**The Oxford Handbook of Stress and Mental Health** Kate L. Harkness, Elizabeth P. Hayden, 2019-12-17 Decades of research

have unequivocally shown that life stress is a central factor in the onset and course of almost every psychiatric disorder. However, the processes by which stress influences mental health are complex, and the integration of the myriad of biological and psychological systems involved requires a multidisciplinary perspective. Fortunately, scientists working from diverse vantage points have made huge advances in unpacking the complexities of stress disorder relations. The Oxford Handbook of Stress and Mental Health provides a comprehensive up-to-date overview of the science of stress and mental health. Topics covered include assessment issues, the role of stress in various mental disorders, developmental influences, and individual difference factors that predict reactivity to stress and treatment of stress-related mental health problems. Internationally recognized scholars in the field of stress and stress-related disorders have contributed their diverse expertise, providing both depth and breadth in terms of understanding stress and mental health. Chapters 1 to 4 provide a critical discussion of assessment issues in the domains of stress exposure and stress response. Chapters 5 to 14 review the relation of stress exposures to a broad range of mental health outcomes across the lifespan. Chapters 15 to 25 are concerned with understanding how the stress response unfolds at both psychological and neurobiological levels. Lastly, Chapters 26 to 33 address stress adaptation and resilience, as well as evidence-based treatments for stress and stress-related disorder. This volume will constitute an invaluable resource for students, established scientists, and clinicians looking for a comprehensive treatment of the topic of stress and mental health.

#### **Language Learning Motivation in a Multilingual Chinese**

**Context:** Mairin Hennebry-Leung, Xuesong (Andy) Gao, 2022-07-13. Drawing on quantitative and qualitative data from teachers and students in Hong Kong's secondary schools, this book examines critical questions in relation to language learning motivation and instructional contexts. Readers are provided with a critical overview of developments in theory and research on language learning motivation and the potential to further extend these developments. Grounded in the Douglas Fir Group conceptualization of language learning, the book explores the complex interplay of diverse factors that shape learners' motivation. It offers a unique window into the situated nature of language learning motivation in the macro, meso, and micro contexts of a Chinese heritage society. In so doing, it brings the Chinese voice into the theorization of this important language learning construct. Potential future research avenues are suggested, and implications for policy and practice are discussed. This book will be a useful resource for academics and postgraduates interested in the fields of English as a second language, ESL, English language teaching, language teaching, and learning.
