## **Narrowing The Achievement Gap Schools And Parents Can Do It:**

Narrowing the Achievement Gap William Alfred Sampson, 2013-10-02 While it is quite clear that black and Latino students in general and poor black and poor Latino students in particular do not do as well as white students in school the road to real solutions to this very important and vexing problem is far from clear Some champion vouchers and charter schools as the ideal solution despite strong data suggesting that neither is particularly effective Others point to smaller classes Increasingly scholars and politicians support more accountability on the part of teachers despite the reality that teachers do not have a great deal of control over much that influences performance This book addresses the various solutions and suggests that any solution to the gap that ignores the role of families is limited at best and misguided at worst The book details an effort to help poor black and poor Latino families learn to do the things necessary to help their children to do better in school and argues that this family centered approach while complicated should be considered along side the school centered efforts

**Narrowing the Achievement Gap** Janet Goodall, 2017-04-21 Narrowing the Achievement Gap proposes a radical change to our conception of learning education and schooling arguing that parental engagement is the best lever we have for school improvement and closing the achievement gap Unique in its focus on original research linking underachievement and parental engagement this book uses a range of international case studies to demonstrate that achievement isn't only reliant on what happens in school and that what happens out of school is equally important Each chapter explores how schools can actively engage with parents and communities to reinstate education in the home and to generate support to combat issues out of their control including poverty deprivation and a lack of social capital Although schools have an integral part to play in this process it argues that parents and society must reconsider their own educational responsibility regardless of background and offers a solid research base and practical suggestions to help do so Consisting of an in depth and contemporary study of

this significant issue in educational achievement and written by an expert in the field this text will appeal to researchers academics and postgraduate students in the fields of education schooling sociology of education school effectiveness and improvement school policy and school leadership *Chicago Charter Schools* William Sampson,2016-02-01 The book compares the standardized test scores of both elementary and high schools charter schools with the scores for regular public schools located nearby It examines the position supported by charter school advocates that charter schools should be supported because they outperform regular public schools Given that charter schools in Chicago have enjoyed a great deal of support from the past two mayors and that they make up some 20% of all public schools in the city Chicago is the perfect location in which to examine this critical issue Charter schools siphon money and in theory better students from regular public schools at a time when public schools in almost every big city faces financial difficulties Teachers unions oppose them as do most liberal scholars Conservatives and big business support them as do most conservative scholars The existence of charter schools is a most divisive issue Yet little real data exist to allow us to properly judge the effectiveness of charters The current work changes that by examining test data in a sophisticated manner that allows comparisons between charters and regular schools This work should move the debate forward but will no doubt generate controversy as well **Changing Policies to Close the Achievement Gap** Cynthia D.
