in narrative scholarship Provides an accessible introduction to key concepts in the field Views narrative as a cognitive structure type of text and resource for interpersonal communication Uses examples from literature face to face interaction graphic novels and film to explore the core features of narrative Includes a glossary of key terms full bibliography and comprehensive index Appropriate for multiple audiences including students non specialists and experts in the field

New Perspectives on Narrative Perspective Willie van Peer, Seymour Benjamin Chatman, 2001-03-29 Offers an interdisciplinary approach to narrative perspective with essays by leading scholars of literary studies cognitive psychology linguistics philosophy and film and media criticism

Rethinking Narrative Identity Claudia Holler, Martin Klepper, 2013 Why is it that we tend to think about our lives as stories Why do we strive to create coherent narratives that reflect a particular perspective What happens when we discover multiple perhaps conflicting perspectives in our narratives Following groundbreaking work in the study of narrative identity in the last 20 years the scholars of this volume have expanded and merged their theories of narrative identity with new perspectives in fields such as narratology literary theory philosophy cultural studies psychology sociology gender studies and history Their contributions focus on the significance of perspective in the formation of narrative identities probing the stratagems and narrative means of individuals in testing out personae for themselves

Narrativity, Coherence and Literariness Eva Sabine Wagner, 2020-06-08 The search for the defining qualities of narrative has produced an expansive range of definitions which largely unconnected with each other obscure the notion of narrativity rather than clarifying it The first part of this study remedies this shortcoming by developing a graded macro model of narrativity which serves three aims Firstly it provides a structured overview of the field of narrative elements and processes Secondly it facilitates the classification of narratological approaches by locating them on different stages of narrativity Finally it focuses attention on narrative dynamics as interpretative processes by which readers seek to produce narrative coherence The second part of this study identifies three different narrative dynamics which characterise Laclos's Dangerous Connections Kafka's Castle and Toussaint's novels Wagner bases her analyses of these dynamics not only on the texts themselves but also on the ways in which literary scholars imbue the texts with narrative coherence This book provides a long overdue systematisation of the jumbled field of theories of narrativity and opens new perspectives on the difficult relationship between narrative theory and interpretation

New Perspectives on Narrative and Multimodality Ruth Page, 2009-09-10 This study investigates the richly

diverse but integrated semiotic potential of storytelling Unlike other interdisciplinary approaches to narrative studies which have privileged the study of words in storytelling this unique collection provides a much needed analysis of how narrative operates using combinations of visual typographic aural gestural and haptic resources Although both multimodal theory and narrative studies have been invigorated by a variety of theoretical approaches this volume seeks to avoid a single dominant paradigm Instead the contributors use literary criticism linguistics and new media frameworks in a series of critical studies that are directly engaged with a range of multimodal stories The contributors analyze works that include oral accounts of personal experience opera cartoons print literature and new media forms of storytelling such as experimental digital fiction and fanfiction

Handbook of Narrative Analysis Luc Herman, Bart Vervaeck, 2019-12 Stories are everywhere from fiction across media to politics and personal identity Handbook of Narrative Analysis sorts out both traditional and recent narrative theories providing the necessary skills to interpret any story In addition to discussing classical theorists such as Gérard Genette Mieke Bal and Seymour Chatman Handbook of Narrative Analysis presents precursors such as E M Forster related theorists Franz Stanzel Dorrit Cohn and a large variety of postclassical critics Among the latter particular attention is paid to rhetorical cognitive and cultural approaches intermediality storyworlds gender theory and natural and unnatural narratology Not content to consider theory as an end in itself Luc Herman and Bart Vervaeck use two short stories and a graphic narrative by contemporary authors as touchstones to illustrate each approach to narrative In doing so they illuminate the practical implications of theoretical preferences and the ideological leanings underlying them Marginal glosses guide the reader through discussions of theoretical issues and an extensive bibliography points readers to the most current publications in the field Written in an accessible style this handbook combines a comprehensive treatment of its subject with a user friendly format appropriate for specialists and nonspecialists alike Handbook of Narrative Analysis is the go to book for understanding and interpreting narrative This new edition revises and extends the first edition to describe and apply the last fifteen years of cutting edge scholarship in the field of narrative theory
