Oxoid Manual 11th Edition:

Food Microbiology Phyllis Entis, 2002 **Laboratory Methods in Microbiology** W. F. Harrigan, Margaret E. McCance, 2014-06-28

Laboratory Methods in Microbiology is a laboratory manual based on the experience of the authors over several years in devising and organizing practical classes in microbiology to meet the requirements of students following courses in microbiology at the West of Scotland Agricultural College. The primary object of the manual is to provide a laboratory handbook for use by students following food science, dairying, agriculture and allied courses to degree and diploma level, in addition to being of value to students reading microbiology or general bacteriology. It is hoped that laboratory workers in the food manufacturing and dairying industries will find the book useful in the microbiological aspects of quality control and production development. The book is organized into two parts. Part I is concerned with basic methods in microbiology and would normally form the basis of a first year course. Abbreviated recipes and formulations for a number of typical media and reagents are included where appropriate so that the principles involved are more readily apparent. Part II consists of an extension of these basic methods into microbiology as applied in the food manufacturing, dairying and allied industries. In this part the methods in current use are given in addition to or in place of the classical or conventional techniques.

Infections and Tropical Medicine E-Book Derek G. Waller, 2016-09-13

Infections and Tropical Medicine is a new e-book in a collection of subject-themed e-books containing relevant key articles from Medicine. The e-books provide a perfect source of revision for postgraduate exams in clinical medicine and portfolio material for life-long learning. As well as mapping to the UK Core Medical Training curriculum, these e-books also enable anyone with a short-term interest in a specific area to buy individual articles at a price point that will give affordable access to all readers from medical students to GPs and practitioners in related areas. The quality of user experience on mobiles, tablets and laptops will be an added bonus for learning on the move. The whole board has been involved in the creation of this content and are therefore listed as authors on all the e-books. In addition, we extend our warm thanks for their contribution to these e-books to the past Chairman, Allister Vale, who stepped down from the board in 2015, and to John Mucklow, who stepped down in 2016.
