Kjetil Fallan, Grace Lees-Maffei

Nationalism A Very Short Introduction:

Nationalism: A Very Short Introduction Steven Elliott Grosby, 2005-09-08 Throughout history humanity has borne witness to the political and moral challenges that arise when people place national identity above allegiance to geo political states or international communities This book discusses the concept of nations and nationalism from social philosophical geological theological and anthropological perspectives It examines the subject through conflicts past and present including recent conflicts in the Balkans and the Middle East rather than exclusively focusing on theory Above all this fascinating and comprehensive work clearly shows how feelings of nationalism are an inescapable part of being human

Nationalism, Ethnicity and the State John Coakley, 2012-11-12 This exciting new book is the first to offer a truly comprehensive account of the vibrant topic of nationalism Packed with a series of rich illustrative examples the book examines this powerful and remarkable political force by exploring Definitions of nationalism Language and nationalism Religion and Nationalism Nationalist history The social roots of ideologies and the significance of race gender and class Nationalist movements from dominant majorities to peripheral minorities socio economic and sociological perspectives State responses to nationalism Supported by a number of helpful illustrations tables and diagrams the text is both engaging and highly informative

Nationalism Ethnicity and the State Making and Breaking Nations will prove an insightful read for both undergraduate and postgraduate students and researchers in the area of Politics and International Relations

Protestant Nationalists in Ireland, 1900–1923 Conor Morrissey, 2019-10-10 An innovative and original analysis of Protestant advanced nationalists from the early twentieth century to the end of the Irish Civil War

Designing Worlds Kjetil Fallan, Grace Lees-Maffei, 2016-06-01 From consumer products to architecture to advertising to digital technology design is an undeniably global phenomenon Yet despite their professed transnational perspective historical studies of design have all too often succumbed to a bias toward Western industrialized nations This diverse but rigorously curated collection recalibrates our understanding of design history reassessing regional and national cultures while situating them within an international context Here contributors from five continents offer nuanced studies that range from South Africa to the Czech Republic all the while sensitive to the complexities of local variation and the role of nation states in identity construction

Theatre and Nation Nadine Holdsworth, Nicholas Hytner, 2010-06-30 How has theatre engaged with the nation state and helped to formulate national identities What impact have migration and globalisation had on the relationship between theatre and nation Theatre Nation explores how theatre institutions playwrights theatre makers and performance artists engage with the nation nationalism and national identity in their work The book argues that theatrical representations of the nation are constantly in flux and that the way theatre engages with the nation changes according to different geographical political economic social and cultural circumstances Foreword by Nicholas Hytner

Our Country Grant R. Brodrecht, 2018-06-05 On March 4 1865 the day Abraham Lincoln delivered his second inaugural address Reverend Doctor George Peck put the finishing touches on a

collection of his sermons that he intended to send to the president Although the politically moderate Peck had long opposed slavery he along with many other northern evangelicals was not an abolitionist During the Civil War he had come to support emancipation but like Lincoln the conflict remained first and foremost about preserving the Union Believing their devotion to the Union was an act of faithfulness to God first and the Founding Fathers second Our Country explores how many northern white evangelical Protestants sacrificed racial justice on behalf of four million African American slaves and then ex slaves for the Union s persistence and continued flourishing as a Christian nation By examining Civil War era Protestantism in terms of the Union author Grant Brodrecht adds to the understanding of northern motivation and the eventual failure of Reconstruction to provide a secure basis for African American s equal place in society Complementing recent scholarship that gives primacy to the Union Our Country contends that non radical Protestants consistently subordinated concern for racial justice for what they perceived to be the greater good Mainstream evangelicals did not enter Reconstruction with the primary aim of achieving racial justice Rather they expected to see the emergence of a speedily restored prosperous and culturally homogenous Union a Union strengthened by God through the defeat of secession and the removal of slavery as secession s cause Brodrecht eloquently addresses this so called proprietary regard for Christian America considered within the context of crises surrounding the Union s existence and its nature from the Civil War to the 1880s Including sources from major Protestant denominations the book rests on a selection of sermons denominational newspapers and journals autobiographies archival personal papers of several individuals and the published and unpublished papers of Abraham Lincoln Andrew Johnson and Ulysses S Grant The author examines these sources as they address the period s evangelical sense of responsibility for America while keyed to issues of national and presidential politics Northern evangelicals love of the Union arguably contributed to its preservation and the slaves emancipation but in subsuming the ex slaves to their vision for Christian America northern evangelicals contributed to a Reconstruction that failed to ensure the ex slaves full freedom and equality as Americans

The Quest for the Primordial Elisa Vitali, 2023-07-31 Although fifty years passed since the boom of the theories on Japanese national character and considerable academic literature was produced to debunk its ideological tenets the Nihonjinron still plays a significant role in the mainstream public discourse on Japanese identity Intellectuals journalists policymakers routinely repropose the ever lasting cliché of Japanese cultural linguistic racial uniqueness In doing so they adopt a primordialist stance in the narration of Japanese identity that is a conception of Japanese nation as a primordial entity located in an original fatherland since immemorial times Drawing on the writings of Suzuki Takao and Watanabe Shoichi the book analyses the rhetorical strategies and discursive features supporting essentialist ideas of Japaneseness At the same time it highlights the heuristic value of primordialism as an effective descriptor of the nationalist ideology thus challenging its widespread usage as a category of analysis Routledge International Handbook of Contemporary Social and Political Theory Gerard Delanty, Stephen P. Turner, 2011-03-23 The triangular relationship between

the social the political and the cultural has opened up social and political theory to new challenges The social can no longer be reduced to the category of society and the political extends beyond the traditional concerns of the nature of the state and political authority This Handbook will address a range of issues that have recently emerged from the disciplines of social and political theory focusing on key themes as opposed to schools of thought or major theorists It is divided into three sections which address the most influential theoretical traditions that have emerged from the legacy of the twentieth century the most important new and emerging frameworks of analysis today the major theoretical problems in recent social and political theory The Routledge International Handbook of Contemporary Social and Political Theory encompasses the most up to date developments in contemporary social and political theory and as such is an essential research tool for both undergraduate and postgraduate students as well as researchers working in the fields of political theory social and political philosophy contemporary social theory and cultural theory

The American Revolution Neil L. York, 2016-07-15 In *The American Revolution 1760 to 1790 New Nation as New Empire* Neil York details the important and complex events that transpired during the creation of the enduring American Republic This text presents a global look at the emerging nation's quest to balance liberty and authority before during and after the conflict with Great Britain from the fall of Montreal through the Nootka Sound controversy Through reviewing the causes and consequences of the Revolutionary era York uncovers the period's paradoxes in an accessible introductory text Taking an international perspective which closely examines the diplomatic and military elements of this period this volume includes Detailed maps of the Colonies with important battle scenes highlighted Suggestions for further reading allowing for more specialized research Comprehensive international context providing background to Great Britain's relations with other European powers Brief in length but broad in scope York's text provides the ideal introductory volume to the Revolutionary War as well as the creation of American democracy

The Oxford Handbook of Portuguese Politics Jorge M. Fernandes, Pedro C. Magalhães, António Costa Pinto, 2022-09-29 The *Oxford Handbook of Portuguese Politics* brings together the best scholars in the field offering an unrivalled coverage of the politics broadly defined of the country over the past 50 years The Handbook includes eight sections First it looks at the past and present by making an overview of Portuguese political developments since democratization in the 1970s Second it looks at political institutions as the building blocks of Portuguese democracy The third section examines mass politics and voters that is a thorough analysis of the demand side of mass politics The fourth section turns to the supply side of mass politics by looking at parties and the party system The fifth section looks at the Portuguese society by unpacking a plethora of societal aspects with direct implications for politics The sixth section examines governance and public policies with a view to understanding how a constellation of public policies has an impact on the quality of governance and in fostering well being The seventh section looks at Portugal and the European Union The eighth and final section unpacks Portuguese foreign policy and defence

Asian Nationalisms Reconsidered Jeff

Kingston,2015-12-22 Nationalism appears to be rising in a renascent Asia and stoking tensions aspirations and identity politics while amplifying grievances and raising questions about prospects in what is touted as the Asian century This book provides a broad overview and introduction to nationalism in Asia Leading experts in their fields succinctly convey key information and critical analysis useful to students in a range of courses across disciplines Part I presents thematic chapters mostly cross national studies that elucidate the roots and consequences of nationalism in these societies and the varying challenges they confront Part II presents concise country case studies in Asia providing an overview of what is driving contemporary nationalism and surveys the domestic and international implications Approaching Asia from the perspective of nationalism facilitates a comparative interdisciplinary analysis that helps readers better understand each society and what the ramifications of nationalism are for contemporary Asians and the worlds that they and we participate in Asian Nationalisms Reconsidered is an invaluable textbook for undergraduate courses and graduate seminars related to international relations Asian Studies political science government foreign policy peace and conflict and nationalism

British imperialism in Cyprus, 1878-1915 Andrekos Varnava,2017-03-01 This book explores the tensions underlying British imperialism in Cyprus Much has been written about the British Empire s construction outside Europe yet there is little on the same themes in Britain s tiny empire in Europe This study follows Cyprus progress from a perceived imperial asset to an expendable backwater by explaining how the Union Jack came to fly over the island and why after thirty five years the British wanted it lowered Cyprus importance was always more imagined than real and was enmeshed within widely held cultural signifiers and myths British Imperialism in Cyprus fills a gap in the existing literature on the early British period in Cyprus and challenges the received and monolithic view that British imperial policy was based primarily or exclusively on strategic military considerations The combination of archival research cultural analysis and visual narrative that makes for an enjoyable read for academics and students of Imperial British and European history Higher Education in Portugal 1974-2009 Guy Neave,Alberto Amaral,2011-12-21 A comprehensive wide ranging and detailed account of the unfolding of higher education and higher education policy in Portugal from 1974 to 2009 by leading policy makers and scholars with the explicit purpose of showing how different disciplinary canons and perspectives contribute to the study of higher education and higher education policy including Law and Science Policy perspectives Whilst focusing on one referential system this book deals with current policy issues emerging in the wake of the post Bologna period It also examines their long term historical origins in addition to the measures taken to address them The substantive chapters are preceded by a detailed Introductory overview that places the issues treated in this volume in a solidly European perspective and sets out explicitly the differences in the dominant political cultural and social values that set Portuguese as other Continental European systems of higher education apart from their Anglo Saxon counterparts **TransGothic in Literature and Culture** Jolene Zigarovich,2017-09-08 This book contributes to an emerging field of study and provides new perspectives on the ways in

which Gothic literature visual media and other cultural forms explicitly engage gender sexuality form and genre The collection is a forum in which the ideas of several well respected critics converge producing a breadth of knowledge and a diversity of subject areas and methodologies It is concerned with several questions including How can we discuss Gothic as a genre that crosses over boundaries constructed by a culture to define and contain gender and sexuality How do transgender bodies specifically mark or disrupt this boundary crossing In what ways does the Gothic open up a plural narrative space for transgenre explorations encounters and experimentation With this the volume s chapters explore expected categories such as transgenders transbodies and transembodiments but also broader concepts that move through and beyond the limits of gender identity and sexuality such as transhistories transpolitics transmodalities and transgenres Illuminating such areas as the appropriation of the trans body in Gothic literature and film the function of trans rhetorics in memoir textual markers of transgenderism and the Gothic s transgeneric qualities the chapters offer innovative but not limited ways to interpret the Gothic In addition the book intersects with but also troubles non trans feminist and queer readings of the Gothic Together these diverse approaches engage the Gothic as a definitively trans subject and offer new and exciting connections and insights into Gothic Media Film Narrative and Gender and Sexuality Studies *Adapting Nations* Alon Helled, Carlo Pala, 2025-05-28 Nations adapt Nations are resilient both within and outside the boundaries of statehood Yet scholarship tends to downplay nationhood as it focuses on the polity As a consequence the investigation of modern societies though usually articulated around the nation state model falls into state centrism whilst neglecting the other side of the coin This book initiates an interdisciplinary debate that encourages research in a field that has largely been overlooked in European social and political sciences The analysis offered by the authors reinstates the concept of the nation beyond the traditional and somewhat dichotomous schools of thought hence neither judging the nation as a mere invention nor as a deterministic product of history The book provides those interested in nationalism with new approaches to exploring national identity and its connection to statehood By using concepts inspired by political science and sociology namely habitus survival unit polity hysteresis and so forth the different chapters of the volume revitalise the inquiry of the dimensions and features in which the nation and the identification they engender become tools of adaptation in relation to the transformative reality of our own contemporaneity The authors thus contextualise the latter via the mid range concept of national resilience at both meso and macro levels Media and Nation Building in Twentieth-Century India Kalyan Chatterjee, 2019-09-09 This book profiles twentieth century India through the life and times of Ramananda Chatterjee journalist influencer nationalist Through a reconstruction of his history the book highlights the oft forgotten role of media in the making of the idea of India It shows how early twentieth century colonial India was a curious melee of ideas and people a time of rising nationalism as well as an influx of Western ideas of unprecedented violence and compelling non violence of press censorship and defiant journalism It shows how Ramananda Chatterjee navigated this world and went beyond the traditional definition of the nation as an entity

with fixed boundaries to anticipate Benedict Anderson and Ernest Gellner The volume also examines the wide reach and scope of his journals in English Hindi and Bengali which published the likes of Rabindranath Tagore Subhash Bose Abanindranath Tagore Nandalal Bose Ananda Coomaraswamy the scientist J C Bose and Zhu De the co founder of the Chinese Red Army He also published India in Bondage by the American Unitarian minister J T Sunderland which resulted in his arrest An intriguing behind the scenes look of early twentieth century colonial India this book will be of great interest to scholars and researchers of history modern South Asia and media and cultural studies Introduction to Political Theory Paul Graham, John Hoffman, 2022-03-21 This vibrant and significantly revised new edition is a comprehensive and accessible text for studying political theory in a changing world Bringing together classic and contemporary political concepts and ideologies into one book it introduces the major approaches to political issues that have shaped our world and the ideas that form the currency of political debate Consistently it relates political ideas to political realities through effective use of examples and case studies making theory lively contentious and relevant With significant revisions which reflect the latest questions facing political theory in an increasingly international context key features and updates include Two brand new chapters on Migration and Freedom of Speech and a significant new section on the radical right Thought provoking case studies to bring the theory to life including social media and internet regulation Brexit and the EU anti vaxxer campaigns surrogacy tourism and autonomous anarchist zones A revamped website including podcasts to aid study of and reading around the subject Introduction to Political Theory Fourth Edition is the perfect accompaniment to undergraduate study in political theory political philosophy concepts and ideologies and more broadly to the social sciences and philosophy **The Cultural Foundations of Nations** Anthony D. Smith, 2008-04-30 This major new work by Professor Anthony D Smith challenges the notion of nationalism as a product of modernity Major new work by a leading historical sociologist Challenges the prevailing idea of nationalism as a product of modernity Demonstrates that different political forms of community and collective identity from pre modern times have contributed to the formation and character of nations Analyzes the chronology and nature of nations from the ancient world to the European Middle Ages the early modern and the modern eras Discusses alternative destinies facing modern nations today Nationalism in Europe and America , 2011 Nationalism in Europe and America *A Museum Studies Approach to Heritage* Sheila Watson, Amy Jane Barnes, Katy Bunning, 2018-10-08 Heritage's revival as a respected academic subject has in part resulted from an increased awareness and understanding of indigenous rights and non Western philosophies and practices and a growing respect for the intangible Heritage has thus far focused on management tourism and the traditionally heritage minded disciplines such as archaeology geography and social and cultural theory Widening the scope of international heritage studies A Museum Studies Approach to Heritage explores heritage through new areas of knowledge including emotion and affect the politics of dissent migration and intercultural and participatory dimensions of heritage Drawing on a range of disciplines and the best from established sources the book

includes writing not typically recognised as heritage but which nevertheless makes a valuable contribution to the debate about what heritage is what it can do and how it works and for whom Including heritage perspectives from beyond the professional sphere the book serves as a reminder that heritage is not just an academic concern but a deeply felt and keenly valued public and private practice This blending of traditional topics and emerging trends established theory and concepts from other disciplines offers readers international views of the past and future of this growing field A Museum Studies Approach to Heritage offers a wider more current and more inclusive overview of issues and practices in heritage and its intersection with museums As such the book will be essential reading for postgraduate students of heritage and museum studies It will also be of great interest to academics practitioners and anyone else who is interested in how we conceptualise and use the past

Thank you completely much for downloading **Nationalism A Very Short Introduction**. Maybe you have knowledge that, people have look numerous time for their favorite books considering this Nationalism A Very Short Introduction, but end in the works in harmful downloads.

Rather than enjoying a good PDF as soon as a cup of coffee in the afternoon, instead they juggled behind some harmful virus inside their computer. **Nationalism A Very Short Introduction** is open in our digital library an online admission to it is set as public fittingly you can download it instantly. Our digital library saves in combined countries, allowing you to get the most less latency times to download any of our books gone this one. Merely said, the Nationalism A Very Short Introduction is universally compatible subsequent to any devices to read.
