, 1997 **Dynamics of Memory and Identity in Contemporary Europe** Eric Langenbacher, Bill Niven, Ruth Wittlinger, 2013-03-01 The collapse of the Iron Curtain the renationalization of eastern Europe and the simultaneous eastward expansion of the European Union have all impacted the way the past is remembered in today s eastern Europe At

the same time in recent years the Europeanization of Holocaust memory and a growing sense of the need to stage a more self critical memory has significantly changed the way in which western Europe commemorates and memorializes the past The increasing dissatisfaction among scholars with the blanket undifferentiated use of the term collective memory is evolving in new directions This volume brings the tension into focus while addressing the state of memory theory itself

these opponents of Britain's policy To date studies of Britain's unsuccessful bid for entry have focused on high political analysis of diplomacy and policy formulation In most accounts only passing reference is made to domestic opposition This book redresses the balance by providing a more complete depiction of the opposition movement and a distinctive approach that proceeds from a low political viewpoint As such the book emphasises protest and populism of the kind exercised by among others Fleet Street crusaders at the Daily Express pressure groups such as the Anti Common Market League and Forward Britain Movement expert pundits like A J P Taylor Sir Arthur Bryant and William Pickles as well as constituency activists independent parliamentary candidates pamphleteers letter writers and maverick MPs In its consideration of a group largely overlooked in previous accounts the book provides essential insights into the intellectual structural populist and nationalist dimensions of early Euroscepticism The book will be of significant interest to both scholars and students of national identity Britain's relationship with Europe and the Commonwealth pressure groups and party politics and the trajectory of the Eurosceptic phenomenon

Language and National Identity Leigh Oakes, 2001-01-01 This book re-examines the relationship between language and national identity Unlike many previous studies it employs a comparative approach France and Sweden have been chosen as case studies both for their similarities e.g. both are member states of the European Union as well as their important differences e.g. France subscribes in principle to a civic model of national identity whereas the basis of Swedish identity is undeniably ethnic It is precisely differences such as these which allow for a more comprehensive understanding of the ethnolinguistic implications of some of the major challenges currently facing France Sweden and other European countries regionalism immigration European integration and globalization The present volume benefits from the use of a multidisciplinary approach and differs from others on the market because of the variety of methods of inquiry used A series of societal analyses is complemented by an empirical component bringing a more grounded understanding to the issue of language and national identity

Multiplicity of Nationalism in Contemporary Europe Ireneusz Paweł Karolewski, Andrzej Marcin Suszycki, 2010-01-01 Nationalism remains one of the key political societal and socio psychological phenomena in contemporary Europe The international scholars assembled in this edited collection suggest that the use of three perspectives supranationalism boundary making nationalism and regional nationalism may be promising as an explanatory framework for the analysis of nationalism in Europe The volume distances itself from older dichotomies such as civic and ethnic nationalism and questions the one sided normativity of nationalism in particular regarding the concept of liberal nationalism It argues that a promising approach to contemporary nationalism should reflect the multiplicity of nationalism
